[SOUTH AFRICA.]

BRITISH VICTORIOUS.

Dewet's Army Routed by Methuen.

Buller Gets Rear-end View of the Burghers.

Oom Paul Keeping Up Steam at His Capital.

Roberts Gives England Good News. Has Situation in Hand.

[A. P. NIGHT REPORT.]

LONDON, June 14, 2:40 a. m.—[By Atlantic Cable.] A dispatch from Lord Roberts, clearing up the situation at Pretoria and along the communications, stands alone. Military observers, noting that no mention is made of prisoners, assume that Gen. Dewet got away with his forces practically intact after the battle which he has had with Methuen.

Gen. Buller entered Volksrust Wednesday, pushed through Charleston, and encamped near Laing's Nek. The tunnel was not much damaged. Both ends were blown up, but the engineers think that the repairs can be effected in about four days. The advance troops of Gen. Buller saw the Boer rearguard four miles distant yesterday. It was estimated that 8000 Boers were withdrawn. The townspeople at Ermelo counted fifteen guns.

Three hundred Free Staters, released from guarding Van Rennen's Pass, have gone to join President Steyn's command in the eastern part of Orange River colony. Gen. Rundle has sent notice to the Free Staters that unless they surrender by June 16, their farms and other possessions will be confiscated.

President Kruger, according to a dispatch from Lorenzo Marques, keeps a locomotive with steam up attached to the car in which he concentrates the executive offices of the government, and it is said that he intends to leave Machadodorp soon only to establish the Transvaal capital at Nel Spruit in the mountains, a fine defensive region.

The State printing press is operating at Machadodorp, producing the leaflets containing war news for distribution among the Boers.

It is again reported at Lorenzo Marques that the British are advancing through Swaziland. Lord Roberts, it appears, however, countermanded the order given to Stathcona's Horse to land on the coast and to penetrate to the Transvaal through the Swazi country.

Mr. Schreiner, the Cape Premier, and his colleagues resigned last evening. Sir Alfred Milner accepting their resignation. The oLndon newspapers only recently abused Mr. Schreiner for not making war preparations. Now they are complimenting his refusal to follow the majority of the Afrikander bund in opposition to the British military policy.

Gen. Buller's casualties, June 10, have been issued by the War Office. They were 2 killed, 120 wounded and two missing.

A meeting of women who object to the war was held at Queen's Hall last evening. Mrs. Howard Courtney presided, and Mrs. James Brice moved a resolution declaring that the war resulted from the "bad policy of the government." This and other antiwar resolutions were adopted. The meeting hissed Chamberlain's name vigorously.

M. H. Donahue, the Daily Mail's correspondent at Pretoria, insists that President Kruger took £1,500,000 of gold in his flight.

FIGHTING THAT COUNTS.

Kitchener and Methuen Put Dewet to Flight.

Lord Roberts Breaks Long Silence With a Long Communication.

[A. P. DAY REPORT.]

LONDON, June 13, 6:03 p.m.—[By Atlantic Cable.] The following dispatch has been received at the War Office from Lord Roberts:

"KATSBOSCH, June 12. In yesterday's engagement, Methuen had one killed and eighteen wounded. Among the latter is Lieut. C. Earle of the Twelfth Battalion of Yeomanry. June 7, the Derbyshire Militia lost 28 killed and 104 wounded, all of whom were in the Yeomanry hospital, which was captured by the Boers and retaken by Methuen."

METHUEN'S VICTORY COMPLETE.

GEN. DEWET'S CAMP CAPTURED.

[A. P. DAY REPORT.]

LONDON, June 13.—[By Atlantic Cable.] After a week's silence, Lord Roberts has been heard from, his line of communications having been practically restored by means of a complete victory gained by Generals Methuen and Kitchener over Gen. Dewet at the Rhenoster River, yesterday, June 12. The Boer camp was captured, and the Burghers it is added, were scattered in all directions.

Lord Roberts, on being notified of the cutting of his line of communications, sent Gen. Kitchener in all haste to join Gen. Methuen. June 11, Lord Roberts attacked Gen. Botha, who was in strong force fifteen miles southeast of Pretoria. After strenuous opposition, the British forces gained considerable ground, but Gen. Botha, when Lord Roberts, left the field, was still undefeated.

All is quiet at Pretoria and Johannesburg, and Lord Roberts says the Government need have no apprehension about the safety of the army in South Africa, as it will not take long to remedy the reverses and repair the railroad.

A lengthy dispatch forwarded to the War Office by Maj.-Gen. Knox from Kroonstadt, presumably sent there by messenger, reads as follows:

"KROONSTADT, June 12.—We have been requested to forward you from Lord Roberts the following dispatch from the Pretoria presidency at 5:08 a. m. today:

"PRETORIA, June 12.—Pretoria and Johannesburg are perfectly quiet, and several of the inhabitants have expressed gratitude for the peace and order which prevail. After surrendering the city Botha retired to a place about fifteen miles east on the Middelburg road. He had a small force, but during the last few days his numbers increased, and his being so near the town kept up the excitement in the country; prevented the burghers from laying down their arms, and interfered with the collection of supplies. It therefore became necessary to attack him. This I did yesterday. He held a very strong position, practically unassailable in front, which enabled him to place the main portion of his troops on his flanks, which he knew from former experience were his vulnerable parts.

"I sent French, with Porter's and Dixon's cavalry brigades and Hutton's mounted infantry around by our left, and Ian Hamilton and Broadwood and Gordon's cavalry brigade, Ridley's mounted infantry and Bruce Hamilton's infantry brigade round by our right. Both columns met with great opposition. At about 3 o'clock in the afternoon, I saw two of Hamilton's infantry battalions advancing to what appeared to be the key of the enemy's defense, on their left flank. This was almost gained before dark, and I ordered the force to bivouac on the ground they had won.

"Pole-Carew, with his division, occupied our center. As I have explained, he could not attack, but he gradually advanced so as to support Ian Hamilton, and when I left the field he was on the line held by the enemy's outposts in the morning. I hurried back to get news of Methuen's movement.

"On hearing that the Free Staters had taken advantage of our crossing the Vaal to interrupt our line of communication, I sent Kitchener with such troops as I could then spare to Ver (Vredefort) with orders to push south and communicate with Methuen, who, I knew, haw a very compact force in the vicinity of Heilbron. I also dispatched a special messenger to Methuen, instructing him to push on at all speed to the main line of railway. These two officers met at Vredefort road station in the evening of June 10. They marched yesterday to Rhenoster River, where Methuen gained a complete victory over Dewet, and took possession of his camp and scattered his troops in all directions. He and Kitchener marched today toward Kroonstadt.

"Her Majesty's government need have no apprehension as to the security of the army in South Africa. The enemy gained a slight success, which was unfortunate, but will be remedied very shortly, and it will not take long to repair the damage done to the railway. As the divisions are all in existence I am now able to hold the line between this and Rhenoster in strength. Methuen will arrange to guard it Wednesday as he advances. Hunter should be at Potchefstroom today. He will then move on Johannesburg. We have communicated with Buller, who will no doubt soon make the presence of his force in the field felt. Our losses yesterday were not, I trust, serious, but I deplore the death of that gallant soldier, the Earl of Airlie. The only other casualties reported as yet are: Seventeenth Lancers—Major, the Hon. Lionel Fortesque and Lieutenant, the Hon. C. Cavendish, both killed.'"

Gen. Knox adds that Kroonstadt is quiet and safe.

Lord Roberts's dispatch is regarded as eminently satisfactory. It ends a period of suspense caused by the cutting of his line of communications and indicates what a strong grip he has on the situation.

The result of the battle between Lord Roberts and Gen. Botha is eagerly awaited here, but it is believed the Boer commander will only complete his retirement, which he seems to have already commenced, though there is some hope in London that Lord Roberts will be able to surround him. The decisive victory scored by Gens. Methuen and Kitchener is regarded as likely to have a more far-reaching effect than any recent action in the Orange River colony. Gen. Kitchener's operations south must have almost equaled the records of all forced marches. His detachment from headquarters was a merely routine procedure, as the chief of staff is responsible for the line of communications.

Gen. Buller is rapidly fulfilling Lord Roberts's hope that he will make his forces felt. A dispatch from Joubert's Farm, under date of today, announces the continuation of Buller's successful march, the occupation of Volksrust without opposition and the capture of a number of prisoners, while the Boer casualties yesterday are reported to have been very heavy.

At the Cape, the ministerial crisis continues. The Times correspondent cables that though the announcement of the resignation of Messrs. Tewater, Sauer and Merriman was premature, it seems certain that they will resign. It is probable that the whole ministry will resign, a solution of the difficulty being possibly found by the Progressives lending Premier Schreiner two members to fill the vacant seats in the Cabinet. Haus Sauer, a brother of the dissentient Minister, J. W. Sauer, has just arrived in England from the Cape. In an interview today, he said he believed Rose-Innes would consent to join Schreiner, and was sure Sir John Gordon Spriggs would also do so if asked. With such a combination, he added, Schreiner was assured of a majority, though a slim one.

A special dispatch from Cape Town reports that the Boers recently captured a train at Smaldeel and destroyed two miles of track, but subsequent dispatches show that Gen. Hunter routed all the Boers in that neighborhood.

The Earl of Airlie, whose death Lord Roberts deplores, was one of the most popular members of the nobility and commanded the Twelfth Lancers. Lieut. Cavendish was the son and heir of Lord Chesham. Maj. Fortescue was formerly aide-de-camp to Lord Seymour in Canada.

[CHINA.]

TSI AN A GOOD GIRL.

Assents to Plans of the Powers.

Will Not Object to the Troops' Presence.

Wonderful Change of Front by the Dowager.

Russia Resents Rumors—Reported Murder of a Missionary.

[A. P. NIGHT REPORT.]

WASHINGTON, June 13.—Definite official information was received here this afternoon from the Foreign Office of one of the most important continental powers, stating that the Tsung Li Yamen had notified the Minister of that power at Peking that the Dowager Empress would not object to the presence of foreign troops in China's territory. This change of front came as a distinct surprise to the officials and diplomats, as all the reports up to this time had pictured the Empress Dowager as intensely hostile to the foreigners and as the real power behind the "Boxers" in the anti-foreign uprising.

The Empress Dowager's acquiescence in the plans of the powers is felt to remove a threatened complication, and at the same time to give evidence that the Empress Dowager is no longer yielding to the anti-foreign clamor.

In official Russian quarters, the rumors that the Empress Dowager has sought a refuge at the Russian legation in Peking are discredited, and are resented as a bit of inspired intrigue designed to create the impression that Russian sympathies are with the anti-foreign element. It was pointed out that Russia's course has been marked by the utmost reserve, for while it would have been possible at any time to land large forces in China, the Russian force actually landed has been comparatively insignificant, mainly for the reason that Russia desires to be wholly free from any imputation of ulterior designs.

It was stated in diplomatic quarters tonight that the Belgian secretary of legation at Peking, who was attacked by a mob Monday, was probably Philip May, formerly with the Belgian legation in Washington, and quite prominent in social and official circles here, as his post of late has been at Peking.

CHINESE INTRENCHED.

WILL OPPOSE THE TROOPS.

[A. P. NIGHT REPORT.]

LONDON, June 14, 4:20 a.m.—[By Atlantic Cable.] The Chinese are intrenched outside of Peking to oppose the advance of the international column. A dispatch from Tien-Tsin, dated Tuesday, June 12, says: "I learn that the Chinese have guns trained on the American mission and the British Legation. Two thousand Russian cavalry and infantry, with artillery, have landed at Taku."

The Shanghai correspondent reports that United States Minister Conger, by courier, asks for 2000 United States troops. The question of provisioning the relief force is already difficult, and it is predicted at Shanghai that it will become acute.

The leading members of the reform party, representing fifteen of eighteen provinces, are at Shanghai. A dispatch to the Daily Mail, dated yesterday, says they are sending a petition to the United States, Great Britain and Japan, praying those powers to take joint action against any attempt on the part of the other powers to partition the empire, and they implore the powers thus addressed to rescue the Emperor.

A dispatch from St. Petersburg says that the ships of the Russian Pacific squadron of the active list, as well as those at Vladivostok, have been ordered to proceed with all haste to Chinese waters.

The Foreign Office confirms the report of an engagement between troops of the international column and the "Boxers" Monday. It says that "about thirty-five Chinese were killed."

EXTRAORDINARY RUMORS.

POWERS TO FORGIVE DOWAGER.

[A. P. DAY REPORT.]

SHANGHAI, June 13.—[By Asiatic Cable.] Extraordinary rumors are current here to the effect that the powers have settled the Chinese question by agreeing to forgive the Dowager Empress and her Manchu advisers, provided they promise to amend their future conduct.

BRITISH GET ORDERS.

[A. P. DAY REPORT.]

HONGKONG, June 13.—Orders have been issued to the contingent of British troops assembled here for service in the north to sail for Tien-Tsin June 14. Maj. Morris of the artillery will be in command.

JAPAN'S ATTITUDE.

[A. P. DAY REPORT.]

LONDON, June 13.—In regard to the reports that Japan is about to declare war on China, it was learned by a representative of the Associated Press at the Japanese Embassy that the attitude of Japan in the Chinese crisis is to coöperate loyally with the European powers. In the existing situation, Japan would not be willing to see any single power take the lead.

The murder of the Chancellor of the Japanese Legation at Peking is regarded as likely to lead to serious complications, but no decision has been reached by Japan as to what political measures will be necessary to meet the situation.

Relative to the reports that the Japanese Minister at Peking is pressing for the recognition of a Japanese sphere of influence to include the provinces of Che Kiang, Fo Kien and Kiang Si; it is pointed out that Japan has already obtained a promise that the province of Fo Kien should not be alienated, while Kiang Si, situated at the mouth of the Tang Tse River, is in the British sphere. Japan is not likely to take a step which might be distasteful to Great Britain, whose interests in China are similar to those of Japan.

REACHES ACUTE STAGE.

Washington Takes Note of Recent Rioting.

News of the Murder of First American Missionary Received.

[A. P. DAY REPORT.]

WASHINGTON, June 13.—Official dispatches received in diplomatic quarters in Washington show that the rioting in Peking has reached an acute stage, with the rioters directing a number of their assaults against members of the different foreign legations there. One of these dispatches states that the secretary of the Belgian legation was attacked twice Monday, and escaped after being maltreated by the mob. On the same day, two officials of the British legation, serving as student interpreters, were attacked by a large crowd of roughs. The young Englishmen held the attacking party back for a while, but when the mob threatened to close in on them, they drew revolvers, and by a show of force, made their retreat without injury.

About the same time, the British summer quarters, four miles from Peking, were burned down. The quarters were quite extensive, and had just been completed. They belonged to the British government and not to the Claude MacDonald, the British Minister at Peking, which gives added significance to the depredations.

The killing of the Chancellor of the Japanese legation at Peking, Sugiyama Akira, is not referred to in official dispatches received here, but full credit is given to this report by the Japanese officials, who are personally acquainted with Mr. Akira and with many of the circumstances detailed. The killing of a member of the diplomatic body and the foregoing reports upon the officials of foreign countries are regarded at representing the most serious phase of the situation that has thus far occurred.

The Japanese charge d'affaires in Washington, Keizaro Nebeshima, said today: "We have no official confirmation of the killing of our Chancellor at Peking, but there appears to be no doubt of the fact, and it presents a most serious condition. The chief offense is against Japan, but aside from that it is against the entire diplomatic body at Peking, for if any one of them is subject to such assault, they all shared in the same danger. I was personally acquainted with Mr. Akira. He served under me at the Foreign Office while I was chief of protocols. He was a bright man, had a wife and four children, and was about 38 years of age. He was one of the most expert chirographers in Japan and this gained him the post of chancellor at Pekin, where he went about three years ago."

Mr. Nebeshima says the Japanese government had pursued the utmost reserve up to this time, not wishing to be open to any suspicion, but he felt that if this tragedy had occurred there would be energetic action taken. One of the most significant features of the affair, in his judgment, was that the killing was reported to have been done by the troops of the Empress Dowager and not by any lawless mob. While there might be some cause for mob depredations, Mr. Nebashima said it would be difficult to take any favorable view of an attack by the Chinese soldiers on the officials of foreign governments.

The burning of the British summer quarters is considered another attack upon an official institution, which is quite different from an attack upon a private chief or private property. For some time there has been difficulty in securing the necessary permit to put up suitable quarters in the hills outside of Peking, but this finally was granted, and the quarters were made large enough to accommodate the entire British establishment in China. These included the Minister and his staff of secretaries and attaches also seven student interpreters who had gone out from England to learn Chinese and fit themselves for the post of interpreter, besides servants. The building would have been occupied within the next few days and during the summer would have constituted the British legation.

NAVAL MOVEMENTS.

DIRECTED BY OUR ADMIRAL.

[A. P. DAY REPORT.]

WASHINGTON, June 8.—It appears that the movement of the Yorktown from Shanghai to Che Foo, which is reported, was not directed from Washington, and it is assumed that the order was issued by Admiral Kempff, the senior American officer in Chinese waters. At Che Foo the Yorktown would be within a day's sail of the admiral's flagship at Taku. She should arrive at Che Foo Friday or Saturday of this week.

Meanwhile the Castine remains at Shanghai. The condition of this vessel is not known at the Navy Department, but it is understood that Admiral Kempff is in touch with her commander by the ocean cable, and if the situation at Chin Kiang becomes more acute he will order the ship up the Yang-Tse to that point if she is able to move. Otherwise a marine guard will be dispatched up the river in the ship's boats.

NEWS THAT SHOCKED.

[A. P. NIGHT REPORT.]

WASHINGTON, June 13. — The State Department has heard nothing officially about the reported killing of the American missionary Edna Terry, and the Japanese secretary of legation at Peking. In fact, nothing has been heard from Minister Conger since his cablegrams of last night. The news of the killing of the first American missionary caused a shock at the department, as it is realized that this adds greatly to the gravity of the problem awaiting settlement by the department.

CONGER AWAITING GUARDS.

[A. P. DAY REPORT.]

WASHINGTON, June 13.—A cablegram has been received at the State

RUSSELL SAGE'S DOORBELL.

MRS. SAGE BREAKS IT AND FALLS DOWNSTAIRS.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 13.—[Exclusive Dispatch.] Mrs. Russell Sage was the victim of a peculiar accident last night, which resulted in the dislocation of her shoulder and the wrenching of her back. She had been out shopping, and returned to her home on Fifth avenue at 6 o'clock. She was carrying several parcels, and decided to ring for admittance.

The bell is an old-fashioned wire affair, quite in keeping with the rest of the Sage home, and when Mrs. Sage pulled, the wire broke. She was using some force when the wire broke, and she lurched backward and fell down stairs. She was quickly carried into the house and surgical attendance called. She was resting well today.

APPROVES NAVY BILL.

BERLIN, June 13.—The Bundesrath today approved the Navy Bill, and the measures providing means to carry out the projected plans of the measure, as already published. The hereditary rank of nobility has been conferred upon Admiral Tirpitz, the secretary of the admiralty, in connection with the passing of the Navy Bill.

Department from Minister Conger at Peking stating that Tuan, the father of the heir apparent, has been appointed president of the Tsung Li Yamen; also that three other new ministers have been appointed all affiliated with the party opposed to foreigners. On the whole, Mr. Conger reports the situation is not materially improved. Guards are repairing the railway, and as soon as they have arrived at Peking, it is Mr. Conger's belief that the safety of the foreigners of the capital will be assured.

"OPEN-DOOR" NEGOTIATIONS.

ARRANGEMENT NOT IRONCLAD.

[A. P. DAY REPORT.]

NEW YORK, June 13.—A Washington special to the Herald says that while they admit that the "open-door" negotiations are not as conclusive as Secretary Hay desired, officials of the administration point out that a long step toward the preservation of American treaty rights in the spheres of influence in China has at last been taken.

Secretary Hay declined to discuss the doubts cast upon the success of the negotiations in an article printed in the National Review, written by Robert A. Yerburgh, M. P., a European diplomat well informed on every stage of the negotiations and thoroughly acquainted with Chinese affairs, said today that the general conclusions reached by Mr. Yerburgh were practically those of every diplomat who has taken pains to study the notes exchanged.

That the arrangement reached is not ironclad, was apparent, not only to members of the Diplomatic Corps, but to administration officials after the receipt of the replies of foreign governments to the American representations. The assertion has been made that Great Britain compiles in every respect with the wishes of Secretary Hay. The diplomat who discussed the matter his afternoon, points out that this is not the case.

"I have much pleasure in informing Your Excellency," Lord Salisbury's note stated, "that Her Majesty's government will be prepared to make a declaration in the sense desired by your government in the relation to the integrity of Wei Hai Wei and the territory in China which may hereafter be acquired by lease or otherwise and all spheres of influence now held or which may be hereafter held by her in China, provided that a similar declaration is made by the other powers concerned."

It is this provision which is an obstacle in the way of complete success of negotiations. Russia declined to accede to the proposition advanced by Great Britain. Directly north of Wei Hai Wei and jutting into the Gulf of Pe Chi Li to Port Arthur, now a Russian stronghold. It is said in diplomatic circles that Lord Salisbury made the declaration respecting Wei Hai Wei for the purpose of inducing Russia to throw Port Arthur open to the world. It is noted that no reference to Port Arthur is made in the Russian note.

A comparison of the British and Russian notes will show their great dissimilarity, and neither can be regarded as binding, when the proposals are so different. As Germany, France, Japan and Italy gave assurances on condition, it is evident that the whole fabric of the "open door" is likely to be torn away should a foreign nation think a demand by the United States exacting and the moment propitious for it to refuse.

POWERS UNITED.

BY DISMISSAL OF CHING.

[A. P. DAY REPORT.]

NEW YORK, June 13.—A dispatch to the Tribune from London says there is a general feeling in diplomatic circles that he European powers have been united by the dismissal of Prince Ching, and that in the purging of the Tsung Li Yamen of all its moderate men, the Empress Dowager has gone over to the "Boxers," bag and baggage, and that the powers have been forced to cooperate in the restoration of order at Peking, even if the services of Russian troops are required.

Talleyrand's "Good Europeans" have reappeared upon the scene and have dropped jealousies and suspicions. A mixed force of 2000 marines will be indispensable if Peking should be in the possession of the "Boxers" and if the insurrection spreads from province to province. The Russians will go in with a European mandate and probably will have as many reasons for remaining as the English have found useful and necessary in Egypt.

PROTECTORATE WOULD FAIL.

STARR'S EMPIRE PREDICTION.

[A. P. DAY REPORT.]

CHICAGO, June 13.—Prof. Frederick Starr, head of the department of anthropology of the University of Chicago, addressed the students on the Chinese question: He asserted that the Dowager Empress was justified in her action, and that a protectorate established by the powers would be a failure. Dr. Starr has made a special study of the Chinese and soon will make a visit to China for research work. He said, in part:

"The Dowager Empress should not be criticised for her attitude toward the missionaries. The 'Boxers' are a new organization, formed to do away with conditions which have become intolerable. The party of the Empress will succeed eventually, because any scheme to deter her by a coalition of the powers, such as is proposed at present, will be a failure. If control passes from China's hands, it will drift into Russia's. A joint protectorate of the powers would come to the same end as the protectorate in Egypt. The control and finally the possession of the country would pass to the strongest power. In Egypt, England triumphed.

"There are four possibilities of the outcome of affairs in China. First, the Dowager Empress will come out victorious; second, the so-called Emperor may be restored under a coalition of the foreign powers; third, China may be divided among the nations; fourth, Russia may subdue China. The only probabilities are the first and fourth. The partition of China among the nations would lead to the development of a warlike spirit in the Chinese themselves, which would unite China and give her a strong sway as a world power."

CHINESE IN THE RIGHT.

SMITH DISCUSSES SITUATION.

[A. P. DAY REPORT.]

TORONTO (Can.) June 12.—Prof. Goldin Smith, discussing the situation in China, was asked what he thought about the attitude of the European powers toward that country.

"If any people in the world have a right to a country" said Prof. Smith, "the Chinese surely have a right to the country which they are believed to have inhabited for 4000 years. It is too probable that China will be the next scene of butchery and havoc in the abused name of civilization. Fighting seems in fact to have already begun."

"Would not the result of a war there be increased progress where progress and civilization have been slow?" was asked.

"The Chinese are at least partly civilised. They are industrious in the highest degree. Though their general morality may be weak, their industrial morality is exceptionally strong. There is no reason why the pacific influences of commerce and intercourse should not act upon them as they have acted on the Japanese, who, half a century ago, might have been deemed proper subjects for philanthropic aggression."

"You think, then, that there is a motive for the advance on China?"

"The great military powers are dividing China into what in the language of their territorial rapacity are called 'spheres of influence'," was the reply. "That is to say, they are staking it out for conquest with the intention, if the people resist, of mowing them down. A fearful vista of slaughter and desolation may presently open. The population of China is roughly estimated at 400,000,000. The people are fanatically hostile to foreigners, as, in truth, considering the opium wars, they have too much reason to be."

"Would the Chinese be a match for a modernly equipped army?"

"Though singularly unmilitary, they are utterly reckless of life. At the same time they are totally unprovided with all modern appliances of war and in the case of a conflict they would be butchered by the millions."

"What about the missionaries in China?" he was asked.

"One thing is clear—all the missionaries should be compelled at once to withdraw to places of safety, or, if they choose heroically to remain in posts of danger, they should be warned that they do this, as did the early missionaries, at their own risk. It is monstrous that a religion of peace and good-will should be made, as too often it has been, in the hands of its indiscreet apostles, a brand for kindling the flames of murderous war."

PEKING ISOLATED.

[A. P. NIGHT REPORT.]

LONDON, June 14, 5:05 a.m.—Peking appears to be completely isolated. None of the morning papers or news agencies has a word from there direct today. The latest message received in London is the one announcing that the Chinese are intrenching outside the capital.

DR. EDNA G. TERRY SLAIN.

FIRST AMERICAN MURDERED.

[A. P. DAY REPORT.]

NEW YORK, June 13.—News has been received in this city of the murder of Dr. Edna G. Terry, in charge of the station of the Methodist Episcopal Woman's Foreign Missionary Society at Tsung Hua, China. The tidings came in the following message to Dr. Terry's brother-in-law: "Dr. Terry murdered; break news gently."

This was the first indication of trouble at Tsung Hua. Later, the Methodist Episcopal board received this message, dated Tien-Tsin, June 12: "Hopkins and Hoyner safe."

The persons named are missionaries at Tsung Hua. There is one other Methodist missionary at the same place, a Miss Croucher, of Boston. Tsung Hua is six or seven miles north of the Great Wall, and about one hundred miles from Peking.

PINT OF DIAMONDS.

SEIZED WITH FOUR PEOPLE AT NIAGARA FALLS.

[BY DIRECT WIRE TO THE TIMES.]

NIAGARA FALLS, June 13.—[Exclusive Dispatch.] Max Lasar, the diamond smuggler, and three possibly unwilling accomplices, were captured here last night, while endeavoring to smuggle gems worth nearly $100,000 over the line from Canada. The customs officers who made the haul are not sure of the identity of Lasar's accomplices, nor positive that they knew they were aiding in daring smuggling operations. One is a young woman who claims to be the bride of one of the men, while the second man claims that he is an uncle of the alleged bride. They are all Hebrews and give the name of Savandanaigue, and the three crossed the Atlantic with Lasar in the steamship Europa, which reached Montreal two days ago.

They say that Lasar represented that he was giving a wedding present when he handed over the box containing a pint of diamonds, and that he made them promise that they would not open it until they met him on this side of the line. The American customs officers, who picked Lasar up at the wharf in Montreal and followed him to Toronto, say that he bought tickets to Niagara for the alleged bridal party, and for that reason suspect the accomplices of full knowledge.

Whatever their knowledge, Lasar planned to keep the officers on his track and thus throw them off the real track. The officers wisely decided to follow both parties across the line. Once over, both were arrested and the diamonds were found in the possession of the supposed bride. Lasar was arrested in New York a year ago under almost the same circumstances, but in that case the woman, Miss Ivy Crurede, turned on him. Lasar at that time was fined $42,000 by the government.

HE'S AFTER BIRD.

JACOB MACK ACCUSES THE NEW YORK COMPTROLLER.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 13.—[Exclusive Dispatch. Bird S. Coler, Comptroller of the city of New York, and a prominent figure in reform circles, has been charged with conspiracy and breach of trust by Jacob W. Mack, a millionaire member of the Chamber of Commerce. Mack has filed his charges with Gov. Roosevelt, whom he asks to remove Coler from office.

Mack charges that, two years ago, during the sale of large amounts of bonds of the city, Coler injured the credit of the city by claiming that the debt limit had been exceeded, and played into the hands of the Produce Exchange Trust Company's syndicate, which finally got the bonds. Mack charges further that Coler's firm, W. N. Coler & Co., were interested in the successful syndicate, and that the city lost $3,000,000 by the transaction. Coler is absent from the city, but his friends and advisers say that the charges are absurd, and demand that there be a full and final investigation of them.

ANOTHER ACCOUNT.

[A. P. NIGHT REPORT.]

NEW YORK, June 13.—Counsel for Jacob Mack of New York has forwarded to Gov. Roosevelt a copy of a charge of malfeasance in office made by Mr. Mack against Comptroller Bird S. Coler, accusing him of awarding bids for $12,884,982 advertised July 25, 1899, to a favorite syndicate, thereby causing a large money loss to the city. Mack, in his petition, prays for the removal of the Comptroller from office.

COLER TALKS BACK.

[A. P. NIGHT REPORT.]

CHAMPAIGN (Ill.,) June 13.—Bird S. Coler said tonight that the attacks upon him are inspired by interests that he has opposed; that his position on the debt limit is well known, and the award spoken of was made in accordance with a decision in Judge Copen's court. The papers in the Comptroller's office, Coler said, are open to inspection, and he has wired Gov. Roosevelt for an immediate hearing.

Al Perry an Umpire.

WASHINGTON, June 13.—President Young today appointed Al H. Perry of Milwaukee a National League umpire.

STRIKE NEAR AN END.

St. Louis Officials Say Crisis is Past.

Inquest Held Over Bodies of Riot Victims.

Posse Comitatus About Complete—Police to Return to Their Beats.

[A. P. NIGHT REPORT.]

ST. LOUIS, June 13.—To all appearances, today witnessed the beginning of the end of the riotous demonstrations and scenes of bloodshed that have characterized the great street-railway strike for over a month past, and in many quarters it is thought of the strike itself. These opinions are based upon statements by the Chief of Police and Sheriff that the critical stage has been passed, and upon the fact that the St. Louis Transit Company is slowly but surely approaching a complete resumption of business with the aid of nonunion men.

INQUEST OVER RIOT VICTIMS.

[A. P. DAY REPORT.]

ST. LOUIS, June 13.—Sheriff Pohlman and Chief of Police Campbell are of the opinion that the reign of terror that has prevailed for a month or more as a result of the street-railway strike is at an end. They are confident that their combined forces will be able to prevent any further lawlessness. It seems to be the general opinion that Sunday's riot was the culmination of these outbreaks. According to the Transit Company's management, enough men to man all the cars are at work and more are coming in daily.

Sheriff Pohlman's posse comitatus has almost reached the number—2500—asked for by the policy board. Citizens wearing deputy sheriffs' badges suffer a systematic boycott in many localities, being unable to buy anything to eat or drink. The Sheriff is making preparations to feed his men at their quarters.

The injunction proceedings instituted by the Federal authorities against W. D. Mahon and 100 other individuals, together with all the members of Division No. 130 of the Street Railway Employes' Union, were continued in the United States Circuit Court today to June 23, owing to the absence of one of the attorneys.

The inquest over the bodies of Edward Thomas and George Rine, victims of Sunday's riot at Washington avenue and Sixth street, began today. Attorney Charles J. Maurier represented the strikers.

The official report of Police Captain Kielly on Sunday's shooting received by the Coroner, stated that the man who shot Edward Thomas was Deputy Gordon McKnight. It set forth that Thomas was about to shoot Adjt. J. B. Webster, when killed by McKnight, and that a revolver, now in the possession of Col. Cavender, was found on the body of Thomas.

Coroner Lloyd impaneled the jury and then proceeded with the inquest. Attorney Maurier said he would endeavor to bring out evidence showing that the shooting was not done by the deputies in the performance of their duty under the law, and therefore was not justifiable.

The first witness was J. F. Klantz, a guest at the Lindell Hotel, who stated that Sunday he was sitting in his room overlooking Washington avenue and saw an orderly body of uniformed street-car men marching west toward him. No overt act was committed by them, but two rocks had been thrown at the passing car. When the head of the column had almost reached Sixth street, witness saw several men with guns step out and meet a number of strikers who had left the ranks. There was some scuffling, one of the men with a shotgun fired and a man in uniform dropped. The street-car men fled at the first shot, according to the witness, and firing became general along the block and from the windows of the posse barracks.

C. W. Cassilly, a photographer, said that he saw a man strike a car with something soft, heard a cry of "halt," and saw several men pull one of the street-car men out of the parade and drag him over to the other side of the street.

"I saw the uniformed men break from the line and saw the deputies follow them and shoot at them," the witness said. "While Thomas was a prisoner, I saw a deputy with a shotgun dancing about him in a stooping position, as if waiting for a chance to shoot. The shots were fired so fast that they sounded like the falling of a row of bricks.

"I did not see any of the paraders draw revolvers. When placed under arrest Thomas did not draw a revolver, so far as I could see."

Col. J. H. Gavender, who said he was in command of the posse comitatus, made the emphatic statement that no member of the posse fired a shot before the paraders fired. He said that a brick was hurled through the window of a passing car. Two deputies seized one of the strikers, who, the witness said he was informed, was the man who threw the brick.

Col. Cavender said that one of the paraders fired a revolver, which was the first shot he heard. Then, he said, the crowds of paraders west of Sixth ran on up Washington avenue and down Sixth street. The other portion of the parade, which was still east of Washington avenue, advanced rapidly to the line of Sixth street and from that point opened fire with revolvers, to which the posse replied.

Adjt. George H. Webster of the posse, said one of the paraders pointed a gun at him but it failed to work. He tried to pull the trigger a second time, when witness heard the report of a shotgun and saw the man fall.

Kennedy, who was arrested for the brick-throwing, was summoned, but Webster said positively he was not the man.

Adjt. Webster told of finding weapons on the men he arrested. He said a revolver with two chambers discharged and still warm, was found on a man named McIver.

W. S. Robinson, a staff captain of the posse, practically corroborated Col. Cavender and Capt. Webster. A recess was taken at this point.

At midnight tonight a car on the Olive-street cable line at Twenty-first street was badly damaged by some sort of high explosive placed on the track by strike sympathisers. The roar of the explosion awoke residents for blocks around. No one was injured.

Another car was blown from the track on the Baden extension of the North Broadway line. Motorman John H. Gray was slightly injured.

M'NIGHT WILL BE HELD.

[A. P. NIGHT REPORT.]

ST. LOUIS, June 13.—The testimony brought out at the afternoon session differed very little from that of the morning hearing, the witnesses called on behalf of the strikers generally maintaining that the shooting was started by the deputies without provocation, while the deputies who were examined maintained that no shots were fired by members of the posse until missiles had been thrown and a shot fired by the men in the street.

Late in the afternoon the inquest was adjourned until tomorrow morning. The Coroner announced that he would hold Deputy Sheriff Gardner McKnight on the testimony already in.

POLICE TO BE WITHDRAWN.

[A. P. DAY REPORT.]

ST. LOUIS, June 13.—The various police captains held a conference with Chief Campbell this afternoon, and it was decided to withdraw all the policemen and the emergency specials from the street cars Sunday morning and return the men to their beats. Cars will be run tonight on the Transit Company's lines the same as last night.

ARGUMENT AND STABBING.

[A. P. NIGHT REPORT.]

ST. LOUIS, June 13.—During the course of a heated argument over the strike, Sherman C. Patterson, president of the local Street Railway Men's Union, was stabbed in the neck and mortally wounded, at a late hour tonight. Edward Cantry of East St. Louis who wielded the knife is under arrest.

ANOTHER CHICAGO STRIKE.

WOODWORKERS NOW THREATENING TO MAKE TROUBLE.

[A. P. DAY REPORT.]

CHICAGO, June 13.—Before the settlement of the building trades strike, Chicago is menaced with another strike, involving 3000 woodworkers, employés of the plants manufacturing store and office fixtures. At a special meeting of the Manufacturing Woodworkers' Association at the Great Northern Hotel last evening, it was decided unanimously to refuse the demand of the Amalgamated Woodworkers' Council for a 10 per cent. increase in wages over the scale now paid under the local contract in force July 1.

The possibility of a strike on July 1 is admitted by the manufacturers.

ORGANIZER ASSAULTED.

[A. P. DAY REPORT.]

CHICAGO, June 13.—Michael R. Grady, western organizer for the International Bricklayers' Union, and former secretary of the Trades and Labor Assembly, was assaulted by three men last night in front of Bricklayers' Hall, and left for dead on the sidewalk with a dozen gaping wounds in his face and throat.

Grady was taken to the County Hospital by the police, where the attending physician pronounced his wounds dangerous. His assailants escaped. Grady was about to enter the hall, where a meeting of the union was in progress when he was pounced upon by the three men.

It is claimed that the assault was the result of enmity between two factions in the organization, and that Grady was one of those who had been in favor of having the union withdraw from the Building Trades Council.

MONEY AGAIN PLENTIFUL.

GAGE EXPLAINS WITHDRAWALS FROM DEPOSITORIES.

[A. P. DAY REPORT.]

NEW YORK, June 13.—Secretary Gage was asked, says a Washington special to the Herald, if he would continue withdrawing government funds from national depositories and if this action meant that the money stringency had disappeared.

"These funds," said he, "will be withdrawn from the depositories in proportion to the amounts deposited until $250,000,000 has been turned into the treasury for the purpose of paying for the 2-per-cent. bonds which will be redeemed shortly. Yes, this is a sign that the money stringency has disappeared, but a still better one is the fact that money is plentiful in New York at 1¼ per cent.

"I cannot tell whether any more than $25,000,000 will be called in. If the condition of the treasury requires it, this will be done. No, I cannot say whether any of the special depositories will be abolished. There is one thing certain—that is not the intention of the department to take any money out of these depositories and place it in the vaults of the treasury, where it will do no good. It will be left where it is, if needed.

"If conditions demand, and it becomes necessary, more money would be placed in these institutions during the fall when the movement of the crops begins and a great deal of money is needed for that purpose."

SANTIAGO PRIZE MONEY.

COURT DECLARES SAMPSON WAS COMMANDER-IN-CHIEF.

[A. P. DAY REPORT.]

WASHINGTON, June 13.—The United States Court of Claims has passed upon the suit of Admiral W. T. Sampson and others under his command at Santiago for prize money on account of the destruction of the Spanish fleet. The court declares that Admiral Sampson was commander-in-chief, and that Commodore Schley was the commanding officer of a division of a squadron thereof, on duties under the orders of Admiral Sampson. The Spanish squadron is found by the court to have been inferior to the American force, and a bounty of $100, therefore, was awarded for every officer and man under Admiral Cervera's command.

The total amount of bounty money allowed is $168,700, of which Admiral Sampson will receive $8326 and Admiral Schley about $3000. Besides finding that Admiral Sampson was in command during the battle, the court declares that the New York was among the vessels engaged.

MRS. GLADSTONE NEAR DEATH.

LONDON, June 14.—It was announced last evening that Mrs. W. E. Gladstone was not expected to live through the night.

Pioneer Capitalist Dead.

STOCKTON, June 13.—I. S. Bostwick, a pioneer merchant of this city, and formerly a capitalist, died here today at an advanced age, after a long illness.

EIGHTEEN HUNDRED DEAD.

Twenty-one-day Battle Ends Colombian Rebellion.

Government Forces Victorious—Four-million-dollar Fire.

[A. P. NIGHT REPORT.]

NEW YORK, June 13.—Official advices were received in this city today from Carthagena and Bogota, giving details of the revolution in Colombia. The complete and utter overthrow of the rebels in Santander has been confirmed, in which place, after a hard-contested battle lasting twenty-one days, the government forces remained complete masters of the field. The casualties were 1300 dead belonging to the enemy, 2000 wounded and 1800 prisoners of war, besides implements of war in large quantities which were taken from the enemy.

Among the prisoners taken was Gen. Vasayas Santos, a prominent Liberal leader, who was put aboard the steamship Alice and is now on the way to the prison at Boca Chica, on an island in the Bay of Carthagena. The revolutionist general, Avelino Rosas, was captured at Cartago, and the rebellion seems to be virtually at an end.

On the night of May 19 a great fire took place in Bogota and the City Hall was completely destroyed, thirty-six persons perishing. The loss is estimated at $4,000,000 gold.

UNITED WORKMEN IN SESSION.

OFFICERS ELECTED AND ROUTINE MATTERS DISPOSED OF.

[A. P. NIGHT REPORT.]

SIOUX CITY (S. D.,) June 13.—The earlier sessions of the Supreme Lodge Ancient Order of United Workmen, now holding its twenty-eighth annual meeting in this city, was taken up principally with routine matters.

The following officers were elected: Supreme Master Workman, William A. Walker of Wisconsin; Supreme Foreman, A. C. Hardwick of New York; Supreme Overseer, Webb McNall of Kansas; Supreme Recorder, M. W. Sackett of Pennsylvania; Supreme Receiver, John J. Acker of New York.

At a business meeting of the Supreme Lodge, Degree of Honor, the following officers were chosen: Supreme Chief of Honor, Pauline E. Ennis of Kansas; Superior Lady of Honor, Ella H. Mantor of Minnesota; Superior Recorder, Elizabeth E. Allburn of Iowa; Superior Receiver, Emma S. Bedford of New Hampshire; Superior Usher, Irene M. Raikes of New York; Superior Watch, Olive M. Bacon of Colorado.

FAMINE RELIEF.

OBJECTS FOR WHICH FUNDS ARE USED IN INDIA.

[A. P. NIGHT REPORT.]

NEW YORK, June 13.—The Committee of 100 on Indian famine relief today received the following cable:

"BOMBAY, June 13.—America-Indian Relief Committee formed. Money used chiefly for four objects—rescue of orphaned children; aid to perishing farmers; clothing for the naked and village relief. Rain delayed. Distress still increasing.

[Signed.] "ROBERT A. HUME,
"Executive Secretary."

Contributions received today by the committee amounted to $2285, and the total to date is $65,544.

SEVEN MEN KILLED.

TRAIN LEAPS FROM HIGH EMBANKMENT.

[A. P. NIGHT REPORT.]

WILLIAMSPORT, (Pa.,) June 13.—Seven men were killed in a logging railway at Cammal, about thirty-six miles from this place, this afternoon.

A train jumped the track in some unaccountable manner and plunged down a 300-foot embankment. Both fireman and engineer were instantly killed, as also were one passenger and four Italian laborers. The cars and engine were literally smashed to kindling.

E. P. HANNA APPOINTED.

WASHINGTON, June 13.—Congress, at its last session, made provision by a clause in the Executive, Legislative and Judicial Appropriation Bill for the appointment of a "solicitor to be an assistant to the Judge-Advocate General of the navy who is to act in case of death, resignation or absence of the Judge-Advocate General." E. P. Hanna of the District of Columbia, at present clerk of the Judge-Advocate General's office has been appointed to the position.

TREASURE FOR PORTO RICO.

NEW YORK, June 13.—A shipment of gold, silver and minor coin, amounting to $1,000,000, was made by the Treasury Department today on the transport to Porto Rico.

FLASHES FROM THE WIRES.

Edwin Arden, who has been playing the role of Lord Burford in "Hearts are Trumps," at Chicago, has suffered a partial loss of sight. He will leave Chicago tomorrow and will sail from New York on Friday for Europe, to be operated upon by a celebrated European specialist.

The President has appointed J. W. Perry of Connecticut as agent of the United States before the Chilean Claims Commission in place of R. D. Kennedy of Ohio, whose nomination failed of approval by the Senate.

Gen. and Mrs. Benjamin Harrison, accompanied by Mrs. Strode of New York, the Rev. Dr. M. T. Haines and Dr. Henry Jameson, leave Indianapolis Sunday for a trip to the Yellowstone Park.

...ally the only topic of conversation among the Republican leaders who have arrived in Philadelphia is the question of the selection of a candidate for the Vice-Presidency. Senator Hanna has devoted almost the entire time since his arrival to this question, and has been in frequent conference with other leaders on the subject. He says absolutely that no candidate has yet been selected either by the President, by himself or by anyone for them. During the noon recess of the committee, Senator Hanna held a prolonged conference with Senator Scott of West Virginia; Hon. Joseph Manly and Henry B. Payne, probably the three oldest members of the National Committee in point of service. When they dispersed, all agreed that the question of the Vice-Presidency was still open. There was a general confession of concern over the situation, but at the same time a feeling that in the end the right man would be found.

"We want," said a member of this quartette, "a man for Vice-President who would be a big enough man for President, in case the necessity should arise for him to become such. We don't care where he comes from." He added: "We will waive the geographical question if we can get the right man in other respects."

This statement expresses the general sentiment among the members of the committee.

National Chairman Hanna will probably not preside at any of the meetings of the National Committee. He will be very busy with other matters, and Mr. Payne, who occupied the chair at today's meeting, will continue to act as chairman.

A practical and thorough test was made of the acoustic properties of the convention hall this afternoon. It was reported that the acoustics were everything that could be desired.

The National Committee requests that the different State delegations will act promptly in designating members to fill the various committees.

OHIO DEMOCRATS' POW-WOW.

Convention Closes With a Row and Police are Called In.

Delegates and State Officers are Elected and Platform Adopted.

[A. P. NIGHT REPORT.]

COLUMBUS (O.,) June 13.—The Democratic State Convention, after a continuous session of over nine hours, adjourned tonight. It was a slate-smashing and a record-breaking convention. The McLean men said yesterday they were asking for nothing, and they certainly got nothing. They helped those who have been opposing them to places of party distinction and responsibility.

There was a notable absence of the McLean leaders here this week and very few of those who were in the city, outside of the delegations, went to the convention hall. It is said that McLean did not care to take any aggressive part on account of the Dewey candidacy.

During the last hour of the convention there was much confusion and disorder. Charles W. Baker, who was temporarily presiding, sent for a squad of twenty police, ordering them to clear the aisles, knock down those who would not sit down, and compel the disturbers to be silent. The police filed down the aisles and maintained order during the remainder of the convention.

BITTER WRANGLES OVER SEATS.

[A. P. DAY REPORT.]

COLUMBUS (O.,) June 13.—The Democratic State Convention was called to order at the Auditorium at 10:46 a.m. by Hon. William S. Thomas of Springfield, chairman of the State committee. Portraits of Bryan, Thurman, Jackson, McLean and others were conspicuous.

Chairman Thomas addressed the convention on the work of the past year and the prospects for the present political year.

Webster P. Huntington of Columbus was introduced as temporary chairman, and he received an ovation. Mr. Huntington said in part:

"We believe in the Constitution of the United States. We believe in the Declaration of Independence. We believe, in the Monroe Doctrine. We believe that the love of liberty is born in the human breast and that, possessing its fruits ourselves through more than a century of trial and temptation, we cannot deny them to others. We believe that the love of liberty is the same in California as in Massachusetts; the same in Cuba as in California; the same in Porto Rico as in Cuba; the same in the Philippines as in Porto Rico, and the same in South Africa as in the Philippines. We make no distinction as to where liberty should be enjoyed when men desire it. Intelligent sacrifices for liberty prove the fitness of their victims to possess it and there is no line drawn between such sacrifices, whether they are offered on the altar of American tyranny in Luzon or on the altar of British greed in the Transvaal. Gen. Sherman said that 'War is hell,' but there is no word this side of hell that can describe the horror of a war of conquest.

"We charge that William McKinley, of his own volition, began such a war on the 21st of December, 1898, by issuing to the Filipinos a proclamation claiming absolute sovereignty over the entire Philippine archipelago and over the property and persons of its inhabitants.

"'Ye shall know a tree by its fruits,' and by the fruits of imperialism we know the empire. Its heralds carry one of two weapons—the sword or the carpet bag. Sometimes they carry both, but they can't accomplish more havoc with one than the other. The sword was never unsheathed in a war of conquest and a national theft was never accomplished by diplomacy, without being followed by the carpet bag. If a nation were to choose how it should perish—by the sword or by the carpet bag—it could not do better than toss up a penny and let 'heads or tails' decide. In any event, for the thieving nation it would be 'heads I win, tails you lose.' The American carpet bag in Cuba and Porto Rico is doing as much to destroy the Cubans and Porto Ricans as the American sword ever did to destroy the Spaniards. We are professing to teach our wards the lesson of self-government, but are in fact impressing them with the belief that the efficacy of self-government is indicated by the amount of money the governors can steal from the governed. We are pointing out to them the advantages of free American citizenship that knows no restriction between parts of the Union, but are telling them that 'taxation without representation' does not count as between the old parts of the Union and the new parts. We assure them that 'trade follows the flag,' but how much or how little or what kind of trade is 'our business' and not theirs. We place them on the solid rock of the Constitution, but we are careful to grease the rock, so that in case they slide off they will attribute the catastrophe to the grease and not to the Constitution.

"How much better it would be if we guaranteed independence to the Filipino, self-government to the Cuban and to the Porto Rican equal rights in the Union; how much better it would have been if we had done this two years ago; how infinitely more urgent that we do it now."

A majority of the Committee on Credentials reported in favor of seating the Dowling delegation from Montgomery and the Wilson delegation from Cuyahoga county and that all delegates hereafter be selected at primaries. The minority reports were also submitted, one in favor of seating the Grimsely delegation from Cuyahoga instead of the Wilson delegation, and the seating of the Shoup or the anti-Dowling delegation from Montgomery. The Dowling and the Grimsely delegates were known as McLean men but the fights were both local.

A long and hot discussion ensued that caused great confusion in the hall. Some of the speakers were very bitter in their denunciation of so-called machine methods in Dayton and Cleveland. Amid great disorder, the roll was called on the second minority report, which was defeated, 314 yeas, 371 nays, and the twenty-five Dowling delegates kept their seats.

After more bitter speeches, the first minority report was defeated, 354 yeas, 363 nays, and the Wilson delegation retained their seats. Mr. Dowling moved to reconsider the vote on the first minority report and this movement caused the wildest scene of the day. The motion to reconsider was finally withdrawn and the Wilson delegates were again seated. The majority report on credentials as it was finally submitted, was then adopted. The temporary organization was made permanent and the reports of Committees on Rules and Resolutions were adopted.

For delegates at large to the national convention at Kansas City, William R. Thomas, James Kilbourne of Columbus, and Abraham W. Patrick of New Philadelphia were elected on the first ballot. Horace L. Chapman, of Jackson, was named as fourth delegate-at-large on the third ballot.

The platform was adopted as follows:

"We, the Democrats of Ohio, in convention assembled, reaffirm our adherence to the Democratic national platform adopted at Chicago in 1896. But new and grave issues have arisen, threatening the safety of free government itself, which should command at this time the most serious attention of all patriotic citizens.

"We enter our protest against the doctrine that the President or Congress can govern acquired territory outside and independently of the Constitution of the United States as a doctrine utterly subversive of every principle of our government. The Declaration of Independence, the flag and the Constitution must everywhere stand together as emblems of human liberty and equal rights for all, and where one goes, all go. We therefore denounce imperialism under any pretense as necessarily leading to militarism and as wholly foreign to our system of government, and declare that neither Congress nor the President can exercise any power whatever not derived from the Constitution. We therefore denounce the Porto Rican Tariff Bill as a palpable violation of the doctrines of the fathers and of the fundamental principles of our government, which is based upon equal rights to all.

"Trusts and monopolies, formed for the purpose of arbitrarily controlling production and prices in the interest solely of combined capital, if allowed to go on, can result only in industrial serfdom for the mass of people. We, therefore, oppose such combinations and demand that not only shall existing laws against combinations in restraint of trade be rigidly enforced, but, believing that protective tariffs and every species of discriminations have been and still are the chief supporters of monopolies, we favor the removal of all duties from imports monopolized by trusts, and also demand the enactment and enforcement of such legislation as will prevent every species of discrimination, and believe that the courageous and honest application of the Democratic maxim of 'equal rights to all and special privileges to none' will be effective to destroy and thereafter prevent any trust or combination of capital that is prejudicial to the general welfare.

"We demand the repeal of all laws giving special privilege to any person, class, locality or interest.

"We denounce the currency law passed by the present Congress, which transfers to the banks the entire control of the paper currency, thus laying the foundation for a money trust, which will have power to control the prices of all property and to stimulate or strangle business; on the other hand, by requiring the government to redeem all forms of currency in gold, it continues and multiplies the evils of the endless chain and imposes upon the government the entire burden of supplying gold for export whenever demanded and to obtain which it must issue bonds when necessary, thus necessitating not only a perpetual debt but a perpetually increasing debt.

"In lieu of a currency of bank promises to pay, to be expanded and contracted as the interest of banks alone may dictate, we demand that the general government shall not only coin the metals but shall issue and regulate the volume of paper currency, also in the interest of all the people, and that all currency intended to circulate as money shall be legal tender and be maintained at a parity of value and be regulated with a view to maintaining stable price levels and safe business conditions.

"We affirm anew our undiminished faith in the acknowledged leader of our party, William J. Bryan, and demand his nomination at Kansas City for President of the United States, and the delegates elected by this convention are instructed to so cast their votes."

A resolution was adopted requesting the Ohio delegation to Kansas City to present a proposition to the National Democratic Convention to locate headquarters in Columbus.

The convention then proceeded to the nomination of State officers.

POLICE ARE CALLED IN.

[A. P. NIGHT REPORT.]

COLUMBUS, June 13.—Harry H. McFadden, editor of the Steubenville Gazette, was nominated for Secretary of State.

Allen W. Smalley of Upper Sandusky was nominated for Supreme Judge.

When Dairy and Food Commissioner was reached the convention was precipitated into such disorder that the chairman sent for a detachment of police. When the police entered they filed down the aisles with the chairman yelling orders to club them down. The police were ordered to take some out, but they restored order without making arrests. Their services were retained for the rest of the evening.

On the second ballot, Ballard B. Yates of Pickaway was nominated.

Prof. J. D. Simpkins of St. Marys was nominated for State School Commissioner and Peter Y. Brown of Chillicothe, for member of the Board of Public Works.

For electors-at-large, Gen. Isaac R. Sherwood of Toledo and Gen. A. J. Warner of Marietta, were nominated without opposition.

BRYAN AT WINDY CITY.

PLATFORM UNDER DISCUSSION.

[A. P. NIGHT REPORT.]

CHICAGO, June 13.—William Jennings Bryan was in Chicago today and the center of much political discussion, all of it bearing on what may be done at the Democratic National Convention next month.

Bryan saw scores of people during the day. He talked "business" with Senator Jones, chairman of the National Committee; J. G. Johnson, head of the Executive Committee; Charles A. Walsh, secretary of the National Committee, and D. J. Campau, National Committeeman from Michigan.

The platform to be adopted at Kansas City and the Vice-Presidential question, especially the Towne Populist nomination angle of it, were considered at some length.

On the question of platform the trend of discussion forecasted to some extent the differences of opinion which may arise at Kansas City even among loyal Bryan men. The question is whether the money plank and other legacies from 1896 shall be handled by reaffirmation of the Chicago platform in a lump, or whether some planks from the 1896 platform, and especially the money plank, shall be rewritten. Bryan favors rewriting much of the 1896 platform this year.

Senator Jones, according to credible advices, advocates reaffirmation of the Chicago platform as a whole, and then a quick transition to the newer issues of imperialism and trusts.

"I say, as I have before so many times," Bryan said, when asked what he thought the platform and issues this year should be, "that I think the three big questions before us are, money, trusts and imperialism. The money question, of course, includes the question of silver and paper money; the question of imperialism includes militarism and the policy of which our national administration's work in the Philippines and attitude on the Boer question are samples.

"I believe the principles adopted in the platform of 1896 were adopted as a part of the party creed, never to be departed from. I don't think they should be or can be departed from, and I do not think they should be or can be departed from this year. That platform must, however be added to as new issues arise. As I don't expect to be a delegate to the national convention, I cannot presume to discuss the form in which these principles shall be stated in the platform to be adopted there.

"I cannot undertake to say what will be the paramount issue. No man can. One thinks one question is the biggest, and another man thinks another is.

"What do I think should be done in the Philippines? I think this country should tell those people that we are there only for the purpose of establishing a stable government, and that when we have done so, we should turn the islands over to the people there and protect them against foreign aggression, as we have protected the South American republics.

"The conditions ahead and the plan of campaign? Why, conditions are much more favorable than they were at this time in 1896. The Republican party is on the defensive. It will talk prosperity, of course, but we will be willing to take the votes of all the people who have had their share of prosperity and leave them the votes of the people who have had their share.

"I should say our plan of campaign will be to carry every State in the Union. Cannot carry all of them? I would not speak so harshly of the people of any State as to say that I thought the people intended to support the Republican party."

STATEMENTS GIVEN OUT.

[A. P. NIGHT REPORT.]

CHICAGO, June 13.—The following statement by W. J. Bryan and Chairman Jones of the Democratic National Committee will be published by the Tribune tomorrow:

"Money, imperialism and trusts will be the three great issues in the Democratic platform. Money includes silver and paper. Imperialism carries militarism and the Boer war. The contest in South Africa is one where imperialism is now specifically applied, and therefore it concerns the people of this country. The Chicago platform will be reaffirmed, and the new issues that have arisen added to its principles. I have not been asked by Senator Jones or anybody else to drop it to 1.

[Signed] "W. J. BRYAN."

"I believe that Col. William J. Bryan will carry every State he carried in 1896, and moreover will carry Kentucky and Maryland. He has a splendid chance in Indiana, Ohio and New York. The great fight will be in New York and Ohio, and we have gained in both States since 1896. The Pacific Coast is stronger today for Col. Bryan than in 1896. Kansas and Colorado we will carry, and the situation in the two Dakotas is most encouraging.

[Signed] "JAMES K. JONES."

VICE-PRESIDENTIAL TALK.

NEW ENGLAND SOLID FOR LONG.

[A. P. DAY REPORT.]

NEW YORK, June 13.—The Vice-Presidency is the principal subject discussed by Republican politicians in this city.

Senator Platt says: "Gov. Roosevelt is not to be thought of in connection with the Vice-Presidential nomination. Gov. Roosevelt has said that he would not accept the nomination. That declaration must be accepted as final."

"I can see nothing new in the situation," said Senator Aldrich of Rhode Island. "The party is harmonious and united in its support of President McKinley. The contest over the nomination for the Vice-Presidency is a wholesome sign of vital interest in the campaign and of a desire in every part of the country to have a share in the assured success of the next administration. Of course, I favor the nomination of Secretary Long. But if New England should not receive this honor, I would repeat what I have said before, that the logic of the situation would then demand that the Vice-Presidential candidate be selected either from New York or from the West. I would like to see a New York man nominated, if one can be found who will unite all elements of the party and who is himself made of Presidential timber."

Senator Lodge of Massachusetts declared that the entire New England delegation will be for Secretary Long for Vice-President

CALIFORNIA DEMOCRATS.

MEET AT SACRAMENTO TODAY.

[A. P. NIGHT REPORT.]

SACRAMENTO, June 13.—Everything is in readiness tonight for the Democratic State Convention which will be called to order tomorrow forenoon at 10 o'clock. Of the 783 delegates entitled to seats in the convention it is estimated that fully 600 will be present in person. The convention will probably complete its work by tomorrow evening.

From present indications it is evident that E. C. Farnsworth of Tulare will be elected chairman of the convention. There was some talk earlier in the afternoon of bringing out Stephen M. White of Los Angeles for the honor. Senator White, however, refused to let his name be considered in this connection.

After this sudden ending of the White boom it was rumored that George S. Patton of Los Angeles would dispute the place with Farnsworth. This report appears to have been with little foundation, however, and the field is practically left open for Farnsworth.

It is generally conceded that Stephen M. White, of Los Angeles, James G. Maguire and James D. Phelan of San Francisco will be three of the four delegates-at-large to be elected to attend the national convention. The fourth place will be disputed by M. E. Tarpey of Alameda and Daniel A. Ostrom of Yuba.

Each Congress district will elect two delegates, but candidates for these positions are not at present numerous. Prominent among the candidates are: J. S. Sweet of Santa Rosa and J. Q. White of Mendocino, in the first district; D. W. Carmichael of Sacramento and E. W. S. Woods of Stockton in the second; Robert Fitzgerald in the third; Curtis Hillyer and Charles Edelman in the fourth; J. H. Henry of San José and Jasper McDonald of San Francisco in the fifth; R. F. Del Valle of Los Angeles and John McGonigle in the sixth, and E. H. Tucker of Selma W. M. McFadden of Orange and L. S. Rodgers of San Diego in the seventh.

It has practically been decided that this convention will not select a new State Central Committee, as was done by the Republican convention which met last month, but leave its selection to the convention that will meet in August, acting under the provisions of the primary election law. Democratic leaders claim that the selection of the committee at this time would be illegal.

The delegates express themselves as favoring the instruction of the delegates to the national convention to vote for Bryan for nomination for the Presidency, and as being in favor of the indorsement of the Chicago platform.

HAS NO CANDIDATE.

HANNA AND VICE-PRESIDENCY.

[A. P. NIGHT REPORT.]

PHILADELPHIA, June 13.—Senator Hanna was asked today whether it was true that the President had a candidate for the Vice-Presidency.

"There is no truth in that report," he said; "none whatever. The President will not interfere. He has no candidate."

"Then, who is your candidate?" he was asked.

"I have none. My only desire is to get the best man."

"You are quoted as being opposed to Mr. Woodruff?"

"I have said, when asked whether Mr. Woodruff was a candidate, that I hoped not, and I do not retract that statement. That is the way I feel. As for Mr. Bliss, he is an admirable man, but he is out of the question; he cannot

[COAST RECORD.]

GAGE ON THE PLAGUE.

Governor Declares it Has Never Existed.

Health Officers "Roasted" in Report to Hay.

Relief Association a Winner—Laborer's Unique Suicide.

[A. P. DAY REPORT.]

SAN FRANCISCO, June 12.—In a lengthy communication to Secretary of State Hay, Gov. Gage today declared that it was his belief that no case of plague has at any time existed within the borders of California. He also incidentally administers a mild "roast" to the City Board of Health and Federal quarantine officers. Gov. Gage's communication in full follows:

"SAN FRANCISCO,
"June 12,190.

"His Excellency, John Hay, Secretary of State, Washington, D. C.

"Sir: In reply to your telegram of date May 31, I have the honor to report:

"First—That no case in San Francisco or California has been diagnosed as bubonic plague by any attending physician while the victim was alive, nor by the attending physician after death. In some of the suspected cases death has occurred when no regular physician was in attendance. There have been in all only eleven suspected cases among a population of 35,000 Chinese (15,000 of whom are quarantined,) and no cases among whites and other races. The examinations made after death of the bodies of the suspected cases since the alleged discovery of the disease more than three months ago fail to furnish satisfactory proofs of plague.

"Second—That the quarantined district contains upward of 15,000 Chinese subjects, 2000 of whom are unable to support themselves by virtue of the quarantine.

"Third—That a full and fair investigation has been denied the physicians of the Chinese by the City Board of Health.

"Fourth—That the Chinese were forced to appeal to the courts and then were accorded the right of investigation into the cause of death of the dead suspects.

"Fifth—That since the procurement of the order of the court granting privilege to the white physicians of the quarantined Chinese to visit the sick and be present and take part in autopsies had, neither the City Board of Health nor the Federal officers have been able to discover any bubonic plague case, dead or alive.

"Sixth—That there has been no epidemic in Chinatown.

"Seventh—That the municipal records show the proportion of deaths in Chinatown has been no greater than that of any other portion of San Francisco since the date of the discovery of the alleged plague in Chinatown.

"Eighth—That I cannot find proof that the plague alleged to be here is either infectious or contagious. I find no proof that any person has contracted it from another; and, I further find that certain individuals who have been repeatedly exposed to autopsies and elsewhere to the alleged plague, and others who have moved about in houses and rooms where the suspects expired, having done so without taking any precaution whatever against the supposed malady, have neither contracted the same nor spread the disease elsewhere.

"Ninth—That no two persons of the same family have contracted the disease, and that no two cases have occurred within the same house or building, no matter how great the exposure may have been.

"Tenth—That the medical gentlemen and experts of the City Board of Health and the Federal quarantine officers who have ventured the injurious operations which have spread broadcast over the world the rumors of the existence of the dread plague in the great and healthful city of San Francisco have never seen a living case of plague; whereas, some among the physicians, surgeons and scientists with whom I have advised have had personal experience and wide opportunities in observing the bubonic plague when it was raging in India and elsewhere, and they all pronounce the suspected cases here not bubonic plague.

"Eleventh—From the best light I have been able to procure and from a most careful consideration of the whole subject, I am pleased to inform Your Excellency that I firmly believe no case of bubonic plague has at any time existed within the borders of our State.

"Twelfth—That if the cases referred to were genuine plague, even then the quarantine, as conducted by the City Board of Health, in conjunction with the Federal quarantine officer, is discriminating against the Chinese and also unreasonable according to information derived from the highest authority here obtainable.

"Thirteenth—It is undetermined by the court whether the injunctions referred to have been violated.

"Fourteenth—Since the report to Your Excellency involves, among other things, the question whether there is plague in Chinatown and also vitally touches the commercial and other interests of San Francisco, as well as deeply concerns the welfare of the entire State, I have deemed it my duty to call into consultation distinguished physicians, surgeons and bacteriologists, able financiers and business men and others, as well as my eminent predecessor in office, the Hon. James H. Budd, some of whose names are, therefore in concurrence hereto attached.

"We concur in the foregoing conclusions that bubonic plague does not exist and has not existed within the State of California.

"Physicians of the regular school: L. C. Lane, president Cooper Medical College; C. N. Ellinwood, professor Cooper Medical College; Winslow Anderson, M. D., M. R. C. P. of London, and M. R. C. S. of England, president College Physicians and Surgeons of San Francisco.

"Physicians of the Homeopathic school: Edwin S. Breyfogle, M. D.

"Bankers, merchants, etc.: Levi Strauss, president of Levi Strauss & Co.; A. B. Spreckels; James H. Budd, former governor of California; William Alvord, president of the Bank of California; Robert J. Tobin, cashier Savings and Loan Society; Adam Grant of Murphy, Grant & Co.; Lewis Mersfelder, president Alaska Commercial Co.; Isaiah W. Hellman, president Nevada National Bank; Henry T. Portman, president Alaska Packers' Association. [Signed.] "HENRY T. GAGE,
"Governor of California."

INJUNCTION HEARING.

[A. P. DAY REPORT.]

SAN FRANCISCO, June 12.—The hearing of the petition of Jew Ho for an injunction restraining the Board of Health from quarantining him and his store occupied the attention of Judges Morrow and DeHaven in the United States Court today. Attorney Dunne for the defendants read his answer to the complaint. In it he recites a resolution of the Board of Supervisors, vesting in the Board of Health power to quarantine houses or districts or persons, and a subsequent resolution of the supervisors declaring Chinatown in quarantine.

The answer denies that any discrimination has been made against the Chinese and alleges that the regulations apply to all persons and races within the district quarantined. It reiterates denials that defendants knew or believed, or now know or believe, that bubonic plague has not existed in the city and county of San Francisco. There is an allegation that there have been twelve deaths from bubonic plague, the last on June 2, and all of Chinese, and all except one within the quarantined district.

That the quarantine is operated in a discriminatory fashion against the Chinese, was the chief point urged by the attorneys as a reason why the quarantine should be abandoned. In their plea on behalf of Jew Ho, it was represented that the quarantine had been applied only to the Chinese residents. The Health Board admitted that Jew Ho is under quarantine, but claimed that the east side of Stockton street, where his place of business is located, is not within the quarantine limits. In the effort to reconcile these conflicting statements, the attorney for the Health Board was finally compelled to make admission that "some are under quarantine and some are not."

Attorney Dunne then explained that he had not personally investigated the lines of quarantine, and that in his answer he had doubtless made an error. He asked permission for time in which to make a correction in his answer to the complaint. After some argument, it was agreed that the request should be granted.

James G. Maguire, for the complainants, said, when Dunne had concluded: "The Board of Health of this city is exercising an extraordinary power—the power to deprive a portion of the inhabitants of this city of their personal and political rights. Where such tremendous arbitrary power is attempted to be exercised, a very complete showing ought to be made to the courts of those rights."

DECISION EXPECTED TODAY.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, June 12.—When the hearing was resumed this afternoon, Attorney Dunne presented an amendment to his answer to the complaint, in which he stated that Jew Ho's place of business and residence was inside the quarantine lines. Judge Maguire, for the complainant, continued his argument that, in enforcing the quarantine, the Board of Health was discriminating against the Chinese.

The case went over until tomorrow, when a decision is expected.

FEAST OF THE DAUGHTERS.

JOYOUS OCCASION AT JACKSON.

[A. P. DAY REPORT.]

JACKSON, June 12.—The reception last night was a grand affair. The entire town turned out to welcome the Native Daughters. The hall was crowded to the doors, over seven hundred being present. Hundreds were unable to gain admission. Grand President Rust made the opening address of welcome, followed by a literary and musical entertainment lasting until 11 o'clock. A banquet afterward at Love Hall was partaken of by over four hundred. With the toasts and the lavish bill of fare, the gathering separated after 2 o'clock.

This morning there was a heavy thunderstorm and rain. The parlor transacted principally routine business. Mrs. Georgia Ryan, Buena Vista Parlor, San Francisco, who has held the office of Grand Secretary for the past eleven years, decided not to again run for secretary. She was voted a permanent member of the Grand Parlor. The constitution was amended, providing for the holding of memorial services on the first Monday in May. A motion to change the time of holding the Grand Parlor from June to May was lost.

AFTERNOON PROCEEDINGS.

[A. P. NIGHT REPORT.]

JACKSON, June 12.—The Grand Parlor held short afternoon session with 118 delegates present. A communication was read from the San Francisco Chamber of Commerce, extending an invitation to hold the next parlor in that city; also a request from Gilroy to have the honor of the next meeting place conferred on that town.

A motion to amend the form of surgeon's certificate was referred to those members of the order who are practicing physicians, with instructions to report to the next Grand Parlor. The evening session at 3:30 was devoted to an exemplification of ritualistic work by Ursula Parlor, No. 4.

Early this afternoon an adjournment was taken to enable the delegates to accept the invitation of Supt. W. F. Detert to visit the Zelle mine, a quarter of a mile from town.

WHITE HORSE COPPER.

TWO-MILLION-DOLLAR DEAL.

[BY DIRECT WIRE TO THE TIMES.]

VANCOUVER (B. C.) June 12.—[Exclusive Dispatch.] W. J. White, who arrived this morning from Dawson, brought the news of the completion of a two-million-dollar copper deal at White Horse. The property, White says, is just above White Horse, and in the center of the copper district discovered there a little more than a year ago. It consists of ten claims, and was owned by the four Parke brothers.

When White arrived yesterday at Victoria, he saw the representative of the Parke concern, and they gave out that the deal had been satisfactorily completed on basis of $2,000,000. They also announced that an English company would this summer send north a very large shipment of machinery and next year would, if the property turned out as expected, erect smelters at White Horse with a large capacity. Other companies are now arranging for the shipment of machinery to this section.

White says that, at present, White Horse is about the liveliest place in the country, and while he was there, thousand-dollar lots were doubling in value over night.

LUNATIC AT LARGE.

A [illegible] IN THE BRUSH.

[A. P. NIGHT REPORT.]

MONTE[illegible], June 12.—An unknown lunatic is causing much alarm at Syndicate Camp in the Upper Carmel Valley. He was first seen about a month ago, when he was given a night's lodging by a settler, but disappeared in the morning. He said he was from Ohio and was ill.

He hides in the chaparral and runs away if approached by any one. Although well dressed at first, he has gradually become ragged and when last seen was perfectly nude when county officials are making efforts to capture him.

SURVEYS IN THE NORTH.

MISSION OF THE PATHFINDER.

[A. P. DAY REPORT.]

SEATTLE, June 13.—The Pathfinder of the Coast and Geodetic Survey has been scheduled to sail for the north today.

The Pathfinder is taking to the north at the request of the Geological Survey, six of its officers and nine camp hands. The geological party will be landed at Golofin Bay with canoes, stores and other equipment. The whole of that portion of Alaska will be explored, during the summer, which lies north of the Cape Nome country.

The mission of the Pathfinder is important to navigation. Norton Sound is to be explored and sounded, as is also Norton Bay. Much work of this kind has already been done during the past two seasons, and it is now proposed to complete the survey by including Golofin Bay and the inner waters known as Golofin Sound.

FIRE AT TUCSON.

EXPLOSION AT MEYER'S STORE.

[BY DIRECT WIRE TO THE TIMES.]

TUCSON (Ariz.) June 12.—[Exclusive Dispatch.] Fire this evening at 6:30 o'clock destroyed property and goods to the amount of $10,000. About thirty minutes after the dry goods store of Isidor Meyer had closed for the day an explosion occurred, and smoke and flames burst from the building. It seemed for a time as if several of the best blocks in the city would be destroyed but energetic work by the fire department confined the fire to Meyer's store. His loss is about $5000. The building belonged to B. . Jacobs and was worth about $3000.

Harry Drehman's shoe store, Schumacher's meat market and Buchman's photograph gallery were damaged by smoke and water to the extent of $1000. It is thought that the fire was caused by a gasoline explosion. All losses were fully covered by insurance.

"UNCLE'S" BALANCE SHEET.

DEEPER AND SHEPPER EARNINGS.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, June 13.—President C. P. Huntington has issued a statement of the earnings of the Southern Pacific Company for April last and for the ten months of the present fiscal year, from July 1, 1899, to April 30, 1900, inclusive. In April last the gross receipts were $6,072,488, an increase of $510,232 over the same month of the year before. Operating expenses amounted to $3,347,376, an increase of $276,696. Earnings in excess of expenditures were $1,725,612, or an increase of $233,536 over April, 1899.

A statement regarding Central Pacific earnings for the nine months of the fiscal year from July 1, 1899, to March 31, 1900, has been issued. The gross earnings were $14,079,495, an increase of $2,031,253 over the same period of the year before. Operating expenses amounted to $8,640,958, an increase of $1,094,256. Earnings in excess of expenditures were $5,438,541, an increase of $1,008,997 over the same period of last year.

LIEUT. SCOTT A BENEDICT.

WEDS MISS LELIA VOORHEIS.

[A. P. DAY REPORT.]

SAN FRANCISCO, June 12.—Lieut. Guy T. Scott, Third Artillery, U.S.A., was married last night to Miss Lelia Voorheis of this city. The groom is a son of United States Senator Scott of West Virginia. Lieut. Merriam, son of Gen. Merriam, acted as best man. After a tour of Southern California, the couple will go to Fortress Monroe, where Lieut. Scott has been assigned for duty.

THE SON IS LUCKIER.

[A. P. DAY REPORT.]

PHILADELPHIA, June 12.—Senator Scott, who is here attending to his duties as a member of the Republican National Committee, sent a $30,000 telegraphic draft to his son, Lieut. Scott at San Francisco, where the young man upon returning from volunteer service in the Philippines, was married yesterday. The Senator wired that he began life with 99 cents.

WINDY ARM WRECK.

REPORT IS NOT VERIFIED.

[A. P. NIGHT REPORT.]

PORTLAND (Or.,) June 12.—Concerning the rumor of the wreck of a scow on Windy Arm, Lake Bennett, and the loss of seven lives, June 1, the Skaguay Alaskan of June 5 (the latest date from the North) says:

"Careful investigation and extended inquiry has failed to corroborate the report. In fact, it has not even been ascertained to a certainty that any scow or scows have been wrecked on Windy Arm or anywhere in that vicinity of late. Rumor had it that W. G. Magean and party of six were on the alleged wrecked scow. From all that can be learned, it seems that they started out on a scow answering the description of the one said to be lost, and some one drew conclusions after the storm that they had been wrecked. Local Canadian officials and railroad officials have heard nothing except rumors in regard to the matter."

ASSOCIATION WILL WIN.

LARGE ACREAGE BEING SIGNED.

[A. P. DAY REPORT.]

FRESNO, June 13.—The Raisin Growers' Association directorate has been surprised and gratified by the incoming of a large acreage of raisin vineyards since President M. Theodore Kearney severed his connection with the directorate. The three-year contracts have been signed by persons who had previously resisted all solicitations. The acreage signed since Saturday, when the new régime commenced, is nearly 3500 acres, or one-fifth of the balance necessary to control the market, with nineteen days left to secure the remainder.

A. B. Butler, a well-known grower and a leader among the independent packers, said today that the success of the association is now practically beyond doubt.

SANTA FE'S BUSINESS.

NET INCOME WELL INCREASED.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, June 13.—President E. P. Ripley announces a semi-annual dividend of 2½ per cent. on Santa Fé preferred stock.

The company's gross receipts for the first ten months for the present fiscal year, July 1, 1899, to April 30, 1900, inclusive, amounted to $33,402,393. This is an increase of $4,529,653 over the same period of last year. Operating expenses were $22,053,278, a decrease of $353,329. Earnings in excess of operating expenses amounted to $15,348,614, an increase of $4,917,983.

After deducting from the latter taxes and rentals, there is left a net income of $12,510,148. This is an increase of $4,780,867 over the corresponding period of last year.

ACCOMPLISHED HIS END.

BUT NOT AS PER PROGRAMME.

[A. P. DAY REPORT.]

WOODLAND, June 13.—Jack Crowell, a laborer, was found dead in his bunk on a ranch near this city today. He evidently intended to commit suicide, but at the last supreme moment death in natural form overtook him. He was found with a double-barreled shotgun in his hands. One charge had been fired, and the other barrel loaded with the hammer cocked. The charge passed over his head about three inches, entering the wall opposite.

An autopsy and inquest was held. A verdict was rendered that deceased came to his death from paralysis of the heart, caused by hard drinking, together with the shock of the report of a gun.

THE RAINFALL.

At San Jose.

SAN JOSE, June 13.—Quite a shower of rain came over this morning between 10 and 11 o'clock. While it was unusual, it was not sufficient to do any harm.

At Stockton.

STOCKTON, June 13. — A light shower, lasting but a few minutes, fell here today shortly before noon. It is very unusual for this season of the year.

Showers Prevailing.

MILTON, June 13.—Showers, accompanied with heavy thunder and lightning, prevail in this vicinity. The rainfall, although unusual this season, has done little damage.

BRIEF COAST DISPATCHES.

Warfield Appoints Burgin.

SAN FRANCISCO, June 13.—Brig.-Gen. Warfield has appointed Col. J. F. Burgin to be assistant adjutant-general of the Second Brigade.

Harvester Teams Stampede.

BRENTWOOD, June 13.—A thunderstorm this morning caused the teams attached to several harvesters to run away. The machinery of Smith E. Brown and J. Shallenberger were damaged, and two horses were severely injured.

Old Man Found Dead.

SAN JOSE, June 13.—Gustav Somoluiska was found dead at Market and San Augustine streets today. He was a man about 70 years of age. Death is supposed to be due to natural causes. An inquest is being held this afternoon.

Refrigerator Cars for Fruit.

FRESNO, June 13.—There was instituted today a freight novelty on the Santa Fé in a refrigerator car-line between this city and Visalia to handle the more readily and safely the heavy fruit crop of that section. The greater part of the crop is canned or packed in this city.

Two Millions in Dust Coming.

SAN FRANCISCO, June 13.—The Alaska Exploration Company has received telegraphic advices that the company's steamer, A. F. Gustin, left Dawson on June 4, for St. Michaels, carrying $2,000,000 in gold dust. She is expected to connect with the Zealandia at St. Michaels for this port.

Electric Company Gets Franchise.

REDDING, June 13.—The McCloud River Electrical Power Company was granted a franchise by Shasta County Supervisors today. The company will operate an electric railroad between Redding and Copper City, a distance of thirty miles. The route is via Keswick, Copley and Kennett, to the Delamar copper mines. The railroad will follow the Sacramento and Pit Rivers.

Port for Animal Quarantine.

SAN FRANCISCO, June 13.—Collector of Customs Jackson has received notice from the Secretary of the Treasury that San Francisco has been designated as a port of quarantine for animals. The order is in consequence of large shipments of horses being made between this city and the Philippines. Heretofore the quarantine for animals on the Pacific Coast has been confined to San Diego and Port Townsend.

HE SIGHED FOR REST.

DRAMATIC DEATH OF AN AMATEUR MUSICIAN.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 13.—[Exclusive Dispatch.] William Wheeler, a cable operator and an amateur musician of some ability, ended his life in a very dramatic manner last night at his lodgings in Brooklyn. He had been playing and singing for a number of companions, and complaining that he was ill, left the room for a moment. While out he drank a large dose of carbolic acid.

Returning to the room, he sat down to the piano and played and sang, "Ah, I Have Sighed to Rest." He did not live to finish the song, for he fell from the stool unconscious, and was dead before an ambulance surgeon reached him. Wheeler was despondent from drink.

BANK PRESIDENT'S "GOLD BRICK."

HASTINGS (Neb.,) June 13.—William Kerr, president of the Adams County Bank of Hastings, has received word from the Denver mint that a "gold brick," which he had purchased from a stranger at Leavenworth, Kan., a few days ago, for $13,000, is made of copper.

HISSED JIM CORBE[illegible]

Scranton "Cheap Guy" Asked Too Much.

Wanted Ball Game and Pr[illegible] Fight for Two Bits.

Blues Winner at Gravesend—Ya[illegible] Ball at Brooklyn—Other Sport.

[BY DIRECT WIRE TO THE TIMES.]

SCRANTON (Pa.,) June 13.—[Exclusive Dispatch.] James J. Corbett arrived in a rather exciting incident this ball grounds in this city to Corbett came here to play first base Scranton in a game with Wilkesbarre. He played good ball, and his hit de[illegible] in two of the three runs scored Scranton. At the end of the fifth ning, Corbett spared three runners Jack McVey, but it gave indication of having been rehearsed, and [illegible] people in the grand stand hissed. C[illegible] bett walked up to the grand stand [illegible] stedly, and shook his fist at the hiss[illegible]

"These people hissing are not sport[illegible] men," he declared in a loud voice. "What do you expect me to do, ha[illegible] him out? I only agreed to give a [illegible] exhibition, and we don't give a [illegible] fight for 25 cents admission fee."

The former champion's demeanor cowed the hissers into silence, and he was applauded as he [illegible] majestically under the grand stand.

EASTERN BASEBALL.

YELLOW BALL AT BROOKLYN.

[A. P. NIGHT REPORT.]

BROOKLYN, June 13.—Bartlett was put out at the plate for kicking to and the Cincinnatis became demoralized. Wood, who took his place, [illegible] judged two flies in the seventh inning and before the home team was retired six Brooklyn men had crossed the plate. The attendance was 1200. Score:

Brooklyn, 11; hits, 12; errors, 0.
Cincinnati, 1; hits, 4; errors, 5.
Batteries—McGinnity and Farrell; Breitenstein and Peitz.
Umpire—O'Day.

NEW YORK-CHICAGO.

[A. P. NIGHT REPORT.]

NEW YORK, June 13.—The New Yorks again defeated the Chicagos today, scoring their third consecutive shut-out. A record for [illegible] Only twenty-eight Chicago players came to the bat. One of these got [illegible] base on balls. The attendance was 3800. Score:

New York, 6; hits, 8; errors, 0.
Chicago, 0; hits, 0; errors, 0.
Batteries—Hawley and Bowerman; Griffith and Chance.
Umpire—Swartwood.

PITTSBURGH-BOSTON.

[A. P. NIGHT REPORT.]

BOSTON, June 13.—Nichols was in [illegible] extra innings today, being hit for only three safeties. Beaumont's muff over the left-field fence in the [illegible] scored the only run. The attendance was 3600. Score:

Boston, 1; hits, 6; errors, 4.
Pittsburgh, 0; hits 3; errors, 3.
Batteries—Nichols and Clark; Phillippi and O'Connor.
Umpire—Emslie.

PHILADELPHIA-ST. LOUIS.

[A. P. NIGHT REPORT.]

PHILADELPHIA, June 13.—Plank kept the hits well scattered, Philadelphia's on the other hand, hit the ball hard. The attendance was 1500. Score:

St. Louis, 7; hits, 11; errors, 2.
Philadelphia, 11; hits, 16; errors, 4.
Batteries—Sudhoff, Thomas and Robinson; Platt and McFarland.
Umpire—Hurst.

REIFF HELD ROYAL FLUSH.

WON PLATE AND MUCH COIN.

[A. P. DAY REPORT.]

LONDON, June 13.—[By Atlantic Cable.] At Ascot today the Royal Hunt cup (a piece of plate valued at 8 sovereigns, with 1800 sovereigns in specie) was won by J. A. Drake's Royal Flush, ridden by J. Reiff. Good Luck was second and The Reeve, with Rickaby up, was third.

Blues Winner at Gravesend.

NEW YORK, June 13.—The Treasure stakes brought out a large crowd at Gravesend today. Tommy Atkins, the hot favorite, could do no better than third. Prince Pepper held the lead for the last furlong; when Blues came on the outside of the bunch in the rear and won in a drive. Results:

About six furlongs: Picardy won, Sanders second, Contestor third; time 1:10 2-5.

Mile and a quarter: Imp won, Guiden second, Lothario third; time 2:[illegible]

Tremont, six furlongs: Blues won, Prince Pepper second, Tommy Atkins third; time 1:13 4-5.

Falcon stakes, one mile and one-sixteenth: First Whip won, The Rush second, Redpath third; time 1:48 1-5.

Five and one-half furlongs: Rolling Boer won, The Rhymer second, Stratagist third; time 1:08 4-5.

Mile and one-sixteenth: Autumn won, Oliver Mac second, Lucky Star third; time 1:50.

St. Louis Talent Lucky.

ST. LOUIS, June 13.—The hard rain of last night made the track as the Fairgrounds very heavy today, and the talent were in great luck in picking all the winners.

Selling, six and one-half furlongs: Moront won, Harrie Floyd second, Irene Chancellor third; time 1:20¼.

Selling, one mile and an eighth: Ramiro II won, Baffled second, Dimonis third; time 1:59½.

Handicap, six furlongs: Tom Collins won, Kindred second, Aunt Mary third; time 1:17.

Selling, mile and a sixteenth: Tickfoi won, Russell R. second, Myth third; time 1:54¾.

Selling, mile and seventy yards: Glen Lake won, El Caney second, Connie Lee third; time 1:53.

Five furlongs: Ampere won, Miss Zara second, Amorous third; time 1:05.

Heavy Going at Harlem.

CHICAGO, June 13.—The weather was cloudy and track heavy at Harlem today.

Six furlongs: Scales won, Praetorian second, Charlie Moore third; time 1:20¾.

Five furlongs: Silverdale won, Sanasardo second, Icon third; time 1:06¼.

Steeplechase, short course: Gov. Budd won, Becky Ridth second, Bonnetter third; time 3:05.

Mile and seventy yards: Orimar won, Teucer second, Kentucky Babe third; time 1:44¾.

Seven furlongs: Spanishburn won,

[SPORTING RECORD.]

KISSED JIM CORBETT.

Scranton "Cheap Guys" Asked Too Much.

Wanted Ball Game and Prize Fight for Two Bits.

Base Winner at Gravesend—Yellow Jail at Brooklyn—Other Sport.

[BY DIRECT WIRE TO THE TIMES.]

SCRANTON (Pa.,) June 13.—[Exclusive Dispatch.] James J. Corbett figured in a rather exciting incident at the ball grounds in this city today. Corbett came here to play first base for Scranton in a game with Wilkesbarre. He played good ball, and his hit drove in five of the three runs scored by Scranton. At the end of the fifth inning Corbett sparred three rounds with Jack McVey, but it gave indications of having been rehearsed, and some people in the grand stand hissed. Corbett walked up to the grand stand excitedly, and shook his fist at the hissers. "These people hissing are not gentlemen," he declared in a loud voice. "What do you expect me to do, knock them out? I only agreed to give a good exhibition, and we don't give a prize-fight for 25 cents admission fee."

The former champion's fierce defiance cowed the hissers into silence and he was applauded as he walked proudly under the grand stand.

EASTERN BASEBALL.

YELLOW BALL AT BROOKLYN.

[A. P. NIGHT REPORT.]

BROOKLYN, June 13.—Bartlett was left out of the game for kicking today, and the Cincinnatis became demoralized. Wood, who took his place missed two flies in the seventh inning, before the home team was retired. Brooklyn men had crossed the plate. The attendance was 1500. Score: Brooklyn, 11; hits, 12; errors, 0. Cincinnati, 1; hits, 4; errors, 5. Batteries—McGinnity and Farrell; Daniels and Peitz. Umpire—O'Day.

NEW YORK-CHICAGO.

[A. P. NIGHT REPORT.]

NEW YORK, June 13.—The New Yorks again defeated the Chicagos today, scoring their third consecutive victory, a record for recent years. Only twenty-eight Chicago players came to the bat. One of these got a base on balls. The attendance was 1500. Score: New York, 5; hits, 8; errors, 0. Chicago, 0; hits, 5; errors, 0. Batteries—Hawley and Bowerman; Taylor and Chance. Umpire—Swartwood.

PITTSBURGH-BOSTON.

[A. P. NIGHT REPORT.]

BOSTON, June 13.—Nichols was an easy mark today, being hit for only three scattering singles. Hamilton's drive to the left-field fence in the third scored the only run. The attendance was 1500. Score: Boston, 1; hits, 6; errors, 0. Pittsburgh, 0; hits 3; errors, 2. Batteries—Nichols and Clark; Phillippi and O'Connor. Umpire—Emslie.

PHILADELPHIA-ST. LOUIS.

[A. P. NIGHT REPORT.]

PHILADELPHIA, June 13.—Platt kept the hits well scattered. Philadelphia on the other hand, hit the ball hard. The attendance was 3500. Score: St. Louis, 7; hits, 11; errors, 2. Philadelphia, 11; hits, 16; errors, 0. Batteries—Sudhoff, Thomas and Robinson; Platt and McFarland. Umpire—Hurst.

SKIFF HELD ROYAL FLUSH.

WON PLATE AND MUCH COIN.

[A. P. DAY REPORT.]

LONDON, June 13.—[By Atlantic Cable.] At Ascot today the Royal Hunt Cup (a piece of plate valued at 500 sovereigns, with 1500 sovereigns in specie) was won by J. A. Drake's Royal Flush, ridden by J. Reiff. Good Luck was second and The Reeve, with Rigby up, was third.

Blues Pioneer at Gravesend.

NEW YORK, June 13.—The Tremont stakes brought out a large crowd to Gravesend today. Tommy Atkins, the hot favorite, could do no better than third. Prince Pepper held the lead to the last furlong, when Blues came out of the bunch in the rear and won in a drive. Results:

About six furlongs: Picardy won, Anders second, Contestor third; time 1:10 3-5.

Mile and a quarter: Imp won, Gulden second, Lotharic third; time 2:05. Tremont, six furlongs: Blues won, Prince Pepper second, Tommy Atkins third; time 1:13 4-5.

Falcon stakes, one mile and one-sixteenth: First Whip won, The Rush second, Redpath third; time 1:46 1-5.

Five and one-half furlongs: Rolling Boer won, The Rhymer second, Stratelet third; time 1:06 4-5.

Mile and one-sixteenth: Autumn won, Oliver Mac second, Lucky Star third; time 1:50.

St. Louis Talent Lucky.

ST. LOUIS, June 13.—The hard rain of last night made the track at the Fairgrounds very heavy today, and the talent were in great luck in picking all the winners.

Selling, six and one-half furlongs: Monad won, Harrie Floyd second, Iron Chancellor third; time 1:20¾.

Selling, one mile and an eighth: Ramiro II won, Baffled second, Dimorbis third; time 1:58¾.

Handicap, six furlongs: Tom Collins won, Kindred second, Aunt Mary third; time 1:17.

Selling, mile and a sixteenth: Tickful won, Russell B. second, Myth third; time 1:54¾.

Selling, mile and seventy yards: Glen Lake won, El Caney second, Connie Lee third; time 1:52.

Five furlongs: Ampere won, Miss Sara second, Amoroso third; time 1:06.

Heavy Going at Harlem.

CHICAGO, June 13.—The weather was cloudy and track heavy at Harlem today.

Six furlongs: Scales won, Praetorian second, Charlie Moore third; time 1:20¾.

Five furlongs: Silverdale won, Sanmarco second, Icon third; time 1:06¼.

Steeplechase, short course: Gov. Dodd won, Bucky Rolfe second, Bonebetter third; time 3:45.

Mile and seventy yards: Orimar won, Reever second, Kentucky Babe third; time 1:46¾.

Seven furlongs: Bonnockburn won, Brulare second, Orion third; time 1:32¾.

Mile and one-sixteenth, sailing: Trimmer won, Blue Lick second, Ossary third; time 1:55½.

Racing at Cincinnati.

CINCINNATI, June 13.—The track was fast.

Six and one-half furlongs: Doubterswivel won, Tension second, Flop third; time 1:21½.

Four and one-half furlongs: Great Star won, Lady Bramble second, Telephone Girl third; time 0:55½.

Mile: Dissolute won, Sartilla second, Prince Wilhelm third; time 1:41¾.

Mile: Great Land won, Salvarse second, Lord Zeni third; time 1:41¾.

Five furlongs: Drogheda won, Bonckhart second, Porter B. third; time 1:03.

Six and one-half furlongs: Prince of Wales won, Northumberland second, Kilt third; time 1:20½.

Results at Fort Erie.

BUFFALO, June 13.—Six furlongs: Icedrop won, Miss Soak second, Mousetoff third; time 1:15.

Four and one-half furlongs: The Copper won, Frank Morrison second, Bill Massie third; time 55¾.

Mile: Zoroaster won, Alice Farley second, Howard S. third; time 1:41½.

Six and one-half furlongs: Corialis won, Expelled second, Foorlands third; time 1:21¾.

Mile: Althea won, Bulls Punch second, Lady of the West third; time 1:41.

Six furlongs: Oak Maid won, Jucoma second, Ocie Brooks third; time 1:15.

[THE PHILIPPINES.]

NAVY CONTROLS CAVITE.

Admiral Remey Cables for Marines to Defend It.

Battalion Going Forward to Garrison the Naval Station.

[A. P. DAY REPORT.]

WASHINGTON, June 13.—The Navy Department has received the following cablegram from Admiral Remey at Cavite, dated yesterday:

"Army turned over Cavite peninsula and Bastion Island to naval control and defense. The army also wants to give up Olongapo. We cannot take the latter while short of marines. The Solace with six officers intended for Guam and 100 marines have been sent to Kempff. Can't the department send a battalion of marines to the Philippines? Think it important that the former Spanish naval station be under navy control. Additional forces needed if the navy is to secure naval station at the present time. The Yorktown has been placed at Kempff's disposal. The Castine is at Shanghai and her repairs will be completed July 20. The Austria is at Canton, with orders to proceed to Swatow and Amoy."

THE SENDING OF MARINES.

[A. P. NIGHT REPORT.]

WASHINGTON, June 13.—The Navy Department had taken steps to send more marines to Manila before the appeal of Admiral Remey came. The formal announcement took the shape of this bulletin: "Arrangements are being made at the Navy Department to send a battalion of marines to the Philippines. These men are wanted for service at certain naval stations in the Philippines and to replace about eighty marines who have been sent into Chinese waters."

A marine battalion is only 250 strong. The men could be gathered up at short notice from the marines now at the Naval Academy and the New York League Island and Washington navy yards, so it is expected that they will be on their way to Manila by August 1 at the latest.

It is figured at the department that there are now 2000 marines in the Philippines and at Guam, the larger part of the force not afloat being stationed at the Cavite naval station. This is the largest naval reservation under the control of the Navy Department with a water front of about fourteen miles, and the withdrawal of the soldiers has made it necessary to maintain a large force of marines to garrison the reservation and keep down the insurgents, who are numerous in Cavite province. The other points mentioned in Admiral Remey's cablegram also are naval coaling stations, and as they have been turned over to the navy, the army naturally does not care to be charged with their maintenance, especially when there is so much work elsewhere.

SOLACE SAILS FROM MANILA.

[A. P. DAY REPORT.]

MANILA, June 13.—The United States hospital-ship Solace sailed at midnight last night, having on board 100 marines and five officers, Maj. Waller commanding, in response to the telegraphic request sent from Tong Ku, June 11, by Admiral Kempff. Thirty other marines left last week on the gunboat Nashville, bound for Tien-Tsin. The marines on the Solace have been destined for Guam. It is believed that others will be sent there later on. It is said a supply ship will leave this week and that the New Orleans will sail later.

BROOKLYN FIRE FATALITIES.

FOUR MEN DEAD AND FOUR OTHERS STILL MISSING.

[A. P. DAY REPORT.]

NEW YORK, June 13.—The fire that destroyed the Paul Weidemann Company's cooperage plant in Williamsburg, Brooklyn, last night, is known to have caused the death of four men. Joseph Rodgerson, a fireman, who was crushed by a falling wall, died subsequently at the hospital. Four men were still missing at midnight, and some of them are probably buried in the ruins.

The unidentified man who was killed was on the roof clinging to the cornice when the building collapsed, and was thrown outward in the street amid a mass of flying brick and timber. He was fearfully mangled and his right leg was wrenched off by the terrific fall. The police do not believe that it will be possible for his family or friends to identify the body.

The efforts of the fire boats were centered upon an immense gas tank of the Williamsburg Gas Company. The heat of the fire was terrific, and it was feared that it might cause the gas in the big tank to explode. The tank was within four feet of the top of the frame. But the gas was drawn off and pumped into another tank a block away. The fire boats pumped water on the tank to keep it cool.

Had it exploded that part of Brooklyn would have been wrecked, as two other big tanks of gas near by would have gone up, as well as a square block of oil tanks, owned by the Standard Oil Company. Residents were panic-stricken at the possibility of an explosion, and many fled to distant points. The loss to the cooperage plant was $75,000.

Shirt Connoisseurs,

That is to say men who know shirt style and shirt perfection, supply their wardrobes from our exceedingly choice stock.

Nowhere else will you find the variety of handsome effects—very nobby and very correct. Nowhere else the same exclusive patterns.

If you want shirts whose goodness will withstand the wear and tear of a laundry—whose quality is unsurpassed—then you want ours.

We have made this the shirt store of the town, by making the shirts the shirts of the town.

"Bought at the London" is a guarantee of advanced style and finest grade.

Prices go down as low as the lowest, quality never does.

Different kinds of all kinds of shirts.

SIEGE OF KUMASSIE.

British Governor Unable to Send Out Letters.

Troops on Half Rations and also Short of Ammunition.

[A. P. NIGHT REPORT.]

LONDON, June 13, 7:45 p.m.—[By Atlantic Cable.] The following dispatch has been received at the Colonial Office from Col. Wilcocks, in command of the Ashantee relief expedition:

"ERAHSU, June 12.—A letter has just been received from the governor of the Gold Coast (Sir F. P. Hodgson,) dated Kumassie, June 4. It is as brief as possible. Following is its substance: On several occasions unsuccessful attempts have been made to get off letters. He informs me that he inclosed a copy of another, of May 4, which I have not received.

"Kumassie is garrisoned by 500 native troops, under the command of Maj. Harris, acting commissioner and commandant of the northern territories, who has succeeded in entering the place from the north.

"The Houssas and other troops are on half rations. The supplies of ammunition at Kumassie are not sufficient to allow offensive measures, and must be husbanded in case of the reinforcements not arriving. The march to the relief of Kumassie will be met by great numbers of natives who have constructed stockades and put impediments, such as trees, in the way. There are also stockades surrounding Kumassie, offering the rebels good shelter. The rebels have places built up in trees, and have used them to open fire from.

"The state of health of Kumassie is good, but 3000 persons of the native community are in a state of destitution. Immediate assistance is required. The reinforcements which have reached the Gold Coast, most of which have crossed the Prah, comprise 100 of the Lagos (Hausas) force and fifty of the Sierra Leone frontier police, with Maxims and field guns. These are in addition to the Gold Coast constabulary and Gold Coast police. Further reinforcements, amounting to 900 men, are being sent from Sierra Leone and Northern and Southern Nigeria, and will reach Cape Coast in the course of a few days.

"The advance of the relieving force has been delayed by heavy rains, and the difficulty of obtaining carriers, of whom 4000 have arrived from Cape Coast and have proceeded up the country, June 11."

Col. Wilcocks was at Prahsu, June 12.

PLAN FOR A RUSSIAN BANK.

M. ROTHSTEIN MAY ESTABLISH ONE IN THIS COUNTRY.

[A. P. DAY REPORT.]

NEW YORK, June 13.—It is said that M. Rothstein, general manager of the Imperial Bank of Russia, who is conferring with financiers in this city, may decide to establish a Russian bank in this country through which Russian disbursements can be effected.

These disbursements, it is said, aggregate nearly $10,000,000 a year and with probable further development of Russian interests in this country, it may be advisable for the government to have a bank of its own. Some large blocks of Russian railway bonds guaranteed by the Russian government, sold to American capitalists a few months ago, have already been disposed of in the United States for public investment, and several million dollars of such securities are now held by the New York Life Insurance Company, which does business in Russia.

Whether M. Rothstein will try to float another loan in the United States is not known, but a man familiar with Russian affairs, said he believed no conclusion whatever had been arrived at about the matter as yet, reports to the contrary notwithstanding.

OUR FOREIGN RELATIONS.

SENATOR DAVIS SAYS OUR POLICY INSURES PEACE.

[A. P. DAY REPORT.]

PHILADELPHIA, June 13.—The feature of alumni day at the University of Pennsylvania was an address by Senator Cushman K. Davis of Minnesota, on "The Foreign Relations of the United States." He said, in part:

"The foreign policy of this country has usually been of that formal character which consists in negotiating those conventions which maintain the peaceful intercourse of States. We have followed, with very few exceptions the wise advice of Washington, not to involve ourselves in entangling alliances with European states and to preserve our peculiar and powerful isolation from their political concerns has been the line upon which our foreign relations have been conducted. We have been too remote and our latent power has been too great to be attacked or even made the subject of serious diplomatic aggression by European states singly or in combination.

"As to any expansion of our dominions, is has never been asserted by the most averse critic of our institutions that the cause of civilization and human freedom would not be thereby promoted.

"I think it can be safely said that they who once threatened intervention between the United States and Spain abandoned that desire very quickly after the momentous events of Manila and Santiago, and will never again entertain the design of a similar intrusion, under any circumstances that we can now imagine.

"I believe that these victories have done more to assure the peace of the world than all of the alliances and international concerts which have been effected during the last fifty years."

With regard to the partition of China, Senator Davis said the United States would command the greatest part of the commerce with the Chinese Orient.

Lightning Plays the Mischief.

WALNUT CREEK, June 13.—During a thunderstorm, a mile east of San Ramon, two valuable horses owned by J. Martin, were killed by lightning. H. Cabral was thrown ten feet in the air; a pitchfork in his hands was torn into small pieces, and a deep hole was made in the ground. A telegraph pole, half a mile distant, was shattered to splinters, only the insulation being left intact.

The Broadway Department Store

Mason Fruit Jars 57c a Dozen

The very best made; machine blown, which makes them smooth and uniform in thickness and with no bubbles to crack. Every one has a porcelain lined top. We sold carloads at retail last summer. We expect to do better than that this summer. It's buying direct in such tremendous quantities that allows us to undersell all others.

Pints 75c doz. Quarts 69c doz. 2 Quarts 94c doz.

Jelly Cups Are as Cheap as Ever.

Four Points of View

Not only from four points of view, but from all points of view

Abbey's Effervescent Salt

is found to be the "salt" of salts, and, used in time, the foundation of health. If you are suffering from that all too common complaint, Dyspepsia, with its attendant ills, Constipation, Headaches, Impure Blood, etc., use Abbey's Salt daily and it will bring you health. The 50c. size is the trial size. The 50c. size will cure an ordinary case of Dyspepsia or Constipation. The $1.00 size is the economical size for regular use.

JAS. T. BURDICK, M.D., Brooklyn, N.Y., says: "I am free to say that I like the effect of the Salt as well that I prescribe it now altogether instead of citrate of magnesia, Seidlitz powders, etc. It is the best general saline laxative that I know of."

Sold by most druggists or sent by mail.

OIL PROPERTY—

Miscellaneous.

TWO CENTS PER SHARE—

Yesterday an order was received from New York city from persons who had made an examination of the Juanita Oil Company, through the commercial agencies for 10,000 shares of the 2c stock. This leaves only 46,000 shares of the 2c stock on sale. The next block will go on the market at 4c. The following table shows the price at which the stock is issued:

Block A, 500,000 shares, at 1c per share; all sold.

Block B, 250,000 shares, at 2c per share; nearly all sold.

Block C, 250,000 shares, at 4c per share.

Block D, 250,000 shares, at 6c per share.

Block E, 250,000 shares, at 8c per share.

Block F, 250,000 shares, at 10c per share.

Block G, 51,000 shares, at 12c per share.

Total, 1,551,000 shares; or less than one-tenth of the entire capital stock. As fast as the above blocks are sold (price of the next will be put on the market until the last block is sold out, when no more stock will be sold for less than 25c per share. Juanita stock is now worth more than 25c per share. This should be a good time to buy, before giving. So if you want to get in early, buy Juanita stock. A contract has been made and development work for 400 feet will, and negotiations are pending for the purchase of a rig, for which a driller has been hired. Another thirty days should see Juanita taken out of the list of non-producers, but the stock will not be arbitrarily advanced in price, but will be sold according to the above table. If the 2c stock is sold out today, the 4c stock will immediately follow. If will buy 10 shares. JUANITA OIL COMPANY, 319 N. Spring st., Los Angeles, Cal. 14

FRANK A. WEITZEL & CO., OIL STOCK brokers, 325 Douglas Bldg. 'Phone James 1284. Call, write or 'phone us for information regarding the oil question. We have the following stocks for sale:

Sunset Petroleum and Refining Oil Co.
State Crude Oil Co.
Globe Oil Co.
Hartford Oil Co.

THE OIL INDUSTRY.

THE AMERICAN GIRL

Offices, 247 Wilcox building, city. The officers of the company will with pleasure give applicants full particulars of the splendid prospect of the company. Great part of their unsurpassed oil land has been leased on very favorable terms, and a choice piece has been reserved for development by the company. Shares are absolutely nonassessable. Par value, $1 each. Call or write about this.

The object of the Consolidated Oil Stock Company is to buy stocks of oil companies after a careful examination, first as to character of holdings then into the personnel and management. In this way loss is impossible. Your investment with profits is sure. We owe no lands or leases—only stocks. No salaries. All your money is judiciously invested.
Price 20 cents per share. 113 South Broadway.

THE OIL INDUSTRY.

SAFE AS A BANK.

The permanent policy of redeeming its stock on demand renders the California Consolidated Petroleum Company as safe as a bank. Any shareholder may at any time within thirty days from the date of his certificate get, upon demand, every cent of his money back. All money paid in installments will also be refunded on demand at any time within thirty days from date of first payment. This policy will be faithfully carried out, not for a few days, but for years, as the California Consolidated Petroleum Company is in the oil fields to stay, and will protect with its own capital its shareholders. This is a solid company, backed by solid men, who have faith in the stock, and who will back their faith with gold coin. Call or write for prospectus, room 213 Laughlin Building, Los Angeles, Cal. Office open evenings. Tel. main 682.

INVESTMENT.

If you look for a safe, profitable and conservative oil investment, it will pay you to investigate the merits of the New Century Oil Company's stock. The company has the very richest oil lands, a patent process materially cheapening refining, which will prove exceedingly valuable and pay large profits. Correspondence solicited, if you can't call at the office, Stimson Block.

CROWN KING OIL COMPANY

Has located its first well and active operations will begin as soon as material and a rig can be placed on the property. Stock is selling at only 20 cents per share. It will certainly pay you to get a block of this stock before it is withdrawn from the market.
Full information on application. Address CROWN KING OIL CO.,
212 West Third st.
Tel. black 2651.

OLD GLORY OIL COMPANY.

Now is the time to buy this stock. Investigate and buy before it goes beyond your means. Holdings in all the best oil fields of the State. Our operations are being pushed in a business and systematic manner. Full information, photos, maps and prospectus at office Old Glory Oil Co., 239 Laughlin Building, Los Angeles, Cal.

NICKEL OIL COMPANY.

No. 220 Stimson Block. Stock is now 15 cents per share; as soon as pumping on well number two commences, price will be raised to 20 cents per share. Only just enough stock will be sold to meet drilling and other expenses from week to week.

AN OIL REFINERY.

The Hercules Oil Producing Company is having plans drawn for its refinery. An early erection is an assured fact. A standard rig was purchased and shipped to their property in the Kern River district. Work is being pushed. Stock at 25 cents; soon be advanced to 50 cents. Rooms 220-221 Douglas building, Los Angeles, Cal.

RAMONA OIL COMPANY.

The Ramona is one of those companies which invite full investigation on part of the investing public. Drilling now proceeding, with first-class indications. Call for a prospectus of this company, at the office in the Byrne Block, or write for one.

FROM UNFERTILIZED EGGS.

ARTIFICIAL PRODUCTION OF LARVAE OF THE SEA URCHIN.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

NEW YORK, June 2.—Prof. Jacques Loeb gives an interesting note on the artificial production of larvae from the unfertilized eggs of the sea urchin. The sea water used for the experiments was heated the day before, very slowly, to a temperature of from 50 to 70 deg. C., and was kept at that temperature for about ten minutes and allowed to cool very slowly. This killed the spermatozoa. During the time the water was heated no sea urchin was opened in the laboratory or was even kept there. The sterilized sea water was kept in special flasks and covered jars which were utilized for this purpose only. The hands of the operators were carefully disinfected, as for surgical operations. Before being opened, each sea urchin was exposed for from two to five minutes to a powerful stream of fresh water, and the whole surface of the animal was washed thoroughly with fresh water. The mouth was then cut out with scissors that had been sterilized in flame. Through this excision the sexual glands were exposed and their color allowed to decide whether the animal was a male or a female. In female subjects the intestine was removed with a sterilized forceps, care being taken to avoid contact with the ovaries or with the outside surface of the animal. After the intestines had been removed, and nothing left except the ovaries, the inside of the animal was repeatedly washed out with fresh water. The ovaries were first put into a dish of fresh water, and into sterilized sea water. One part of the eggs were put into sterilized sea water to serve as control material. A second portion was put into a mixture of equal parts of sterilized sea water and a special chemical solution. An hour or two later the eggs were taken out of the mixture and put into sterilized sea water. While of the latter eggs as many as 25 per cent. developed into blastulae, and swam around next day, not an egg of the control material even segmented. These experiments demonstrate that the mixture used for artificial fertilization kills spermatozoa in a comparatively short time, and injures many of the eggs. Spermatozoa, contrary to common beliefs, are much more sensitive and are killed much sooner than the eggs. These experiments throw a valuable light on certain phases of artificial hatching.

IN OLD TOLEDO.

Birdseye View of the Ancient Spanish Capital.

Interesting Traditions and Monuments of Bygone Centuries.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

TOLEDO (Spain,) May 23.—You might wander for days in these labyrinthine alleys, shut in by close, high walls, without gaining so good an idea of Toledo as may be obtained in half an hour from the highest point in the city. The ascent to the Zion of this Jerusalem is no more difficult than any other of its steep and stony streets. Passing through "the Gate of the Sun" to an open space immediately above the jutting escarpment, whose inaccessible sides justify the Gothic founders in their selection of a site—you command a view of all within the walls, as well as of the encircling hills, and the wild and melancholy Tagus, winding for miles between jagged cliffs. Sloping down from your feet on every side are forts and castles and towers, all so weird, so uniformly old and hopelessly decayed that it is difficult to believe they can have anything to do with the nineteenth century. And, indeed, many of them have not. For example, those Cyclopean ruins, close at hand, were once King Wamba's palace, built in the year 674, and afterward occupied by Roderick. From one of its windows he beheld the lovely daughter of Count Julian, who had been intrusted to his care, while she was bathing in the river, and then and there became possessed with the fatal passion which led to the invasion of the Moors and the destruction of the Gothic empire.

That blackened heap of stones just beyond the Bridge of Alcantara, known as "Galiana's Palace," is another monument of bygone centuries, around which cluster traditions which show that human nature has been much the same in all the ages. Princess Galiana was the beautiful daughter of King Golafre, who loved her beyond anything else in the world, and built her a palace compared with which the glories of the Arabian Nights paled into insignificance. Hither endless lovers came a-wooing and annoyed the Princess dreadfully—so the story goes. The most unwelcome of all the enamored ones was Bradamant, a gigantic Moorish chieftain, of hideous visage but incalculable wealth, who had an underground passage tunneled at great expense, all the way to Toledo from his stronghold at Guadalajara, beyond the mountains, so that he might visit the Princess every day. At length Charlemagne the Great came to assist King Golafre against Abderrhaman, the Sultan of Cordova, and, being lodged in this palace he straightway fell in love with the beautiful Galiana. It happened just in time to furnish a climax to the story. Bradamant, grown bolder and more importunate as his suit failed to progress, stole secretly through the tunnel one night, intending to convey the Princess by force to his stronghold. He met Charlemagne instead, who had somehow got wind of his intentions. A duel in the dark ensued, in which the gigantic Moor was slain. Charlemagne cut off his head and presented it to the Princess, who was so charmed with the gift that she at once accepted the hand of the giver, accompanied him to France and was triumphantly crowned his Queen.

The Spaniards of today incline to the belief that Galiana was either a myth or an infidel enchantress, whose wiles neither Christian nor Moslem could resist. After her departure, it is said, the celebrated King Al-Mamun took possession of this palace and retired to it in his intervals of leisure, to study the heavens and prosecute scientific researches, in company with the wise men of his court. To later Arabs it was known as "The Mansion of the Hours," because of a wonderful clepsudra, or water clock, constructed in its garden by the astrologer, As-Zarkal. This consisted of two tanks, placed at right angles to each other, and so contrived by a complicated system of subterranean pipes and cisterns, that they accurately measured time, according to the phases of the moon.

After Alfonso VI had appropriated the palace, an inquisitive Jew, wishing to discover the secret of the clepsudra's mechanism, obtained permission to examine its interior arrangement. He took the machinery apart, but was unable to put it together again; and thus in a few hours destroyed one of the greatest curiosities that human ingenuity had ever invented. The Persian wheel that raised the water and was propelled by a sluice, stood between the Tagus and the main entrance to the palace; and less than fifty years ago its original piers were still in use for irrigating purposes. Fragments of masonry and half buried walls cropping up in all directions, indicate that Galiana's palace must have been of far greater extent than the portion now standing would lead one to suppose. The gossiping Moorish chroniclers never weary of relating its wonders. They tell us that in King Golafre's day there was a lake in the center of the grounds, and in the middle of the lake an island, and in the heart of the island a summer-house, constructed entirely of stained glass, covered with golden and jeweled inscriptions. Fountains were set all around it, so arranged that the water could be turned on at will from inside, when their sprays played over and completely enveloped the house, cutting it off from the outer world, until the master chose to press the button which stopped the flow of water. Here, cooled by the artificial cascade, whose drops refracted the rays of the sun and displayed the softened hues of the rainbow through its transparent roof, the monarch took his siesta, reclining upon damask cushions, fanned by female slaves—the very impersonation of sensual luxury. It is sad to see that what is left of the "Mansion of the Hours" is now a stable, its elegant Moorish windows walled up, its artesonado ceiling fallen in—but their mosaics yet glow like jewels amid the filth that covers them. Soldiers have occupied it, Dutch, French, Portuguese and English, and for many years its noble reception hall served as a barracks kitchen. But though soot and grime have marred its graceful arabesques, they have not by any means destroyed their beauty.

On the very crown of this height, near the edge of the escarpment, stands the now ruined Alcasar—the Atalaya of Toiaitola, the "Amalekite Kassabah"—which, since the days of the Moors, has done double duty as palace and fortress. Enlarged by Charles V. (about the year 1546,) altered again and yet again by Philip II, Alonzo VI and Alvarado de Luna—to say nothing of innumerable additions and alleged improvements at later dates, it presents an odd conglomeration of architectural styles in which the original design is wholly lost. The once-splendid "Palace of Caesar" has had as hard a fate as most of the crowned heads that have occupied it. Burned by the Dutch at the beginning of the last century, and again by the French at the beginning of this, it has since been degraded to an almshouse, a barracks and a stable. After the War of Succession, the good Cardinal Lorenzana, who devoted his whole life and income to charitable works, repaired the Alcasar, converted it into a Casa de Caridad, and filled it with paupers whom he employed at silk-weaving. When Soultes's army invaded Toledo, they ejected the paupers, confiscated their funds of the institution and stabled their horses in the former house of kings; and when compelled to evacuate the city, they set fire to it as a parting legacy. Then it lay waste for many years, until at length the rubbish was cleared away and at enormous cost the building was converted into a military academy, designed to stand forever as the West Point of Spain, in which a thousand cadets might be always in training to officer the Spanish army. But the gods, or the ghosts of the Moorish builders, seem to have harbored special spite against the old palace, and again it was gutted by fire, leaving little but the bare walls and the four corner towers; and now Spain is too poor to rebuild it. In the rooms overlooking the Tagus the notorious widow of Philip IV was imprisoned during the minority of Charles II. As every reader of Spanish history knows, she was first the tool of the low adventurer Nithard, and afterward of an equally despicable lover, Valenzuela. Her mode of life has been graphically described by Madame d'Aulay, in a little book which cannot be recommended as family reading.

From the Alcasar you move with slow steps, for the view is too entrancing to be passed in haste. Perhaps you sit upon a stone, fallen from the walls of some mediaeval home, and feast your eyes upon the prospect. Two thousand feet below, on the banks of the yellow Tagus, stood the earliest Roman city. Even from this elevation you can plainly trace the outline of its ancient amphitheater. If the gladiators who fought in it were suddenly resurrected and wished to prepare for combat, they would not have far to go for weapons, for only a few rods away stands the arsenal where the famous Toledo blades are made. Time was when this hilltop was completely covered with palaces and convents, all of which have disappeared, or are fallen in melancholy heaps of débris. As if in mockery of departed greatness, the only building of large proportions that is now fully occupied is a lunatic asylum, whose inmates, screaming from their barred windows, might be infuriated specters of once proud Toledans, bewailing what is gone forever.

Not far from the Alcasar, a little way down the eastern slope of the hill and close to the ramparts, are two curious synagogues, one erected about the year 1050, and the other three centuries later. They belong to the golden days of the Jews in Toledo, and are of the greatest interest, as having been built during the dominition of the Moors, under whose tolerant rule the Hebrews enjoyed perfect freedom and liberty of conscience. They have, of course, lost their original names, and as rechristened, are called, respectively, El Transito and Santa Maria Blanca. Both buildings are so much like mosques in appearance that it is presumed they were built by Moorish workmen, who were acquainted with but one style of architecture. Santa Maria Blanca ("White St. Mary,") stands back in a little court, and outside its door are two small cisterns, which afforded water for purification before entering the house of God. Its interior is divided into a number of imposing naves by sweeping horseshoe arches, resembling those of the Mosque of Cordova, but it is a true Jewish sanctuary, being celled with cedars of Lebanon, and the ground on which it stands was covered with the sacred dust of Palestine. El Transito is much more magnificent. It was built and presented to his countrymen by Samuel Levi, the wealthy merchant-Jew, who became the treasurer of Pedro the Cruel and after years of faithful service to his royal master, was tortured and put to death, so that the wicked king could enjoy his possessions. The walls of El Transito, covered with appropriate Hebrew inscriptions, quotations from the scriptures and the Talmud, are decorated with munk patterns, honeycomb cornice and enfrailed nitches, like the windows of the Giralda at Seville. The superb ceiling, of Lebanon cedar, carved and painted and curiously inlaid with tortoise-shell, mother-of-pearl and ivory, is supported by coupled shafts of colored marbles. Beneath the arcade, a broad band surrounded with exquisitely-carved foliage, contains the arms of Leon and Castile, and is edged with the eighty-fourth Psalm in Hebrew characters. Opposite the Holy of Holies is the gallery for women, with its gilded lattices, behind which they were concealed from the view of male worshipers, according to the universal custom of the East. The two pulpits of the rabbis are mere slits in the walls, twenty feet from the floor, and entirely destitute of ornamentation. In 1494 Isabel gave El Transito to the Catholic order of Calatrava; then the Holy of Holies was converted into an archive, and the gallery of the Jewesses became a dwelling for the guardian of the church. The exteriors of both these old synagogues are very dilapidated, and have suffered from so many coatings of whitewash that the colors and many of the stucco designs have been quite obliterated. All around are narrow streets, to this day inhabited by none but Israelites. Their houses are so small and so densely populated that they look more like rat holes than human habitations, but are said to be cleaner than anywhere else in Spain. If that be true, may heaven save us from sight and smell of the dirtiest!

The history of the Jews in Toledo is peculiarly harrowing. After living in prosperity and perfect security during the beneficent reign of the Moors, their tribulations began when Christians took the city. First, they were taxed—thirty pieces of silver per capita, the same being the wages of Judas Iscariot, the betrayer, without whom foreordained office, according to the Bible story, it would really seem as if the plan of salvation must have fallen through. In 1327 the Jewish market in Toledo was suppressed. A few years later their synagogues were taken from them. In 1480 the followers of the meek and merciful Jesus, plotting the further oppression and robbery of the Jews, circulated a false story to the effect that the rabbis had stolen and crucified a boy named Juan Pasamonte, in order to preserve his heart as a relic, as a charm against the Inquisition. The absurd tale is commemorated in a fresco near the beautiful cathedral, called "El Nino Perdido," and like the similar story of St. Hugh of Lincoln, is a favorite theme with poets and painters. In 1492, every Jew who had not been baptized was put to the sword, and when the Inquisition was established in Toledo, 17,000 Jews became good Catholics at a single stroke. In 1492 every unbaptized Jew was compelled by Ferdinand and Isabella to leave Spain, and upward of 170,000 of them were cruelly expelled and their property confiscated. Those who had been baptized were put under the ban

The Los Angeles Times

Vol. 39, No. 10. Founded Dec. 4, 1881. Nineteenth Year.

SERVICE—Full Associated Press Night Report covering the globe; from 13,500 to 16,000 words daily.
—Daily and Sunday, 75 cents a month, or $20.00 a year; Daily without Sunday, $7.50 a year; Sunday, $2.00; Magazine Section only, $3.50; Weekly $1.50.
CIRCULATION—Daily and Sunday for 1898, 18,602; Daily net average for 1897, 13,557; Daily net average for 1898, 14,181.
Counting Room and Subscription Department, first floor, Main 959. Editorial Rooms, third floor, Main 951. City Editor and local rooms, third floor, Main 674.
—Eastern Agents, Williams & Lawrence, Mgrs., 21-23 Tribune Building, New York. Washington Bureau, 41 Post Building.
Offices: Times Building, First and Broadway.

Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

THE DOLLARD REWARD.

The Times offers a reward of $ on information which leads to the apprehension, arrest and conviction of any person caught stealing copies of The Times from the premises of subscribers.

THE TIMES-MIRROR COMPANY.

THE TIMES' TELEPHONES.

The new numbers of The Times' telephones are as follows: Business Office, Press 1, changed from Main 99; News Room, Press 2, changed from Main 6741; Editorial Rooms, Press 3, changed from Main 951; Times-Mirror Printing and Binding House, Press 4, changed from Main 420.

DOMESTIC WORDS FROM GEN. H. G. OTIS.

It is refreshing, in view of the pessimistic reports that have recently been sent out from Manila—evidently for a purpose not remotely connected with the coming political campaign—to learn from Gen. H. G. Otis, who has just returned from the islands, that the situation in hand is being so ghastly and disheartening as it has been pictured, is on the whole very encouraging and full of promise. Gen. Otis has spoken quite freely of the situation in the Philippines, and the prospects for the future. It is unnecessary to point out the fact that he is peculiarly well qualified to express intelligent and correct opinions in the premises than any other man in the United States. His position as Governor-General of the island for a year and a half necessarily gave him a clearer insight into the situation and its requirements than any person not so situated could have. His views are, therefore, entitled to more weight and credence than those of all the partisan correspondents and "scribes" who have spoken and written upon a subject concerning which they are but badly informed, at best.

Gen. Otis declares that the Filipinos are without question "the very best of any Asiatic race living on the Pacific coast and islands." Money and ship," he says, "has often enabled to learn from the Americans, and are quick to do so when given an opportunity." He refers to the demand for schools as the Americans plant as being insatiable. When the Dark-hearted Filipinos were told that the supply of Spanish-American text-books was insufficient, the market having been flooded of them by reason of the extraordinary demand, they begged for American schoolbooks, and declared that their children could learn from them, even without the Spanish text and translations. Gen. Otis says that he found to his astonishment that such was the case, and that "in the course of a very few months the Filipino children pick up a fair knowledge of English. From the old natives," he adds, "can the text-books in the effort to fix English phrases in their minds." There was a dearth of teachers, and in order to meet the extraordinary demands for instruction, soldiers who knew a little Spanish were detailed from the ranks as teachers. Gen. Otis further declares that he looks upon this educational movement as the solution of the Philippine problem, and such it undoubtedly is. He is confident that "the spread of American ideas through the Filipino schools will in the end make good citizens of the Filipinos." It is to be hoped that Gen. Otis is right in this conclusion, and the indications are that he is. Certainly, no man has had better opportunities for observation and deduction than he, and no one is more thoroughly disciplined than he in habits of observation and deduction.

It is interesting to note Gen. Otis's opinion as to the strength of the American forces necessary to complete the work which we have undertaken in the Philippines. He unhesitatingly expresses the belief that the American forces now in the islands are sufficient for present purposes. "Of course," he says, "Gen. MacArthur's present army could not furnish a guard to protect every Filipino homestead from the ladrones; to do that would require a force of no less than 200,000 troops, and even then the task would occupy many years. As a matter of fact, Spain has spent several centuries in the effort to stamp out the ladrones, and there is reason to believe that these brigands are scarcely more numerous now than they were during the Spanish occupation, when the islands were nominally at peace with Spain."

Gen. Otis expressed the opinion that conditions in the islands will gradually improve; that these rubber bands will eventually be suppressed, and that as the Filipinos become educated in American ideas they will improve in the qualifications of good citizenship. That such will be the outcome of present conditions, most intelligent observers agree. We are not in the Philippines for the purpose of oppressing the inhabitants, and when they become fully convinced of this fact they will welcome us, and cooperate with our efforts for their advancement, instead of endeavoring to escape us by force. And, in all probability, all organized resistance to the authority of the United States in the islands will speedily collapse after the triumphant reflection of President McKinley has been announced throughout the archipelago.

NORTH AFRICA, NOW.

It looks much as if the present century would wind up, as several preceding ones have, amid the lurid glare of warfare. As the troubles in South Africa and the Philippines are being brought to a close, new ones are springing up in China, and now there are strained relations, which may lead to war, in North Africa also.

On account of the greater excitement in other quarters, little has appeared in the press regarding the friction that exists on the frontier of Morocco, indicating the imminence of trouble between French and Moorish troops. England, Germany and Italy are watching developments with much interest. There is no probability that England will interfere unless the neutrality of Ceuta is threatened. Ceuta lies across the straits from Gibraltar, and the name has been rendered infamous by Spanish cruelty to thousands of unfortunate political prisoners confined in dungeons there. It is suspected that France may aim at getting possession of Ceuta and fortifying it, which England would never permit. Meantime, it is reported that the Sultan of Morocco is moving his troops against French soldiers on the frontier, and as he can marshal an army of over 60,000 men, while he would have the moral if not the physical support of the fanatical Mohammedan race all over the world, the situation is a somewhat serious one.

Fortunately, the United States is not likely to be interested in this dispute, except as to the possible safeguarding of American lives and property that may become endangered.

SANITATION IN CUBA.

Before the American occupation of Cuba, the principal cities of the island were the breeding places of yellow fever, typhus, smallpox, and other infectious diseases. Since the Americans took charge of affairs there has been a marked and radical change in this regard. In Havana and Santiago, particularly, the improvement in sanitary conditions has been so striking that the fullest or the most prejudiced among the native population cannot fail to note the advantages which American methods have brought to them.

The thorough nature of the sanitary reforms which have been instituted by the American authorities is forcibly illustrated in the official statement giving the vital statistics of Havana for the month of April, 1900. Maj. W. C. Gorgas, chief sanitary officer of Havana, in a letter to Surg.-Gen. Sternberg, citing these statistics, says that there were no deaths from yellow fever in the capital city of Cuba during the month of April. "This is the first month in which this has occurred since last May," says Maj. Gorgas, "and the only month it has occurred in the last 124 months, with the two exceptions of February and May, 1899. The general death rate, 40a, is the smallest that has occurred in any one month since the American occupation, and the smallest in any April for the last ten years, with the exception of April of 1894, when there were 467 deaths.

The deplorable sanitary condition of Havana and other cities of Cuba when the American occupation began is a matter of record and of general knowledge. Remembering the frightful conditions of the period preceding the American occupation, the change that has been wrought through the application of American methods is at once a source of surprise and gratification. The object-lesson which the Cubans have had in sanitation ought to last them for all time, and its benefits should continue long after the American occupation of the island has become a thing of the past.

The good results wrought in Havana have been duplicated in Santiago. Or, perhaps, it would be more correct to say that the excellent sanitary work in Santiago has been repeated on a larger scale, though with no more satisfactory results, in Havana; for it was in the city of Santiago that the first practical work of the American authorities, in a sanitary way, was accomplished. This work was begun immediately after the American occupation of Santiago, while Havana was still in the hands of the Spaniards. The sanitary situation in Santiago is clearly indicated in a statement made by Maj. Geo. M. Dunn, U. S. A., who has been serving as Judge Advocate in that city and province of Cuba for more than a year past. Maj. Dunn arrived in New York recently on leave. "Santiago is in an excellent sanitary condition," he said, "thanks to the efficient system of cleaning up inaugurated by Gen. Leonard Wood. There has been," he continued, "no case of yellow fever there since December 27, 1899, and that was brought in on a vessel. I believe the death rate in Santiago is lower than in any other city of the same size in the United States. It really looks as though we would get through the coming summer without yellow fever." Before the advent of the Americans, Santiago was a veritable pesthole, with an enormously high death rate. The reason was plain enough to the experienced sanitary corps of the American army. It may be summed up in the one word, filth. The people were too ignorant or too lazy to observe the ordinary requirements of health, chief among which, as the most ignorant of American citizens knows (but does not always observe) is cleanliness. Under the intelligent and wise initiative of Gen. Wood, followed up by the thorough work of his successor in the direction of affairs at Santiago, that city has become one of the most healthful cities in the world—almost, in fact, a veritable sanitarium.

The benefits of this splendid work of sanitary science will not accrue solely to the Cubans. Americans, who are responsible for its initiation and successful prosecution, will reap incalculable benefits in the way of immunity from yellow fever and other dangerous diseases, which for many years have found entrance to this country, and have come in large part from Cuba. Thus, in teaching the Cubans the benefits and the graces of that excellent thing which is next to godliness, we have benefited ourselves, to an extent which is hardly susceptible of computation. May the good work go on and on, until every Cuban city and village is a model of cleanliness, and the island becomes the Mecca of the world's health-seekers.

STRIKING STATISTICS.

A statement presented to the Board of Police Commissioners, and published in The Times of Tuesday, is of interest, not only as showing the large area of Los Angeles in comparison with other cities, but also as indicating in graphic figures the urgent need of greater police protection here. The table, which is said to have been secured from the last annual report of the National Labor Commissioner, shows the population, number of policemen and area in square miles of ten American cities in the United States, including Los Angeles. This is the table:

	Popu-lation.	No. police.	Area, sq. miles.
Los Angeles	102,000	93	43.4
Jersey City	206,000	311	14.2
Atlanta	102,000	101	37.0
Hartford	53,000	77	17.0
Albany, N. Y.	74,000	101	27.0
San Francisco	300,000	400	42.0
Lowell, Mass.	90,000	102	14.0
New Haven	87,000	107	12.3
Washington, D. C.	218,000	362	60.0
Boston	561,000	1,115	40.0

The population credited to Los Angeles is, doubtless, too small. The Federal census will probably credit us with nearly, if not quite, 120,000. It is, however, the area rather than the population that must chiefly be considered in estimating the proportion of police protection, for the entire area of a municipality is—or should be—policed, whether the population is dense or scattered. Judged by this standard, it will be seen that the number of policemen in Los Angeles is ridiculously small, as compared with those of other cities named. Of the ten cities, Los Angeles is the largest in area, with one exception—Washington, D. C.—although one of them has a population five times as great as ours, Los Angeles has but two policemen to the square mile (or one per square mile for twelve hours each day.) San Francisco has 13, Atlanta 17 1-2, Jersey City 22 1-2, and Boston 28.

It would be difficult to produce a stronger argument as to the need of an increase in the Los Angeles police force. Such increase has been frequently urged by the Chief of Police, by The Times, and by others, during the past few years, but for some reason or other the Council, while usually not averse to creating new positions, has seen fit to ignore the demand. It is now high time that steps should be taken to supply the lack. It may or may not be that the present police force is doing all it can under the circumstances, but it is evidently unfair to criticise it too severely so long as it is numerically entirely out of proportion to those of other cities. Evidently the Chief needs not only more authority, but also more men.

FOREIGN CO-OPERATION IN CHINA.

The situation in China shows no change for the better, and the indications are that the trouble will become more serious before the restoration of peace and quiet is accomplished. Thus far, the representatives of all the nations foreign to China have cooperated loyally for the protection of their mutual interests. This course, it is manifest, will have to be continued if war is to be averted.

So long as the several nations maintain a united front they can control the situation in China, and can compel reparation for any damage to property, and for the loss of life that may result from the "Boxer" riots. But if one of the allied nations should pull out and venture upon an independent course of political action, trouble would speedily ensue.

The combined action which has thus far been taken has been merely in the line of police duty—the preservation of the peace—and has been without political significance. In such action the United States government can join without in any wise stultifying itself or receding from its announced purpose of avoiding any and all entangling alliances in the political affairs of the Orient.

In common with Japan and the European nations, we have important interests in China to protect, and there are, moreover, numerous Americans in China who are entitled to the protection of their home government. It is eminently right and proper that the American government should cooperate with other nations to the extent of furnishing all possible protection to foreign interests in China. Such action need not lead to any entangling alliance, either in fact or by implication. Beyond this, it may be set down as certain, the administration has no intention of going, and will not go.

Doctors disagree. Some reports from Cuba are to the effect that the Cubans are becoming restive under American management, and desire that our forces be withdrawn from the island as soon as possible. Other reports, which are apparently entitled to equal credence, are to the effect that in the opinion of many intelligent Cubans we are "going too fast" in the work of bringing about Cuban independence and self-government, and that the people are yet far from being qualified for the duties and responsibilities of citizenship. Meanwhile, the work of education, of regeneration, and of sanitation, goes steadily on, in spite of captious critics and chronic faultfinders. And this good work will continue until a satisfactory conclusion has been reached—satisfactory and just, alike to the great majority of Cubans and to the great majority of Cubans.

Admiral Schley has written a straightforward letter which ought to set at rest the talk about nominating him on the Bryan ticket for Vice-President. He declares that he has passed the age when Presidential or any other kind of political boss can worry him. "I know nothing of the duties of any political office," he adds, "and am fully content to live the years yet left me in quiet retirement from the turmoil of any office. I am resolved irrevocably not to accept any nomination if it were tendered; and if, in my absence, I should be elected, I would not serve." This seems to settle the matter of Admiral Schley's alleged political aspirations.

Prof. Goldwin Smith has promptly risen up to protest against "the cruel war on China." The long-haired professor has evidently made some mistake in reading the dispatches. No war is being waged against China. The allied powers are simply striving to maintain peace and prevent the butchery of foreigners and the destruction of foreign property in China.

Lawlessness may prevail in this country for a time, but ultimately the law will be enforced, for public sentiment is back of the law and will insist on its execution, the maintenance of order and the punishment of crime. The St. Louis strikers are slowly learning this fact.

The bitterness and jealousies which have kept the European nations apart on the Chinese question are rapidly disappearing in the presence of a common danger. Even Japan and Russia are beginning to show a disposition to consolidate.

Here is a Baltimore paper referring again to Chicago as being located in the West. It's strange that those editors on the Atlantic side of this continent have so little knowledge of modern geography.

A horseless wagon had an encounter with a horseful wagon on South Main street yesterday morning. The former got in a solar-plexus blow and the latter was knocked out in the first round.

The Kansas City hotel men are, it is said, going to do all they can to enable visitors to the convention to enjoy Paris Exposition rates.

Our Celestial friends appear to be determined to kick all foreigners out of that "open door" about which we have heard so much.

Thieves are stealing beehives in Kern county. The Kern county bees can't be up to their business.

The Bird o' Freedom is getting ready to scream next month as he has seldom screamed before.

St. Louis is learning that a posse comitatus is a good thing to have around.

WHEN THE BAND BEGINS TO PLAY.

Oh dar's somepin' in de air
Make me crazy, I declare;—
Make de ole plantation music scatter
tingle in mer heel;—
Make me crazy right er-way
When de band begin to play—
When de band begin to yucker at de
ole Virginny Reel!

Pattin' juber on de flo',
Till de sweat begin to po'
Nigger swing he yaller Baby 'till de
brush' ob de day;
Up de middle—down de side,
Dance de Alabama Slide;—
Double-shuffle to yo' Honey when de
band begin to play.

Ebrybody in a ring,—
Grab yo' opposite an' swing—
(Stop yo' gruntin' at my Uncah or de
debbil gwine to pay!)
Dar's a possum on de fire—
Dat good smell a-risin' higher,—
Dar's yo' ahm aroun' yo' Honey,
when de band begin to play.

Slap yo' heel upon de groun';
Swing yo' pahdnah all aroun';—
Knock yo' head agin de raftah kase
yo' feelin' mighty gay.
Up de middle—down de side,
Do de Mississippi Glide,—
Double-shuffle to yo' Honey when de
band begin to play.

Keep yo' eye upon de band;
Keep yo' razah in yo' hand;
(Careful, Honey, or dat fiddle-bow
a-jab yo' in de eye!)
Dar's de smell ob roastin' yam;
Dar's de sizzle ob a ham;
Dar's a watermillion waitin' in de
kitchen by an' by!

Moon a-shinin' in de do';
Brush de dus' away an' blow;
Ketch yo' breff; foh dat ar supper
gwine be ready right away.
Grab an' swaller lef' and right,
Ain' got time to be polite!
Sail into dat possum, Honey, fo' de
band begin to play.

Dat ar watermillion fine!
Take my Baby's han' in mine;
Got to leabe you foh ole roos'er say
hit jes' a-comin' day!
Spec's dat ole flea-bitten mule
Ketch me noddin' like er fool,
Whiles I dreamin' mongs' de cotton
dat de band begin to play!

L. O. RHEESE.

POLITICAL.

(CONTINUED FROM THIRD PAGE.)

accept. Senator Allison—well, I came over on the train with him, and he is absolute in his refusal. There is no doubt of his sincerity in not wanting the place. And, as a matter of fact, we cannot spare him from his present place in the Senate. He is worth a dozen of us other fellows there."

"What are Dolliver's chances?"

"Mr. Dolliver is an avowed candidate, and he has a good following among his friends in the House, but I cannot say that as to his prospects. The truth is, that there is, as yet, no approach to a settlement of the matter."

OFFICERS AFTER TAYLOR.

REQUISITION ON GOV. MOUNT.

[A. P. DAY REPORT.]

INDIANAPOLIS (Ind.,) June 12.—Justus Goebel, Attorney T. C. Campbell and Sheriff Suter arrived here today from Frankfort, Ky., with a requisition for W. S. Taylor, Republican claimant to the governorship of Kentucky. The three men went to the capitol to see Gov. Mount, but he had left for Crawfordsville early today. On his return this evening Attorney Campbell will present an argument on the requisition.

ACCESSORY TO MURDER.

[A. P. DAY REPORT.]

FRANKFORT (Ky.,) June 12.—Sheriff Suter's requisition on Gov. Mount from Gov. Beckham asks for the extradition of W. S. Taylor on the indictment charging him with being an accessory to the murder of William Goebel.

MINOR DEMOCRATS WIN.

[A. P. DAY REPORT.]

FRANKFORT (Ky.,) June 12.—The Court of Appeals entered an order today sustaining in part the motion of Atty.-Gen. Breckinridge in the minor State contests. The court discharged the supersedeas bonds of the Republican State officials so far as they relate to possession of the State offices and buildings. The effect of this is to put the Democratic State officials into possession of the offices and buildings at once. The motion to discharge the supersedeas as to the salaries of the State officers was overruled and this part of the controversy goes over to the fall term. Judge Burnham, Republican, dissented.

WARREN OF WYOMING.

[A. P. NIGHT REPORT.]

WASHINGTON June 12.—Senator Warren of Wyoming in an interview today indorsed the candidacy of Col. Jay L. Torrey of his State for Vice-President on the Republican ticket.

DECLINES TO HONOR IT.

[A. P. NIGHT REPORT.]

INDIANAPOLIS, June 12.—Governor Mount tonight issued a statement declining to honor a requisition from Gov. Beckham for the return to Kentucky of William S. Taylor, who is under indictment for complicity in an alleged plot, which resulted in the assassination of Gov. Goebel, on the ground that does not think he will have a fair trial.

ROOSEVELT'S ULTIMATUM.

WON'T BE VICE-PRESIDENT.

[A. P. NIGHT REPORT.]

ROCHESTER (N. Y.,) June 12.—"I stand just where I did two months ago. I am not a candidate for Vice-President and I will not accept if nominated at Philadelphia next week."

These emphatic words were spoken by Gov. Roosevelt to an Associated Press reporter tonight. The Governor continued: "I see my name is being mentioned again in this connection, but I cannot imagine by whose authority or by whose responsibility. The national leaders know my position, and the New York State delegation will not present or urge my name."

The Governor added he will go to Philadelphia Saturday and make his position known to all leaders. He does not want the Vice-Presidency, but frankly confesses that he would like to be renominated for Governor.

POST'S CAMPAIGN STORY.

[A. P. NIGHT REPORT.]

WASHINGTON, June 12.—The Post tomorrow will publish an article stating that the Republican Congressional Campaign Committee has been endeavoring to collect as a campaign contribution a part of the extra month's salary voted to the employés of Congress just before adjournment. The employés were informed that any contribution would be voluntary and many of them paid no heed to the communication while others made a small contribution so that the amount collected will not exceed $1300 or $1500, instead of $10,000 or more, as has been expected.

TWO OVERDUE VESSELS.

FEARS FOR THEIR SAFETY.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, June 12.—Grave fears exist for the safety of the schooner Americana, which, with a cargo of nitrate, is out from Caleta, bound for this port, 165 days. The vessel is long overdue, fifty days being more than an average voyage from the nitrate ports to San Francisco. Ten per cent. reinsurance has been offered. The Americana is a new steel schooner, built in Scotland, and this is her first trip.

Another vessel, concerning which some apprehension exists among the English underwriters, is the British ship Fingal, now out from Calcutta for this port, 138 days. She has not been spoken since she sailed.

QUARREL AND A FIRE.

HUSBAND CHARGED WITH ARSON

[A. P. NIGHT REPORT.]

CALISTOGA, June 12.—The two-story family residence and other property belonging to Mrs. John Hiltel, Sr., located about a mile from town, were destroyed by fire last night. John Hiltel, the husband of Mrs. Hiltel, has been arrested on the charge of arson. The Hiltels had domestic trouble, and have been living apart for some time.

Some months ago, the husband deeded the wife nearly all the community property. Last evening he went to the premises, and made demands for certain property. A quarrel followed, and Mrs. Hiltel went to a neighbor's, leaving Hiltel at the house.

REPORTS ON IMMIGRATION.

JAPANESE IN BIG MAJORITY.

[A. P. NIGHT REPORT.]

PORT TOWNSEND, (Wash.,) June 12.—According to reports of immigration officers, 3441 immigrants arrived in this district during the month of May and all of them except two were Japanese, 540 were skilled laborers, the remainder being common and farm laborers. Fifteen hundred and nine of the entire lot remained in this State while 808 went to California; 308 to Oregon and the remainder to various States of the Union. These immigrants brought with them $37,500.

NEWSBOY'S HARD TRIP.

ENCOUNTERED FURIOUS GALES.

[A. P. NIGHT REPORT.]

SEATTLE (Wash.,) June 12.—After a voyage of eight days from San Francisco, during three of which she was buffeted by a furious northwest gale, the steam schooner Newsboy arrived in port this morning. She left San Francisco on June 4, with thirty-one passengers and twenty-six horses, bound for Nome, by way of Seattle. On the second day out, the storm struck her, and after trying vainly to make her way against it, was compelled to run into Port Orford, on the Oregon coast. The horses were badly shaken up by the rolling of the boat, two of them being so badly injured that they died. The remainder are badly bruised, but after a rest will be able to finish the journey to Nome.

VALUE OF MACHINERY.

PRODUCTIVITY AND PROSPERITY INCREASED BY IT.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

NEW YORK, June 2.—The brains of workmen are reinforced and made enormously more productive by the employment of machinery of great power, activity accuracy and endurance. This is seen to an extraordinary extent in the comparision of the work and productivity of the days of unaided manual labor of the last century with the production of our town time of labor-aiding machinery and of industrial organization. The real progress, surprising as it may seem, has actually taken place mainly in the last half century, and in large proportion since about 1870. Carroll D. Wright, from a large mass of data on this important subject, draws the general deductions that while the number of operations in the production of each article has usually considerably increased, and while the machine with its attendant turns out enormously larger product than the unaided workman, the time required for the production of a given amount of product has quite an extraordinarily decreased, the costs of products have proportionately decreased; the market has been enormously extended, and, unexpected, but true, the number of workmen has very greatly increased in each industry thus aided, and their wages have followed the upward trend of production. Invention has immensely augmented, rather than displaced, labor in every manufacturing industry; not even excepting agriculture, where the inventor has supplied the mower and the reaper, the seeder and threshing machine to increase the effectiveness of the manual laborer ten times over. The cost of plows has fallen from $54 to $3 and less each, and the user of the plow reduces the cost of labor per acre of ground cultivated from $3.55 to 46 cents, reinforcing his own strength by the machine in nearly every operation, from seedtime to harvest. The agriculturist can now supply butter of a better and perfectly uniform quality at a reduction of cost per 500 pounds of from $10.68 to $1.78. In fact, butter can be made in one-tenth the time and at one-sixth the cost of that of our grandfathers. Four hundred carriage axles, which would once cost for labor $66.97, now cost $3.20. Simjlarly, 1000 watch movements once cost forty times as much as at present; while the number of operations has been quadrupled and the time reduced to one-thirtieth. Five hundred yards of cloth, once costing $135, hand made, now cost $2.31; 100 pairs of boots then cost $400, and now $98, hand made, and machine made, respectively. The time required is reduced on the cloth to one-half of 1 per cent. of the former value, and in the case of boots, 10 per cent. On $2,000 nails $20 was once expended, and now but 25 cents; while the time was then 150 times as great and the cost about 100 times as large as today. It is thus evident that the use of labor-saving, or, as Mr. Wright more appropriately styles it, "labor-assisting" machinery, has permitted a vast increase in the number of people employed in manufacturing, and while increasing the number of operations in the making of each article, has reduced the time required to a fraction, often a minute fraction, of that formerly demanded, and has caused an immense reduction in the costs of products. Meanwhile, the wages paid for labor in these directions have greatly increased, and with reduction of costs, their purchasing power has been at the same time immensely enlarged.

SUNKEN VESSELS.

NEW METHOD OF RAISING THEM WITH ACETYLENE GAS.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

NEW YORK, June 2.—The ordinary method of raising sunken vessels is to make use of the buoyant force of the air contained in casks hermetically sealed. At times, however, the work is arduous and difficult. Metallic reservoirs then take the place of the casks. These reservoirs are filled with water, submerged, and afterwards pumped out and filled with air. A French inventor proposes to obviate the necessity of employing heavy and bulky liquids to sink the reservoirs, complicated pumping machinery and auxiliary apparatus, and a labyrinth of complicated pipes, by generating the necessary buoyant gas below water. The medium to be employed is acetylene gas. Large and stout rubber bags receive the gas from the generator. Before submersion they are covered with a netting from which a bar or beam is suspended. To the bar are lashed chains, which run under the bottom of the ship. The gas is generated by a new method, in which the gas outlet serves also as a means for introducing carbide of calcium, and for cleaning the interior. After the carbide has been put in, a leaden diaphragm, which covers the outlet of a water pipe is ruptured by the discharge of an electric detonator, and the water, rushing up through the now open pipe, enters the tank, and coming in contact with the carbide, generates acetylene. The detonator consists of a bronze cylinder holding a cartridge containing a small charge of powder. Into the powder runs a fine platinum wire, which when heated to incandescence by the passage of an electric current, fires the charge and drives the point of the cartridge through the diaphragm.

JAPANESE ORDERED HOME.

SEATTLE (Wash.,) June 12.—A board of inquiry, of which Deputy Collector Mitten was chairman, today ordered seventy-one of the 340 Japanese immigrants on the steamship Idzumi Maru, deported to Japan, holding them to be disqualified to land. Immigrant Inspector Charles W. Snyder, who was assisted in his work by Special Agent Wachorn of Washington, had ruled against 125 immigrants. The board sustained him in the seventy-one cases, allowing the remainder to land.

STEEL WORKS CLOSED.

MUNCIE (Ind.,) June 12.—The Midland Steel Works close down at midnight tonight for an indefinite period with the notice posted, "Orders short." One thousand men are affected. It is an adjunct of the American Sheet Steel Company.

SHANKLIN ARRESTED AGAIN.

FRESNO, June 12.—J. W. Shanklin, ex-city clerk, who has been twice acquitted of embezzlement of city funds was arrested again tonight on a similar charge preferred by City Trustee Joe Spinney. He was released on bail.

THE JUNGLE-MAN.

A FIN DE SIECLE BALLAD.

Oom Billy, on a summer's eve,
Paused to hear the Jackson boy

A little bird sat on a tree
And caught their colloquy for

"See this stone-bruise on my hee
Salaam Bill?" the Jackson

"See this skin where nought
From the trauma four years

"Recollect our awful fix
In that snow of '97

"By this chilblain on my heel,
Oom Bill, I begin to feel,—

"And my prophecies come
There's another blizzard

Oom Bill swore; the Jackson
The little bird fled, sore

(Prophesy.)

The Jackson wailed in bitter
Out in the sleet and the

"Of all sad words of tongue or
The saddest are, 'Why did
again?'"

The fuss of the oratorical
valve announces the near
the Bryan convention; and

MEXICAN BANK DIVIDEND.

CITY OF MEXICO, June 12.—The National Bank of Mexico has
a dividend of 17 per cent. on the
ness done last year. The
$14,000,000 paid up capital and
$7,000,000 reserve. The net profits of
the bank for 1899 were $3,468,000. The
directors' report says the prosperity
of the bank is founded on the healthy
demand for capital for sound enterprises, legitimately conceived and carried out. The Federal government has
a cash balance in the bank of $13,672.

GUNBOATS ORDERED OUT.

LONDON, June 14.—Five river gunboats have been ordered to go to the
West African coast to assist in the
operations of the Ashanti relief expedition.

CLUBS OF WOMEN.

POMONA WOMAN'S CLUB.

On May 28 the Pomona Woman's Club held its annual election of officers. Afterward two brief papers were presented. One by Mrs. E. F. Bartlett gave a comprehensive and delightful account of the life and work of the Venetian poet, Petrarch. Mrs. F. Cogswell followed with an account of Petrarch and Laura, which was much enjoyed by all who were fortunate enough to be present.

SAN DIEGO WOMAN'S CLUB.

Invitations to the annual outing and luncheon of the San Diego Woman's Club announce that the event is to take place June 21 at Coronado Beach, the luncheon to be served at Hotel del Coronado. Upon the plan adopted by the club a year ago, a musical and literary afternoon in the theater room of the hotel is to follow the luncheon hour. Arrangements have been made for the entertaining of 150 guests.

BOY AND GIRL WRITERS.

WHO WILL WIN THOSE SEVEN VALUABLE PRIZES?

It is not too late to decide to enter the competition for the prizes to be given for the best articles on "The Advantages to the United States of the Nicaragua Canal." Boys and girls have till Friday to send in their names to The Times, announcing that they will try for these honors.

Any boy or girl not more than 18 years of age, is eligible, if a member of a family taking The Times regularly.

Read up authorities! Quote from them! Get all the facts and points you can find! Don't think your composition must be entirely original. What is wanted is a strong statement of the case in acceptable English. It is not supposed that our young readers can have all the matter ready made in their own consciousness.

The following cash prizes will be given by the Times-Mirror Company for the most meritorious articles on "The Advantages to the United States of the Nicaragua Canal."

For the best article written by any boy or girl in Southern California under the imposed conditions.... $20
For the second $10

Thus, five prizes of $30 cash will be given for the articles next approaching these in merit, from different localities as follows:

For the best article from a boy or girl in the city of Los Angeles... $10
For the best article from a boy or girl in the county of Los Angeles, outside of the city $10
For the best article from Santa Barbara county or Ventura county $10
For the best article from Riverside county or San Bernardino county $10
For the best article from San Diego county or Orange county.... $10

The article must be completed and forwarded to The Times before July 1, and must consist of not less than 500 nor more than 750 words, signed by the author with his or her address.

FLOWERS ON OCEAN.

COMPLIMENTS FOR MRS. FORBES FROM DISTINGUISHED MEN.

A number of prominent people have written letters to Mrs. A. S. C. Forbes of No. 633 West Fifteenth street, this city, congratulating her on her idea of having children strew the ocean with flowers on Memorial day, in honor of the unknown dead of the navy. She has received notes from the White House and from Secretary Long of the Navy Department, and the following from Admiral Sampson:

"NAVY YARD, Boston,
"June 6, 1900.

"Dear Madam: I have just received your courteous note of the 28th of May. The ceremony certainly meets my hearty approval. At this time when monuments are being erected to the unknown dead, buried unrecognized from many battlefields, it seems especially fitting that some one should remember the unknown and unnamed dead of the navy, whose resting place will bear no monument and whose sacrifices must be remembered by their grateful and patriotic fellow-citizens.

"Allow me to congratulate you on the beautiful way in which you have done this. I hope the good citizens of the Pacific Slope will accept it as an established custom and repeat the exercises next year, and on all the years to come. Yours sincerely,

"W. T. SAMPSON."

AN ABLE JUMPER.

THE AUTOMOBILE RODE OVER AN EXPRESS WAGON.

Barrister's new electric automobile doesn't mind such trifling obstructions as an ordinary delivery wagon; that is, when the aristocratic mobe happens to strike the plebeian vehicle at the proper angle. When this happens the new-fangled horseless carriage rides jauntily over its humble predecessor without so much as the puncture of a pneumatic tire, and continues to penetrate the atmosphere with an air of superiority, as much as to say: "Sorry for you, old fellow, but of course, you know, you're altogether too slow."

At least that is what happened yesterday forenoon. About 10 o'clock a delivery wagon of the City Transfer Company was on Main street, near Tenth. Barrister's automobile was behind it, and was making pretty good time. Suddenly the driver of the wagon turned his vehicle half around. The automobile struck it square, between the wheels, completely overturned it, climbed on and over it, and again took up its pace on the pavement without sustaining the slightest injury.

No injury was sustained by the driver of the wagon, but the latter was badly wrecked. It was sent to a repair shop and the motorneer of the automobile paid for the damages.

COLUMBIA CONFERS DEGREES.

NEW YORK, June 12.—At the commencement exercises of Columbia University today the honorary degree of Doctor of Laws was conferred on Lord Pauncefote, British Ambassador to the United States; Thomas B. Reed, ex-Speaker of the House of Representatives; President Arthur T. Hadley of Yale; Capt. Alfred T. Mahan, U.S.N., retired, and Prof. Minton Warren, professor of Latin in Harvard University.

ALL ALONG THE LINE.

The Anti-Saloon League is about to begin a crusade at Santa Barbara.

The first Kern automobile for transportation is now expected within a few days.

An ordinance prohibiting houseboats within the city limits has been drafted at Stockton.

The Kern County Land Company is preparing to increase its water supply by development of wells.

The Alameda Board of Freeholders has nearly completed its labors, and the new charter is expected to be ready for presentation by the 26th.

The San Francisco Board of Education has reconsidered its plan of increasing the size of classes for the sake of economy, and will leave them as heretofore.

The Executive Committee of the San Joaquin Valley Commercial Association will meet in Fresno on July 14, to decide on the place and manner of holding the valley citrus fair.

A band of twenty-four pieces from the Roberts School at Ione, children and youths from 11 to 18 years of age, will probably be a feature of the Stockton street fair during one day.

The Santa Barbara Press reports the road now within four miles of Gaviota, and says it is expected that the road will reach this place by the first of July, although it will take several weeks more to put it in shape for general traffic.

The San Francisco Board of Supervisors has amended the ordinance limiting height of billboards to ten feet, making July 1, 1901, the time at which the bill goes into effect, in order to allow for unexpired contracts with advertising firms.

Coroner Franz Buskrens of Bakersfield now has at his disposal a month's pass on the automobile lines and a year's subscription to the Californian, as the result of proposing the names "One," "Two," "Three" for the automobiles in the naming contest just closed.

According to the Bakersfield Californian, the Charles Offer Waterworks Company has written the Kern Trustees from San Francisco stating that the works purpose immediately laying their mains to supply Kern, and will soon be in a condition to furnish all the water the town may need.

The Kosmos steamer Luzor, just off for Hamburg from San Francisco, carries many hundred tons of flour for Ecuador, Peru and Chile, 2200 centals of wheat for Peru and over a thousand cases of salmon for Chile. Ports in South America have begun to take regular consignments of goods from San Francisco by this line.

F. B. Porter of Oakland, formerly editor of the Oakland Echoes, has invented and patented a collarless, buttonless, japelless coat, somewhat resembling the woman's Eton jacket, which he hopes to make fashionable. The Enquirer says that Mr. Porter expects to revolutionize masculine dress in all parts, but has begun with the coat and vest. He is wearing his new style garments.

The San Francisco Board of Supervisors is considering the imposing of a license on banks according to their receipts. It is proposed to require a fee of $200 per quarter from those whose total receipts exceed in the aggregate $2,000,000; $400 per quarter from those whose receipts exceed $1,000,000, and $100 from those whose receipts exceed $500,000, and $100 from those whose receipts are less than the half million.

...Interesting, misdemeanor ...ed in the Police ...

[AT THE CITY HALL.]

...GNED THE ORDINANCE.

...king-house Measure Of...ficially Approved.

...mmissioners to Enforce the Fire-Escape Ordinance.

...Mayor Snyder affixed his official sig...nature yesterday afternoon to the or...dinance enacted by the City Council ...ester, by which it is made lawful ...ction of slaughter or packing-houses ...within certain portion of the city, described ...the ordinance, lying on both sides ...the river southward from the point ...the Southern Pacific tracks cross ...river and extending as far south ...Aliso street. With the publication ...the ordinance today it will immedi...ately take effect.

...The approval by the Mayor was not ...given without a careful investigation, as ...he was assisted by members ...Board of Health and Health Of...cer Powers. The day that the ordi...nance was adopted, several citizens ap...peared before the Board of Health and ...asked to recess from that body an offi...cial statement to the effect that the ...location of such an establishment in ...the portion of the city was conducive ...disease and was a menace to the ...health of the community. The board came ...to a ruling this very declaration, but ...decided to investigate the mat...before taking definite action.

...Yesterday afternoon the Mayor spent ...some time in consultation with Drs. ...Lindley and Davidson of the ...Board of Health and Health Officer ...Powers. The Mayor gave the members ...the board and the Health Officer a ...brief statement of what he wanted ...them to consider. The territory was ex...amined and the members of the board ...after having made a full investigation ...framed a report covering the fol...lowing points which had been sug...gested by the Mayor:

...That the establishment, properly ...conducted and equipped with the ...proper machinery and appliances for ...the performance of the work done at ...such a house, is not necessarily a mena...ce to health in any community.

...That it is being most desirable that ...the manner and manner of killing ani...mals for food be under the supervision ...of the Health Department, and that ...the Health Officer or his deputies have ...the access to such places where ani...mals are killed for that purpose, such ...supervision must be within the cor...porate limits of the city, because oth...erwise the authority of the Health De...partment over them might be called ...in question.

...That—The proposed location, de...scribed in the ordinance, having been ...examined with a view to ascertaining ...whether the conditions there are good ...for the establishment there of such ...plant, the matter of adequate sewer ...facilities and the proximity of ...residences being particularly noticed, ...the board has decided that the location ...is unobjectionable a one as can be ...found. In these views Health Officer ...Powers coincided."

MUST HAVE FIRE ESCAPES.

ORDINANCE TO BE ENFORCED.

...There is a city ordinance which pro...vides that all business or office build...ings of two or more stories in height ...shall be provided with suitable fire ...escapes. Chief of Fire Department ...Strohm notified the Board of Fire ...Commissioners yesterday that there ...are a number of buildings which have ...no fire escapes, although they are oc...cupied by scores of people. The Chief ...was directed by the board to notify the ...owners of these buildings that they ...must provide proper escapes at once. ...The Chief was directed to institute ...criminal proceedings against the own...ers of such buildings if they failed to ...obey the ordinance within a reasonable ...time.

...Chief Strohm reported that during the past week the fire department has responded to six alarms of fire, the total loss being $1150. The greatest individual loss was at the Nadeau Hotel fire, the department estimating the loss there at $600.

...The applications of E. J. Solomon and E. J. Summers for appointment as firemen and of Harry Walsh for appointment as engineer, were placed on file.

...Mrs. Delia B. Rawson sent the following letter to the board, thanking the department for the work done at the fire in the Rawson Block at Second and Main streets:

..."Permit me to express to you, and through you to Chief Strohm and the members of the fire department, my sincere appreciation of their valuable services during the fire in the Rawson Block on the afternoon of May 28, both in suppressing the flames and in their protection of the contents of the building. It is due entirely to their intelligent and brave efforts the whole block was saved from destruction. The difficulties they encountered in the performance of their duty were manifold and the result again proves the great efficiency of the Los Angeles fire department."

...A bill for $5.60 for groceries, alleged to have been purchased by Burt Stoll, driver of engine No. 11, was presented by Gridley Bros., and the board ordered that the fireman pay the bill within two months, the alternative being dismissal from the department, provided, of course, that the Chief finds upon investigation that the bill is correct.

...Chief Strohm announced that he will have his estimate of the financial needs of the department for the next fiscal year ready to present at the next regular meeting of the board. He will ask that the city purchase a most important piece of new fire-fighting apparatus, a telescopic water-tower eighty feet high, for use on fires in tall buildings, and where an extremely large volume of water is required to be concentrated at any given point. There are two standard machines of this character on the market, one of the best being that invented by George Hale, the famous Chief of the Kansas City fire department. The piece of apparatus will cost about $4000.

NOT CLOSED YET.

OFFICIAL NOTIFICATION NEEDED

...The saloon of Charles Bernard at No. 106 Court street, whose license was revoked at the meeting of the Board of Police Commissioners Tuesday, is still open. The Chief of Police was instructed to close up the place immediately, and it was his intention to do so. He was informed by the City Attorney, however, that until he had been officially notified of the action of the board he could do nothing.

...Bernard is trying it with all the power that he and certain politicians possess to prevent the orders of the board from being enforced. Before the official notification is sent to the Chief they expect to file an application for a transfer of the license; indeed, a movement for that purpose was started yesterday morning. The Chief of Police had an opportunity to deliver to the Chief of Police all of the matters which were referred to him, because there were so many of them, and Bernard and his friends are taking all the advantage of this they can. The transfer of the license is the question now before the board, the reason that no license for that saloon exists, the revocation carrying with it a forfeiture of the fee paid for the present month.

...There are several other dives to which the Board of Police Commissioners intends to turn its attention, and as a result there has been a lively scrabble among the owners of such joints to invoke the aid of Councilmen in their efforts to secure exemption from the "wrath" of the commissioners. It is probable that the Chief's report as to these dives will be made public at the next meeting of the board.

Want No Improvement Now.

...The City Council recently adopted an ordinance of intention for the improvement of Redwood street. Yesterday certain property-owners filed a protest against the improvement, their grounds being that if the work is done there would be no outlet from Redwood street. They prefer to wait until two intersecting streets are improved so as to give them an outlet.

To Improve Gladys Avenue.

...Owners of property on Gladys avenue between Eighth and Ninth streets have filed in the office of the City Clerk a petition to the City Council for the full improvement of that street, under the provisions of the bond act.

The First Protest.

...The efforts which certain property-owners have been making to secure the opening of an alley from Fifth to Sixth streets between Broadway and Hill, have been beset with more difficulties than possibly any other piece of public work which has been attempted in the city. The matter has been before the City Council time and time again, and another petition was filed to have the alley opened, it being understood that those who before opposed it had withdrawn their objections. Such is not the case, however, for certain owners of property in the block have filed a protest, as is their right, against the proposed plan for the alley. The matter will be considered by the City Council at its next meeting. It is conceded that the opening of the alley would be of benefit to the persons living in the block.

For a Building Fund.

...The Board of Education yesterday sent to the City Council an official notification of the adoption by the board of a resolution requesting the city to set aside $14,000 to be designated as the "school building fund." It is the intention to use this amount in the construction and furnishing of the High School annex. The Board of Education desires to have the money placed subject to its order, the erection of the new building being, of course, under the supervision of that board.

MUSIC.

PHILHARMONIC CONCERT.

...The first concert by the Philharmonic Orchestra, Mme. Martinez director, will be given at Simpson Auditorium this evening. The soloists include Miss Tessie Cook, harpist; Miss Laura Cotton, cornettist, and Hubert Whitehead, basso. Liszt's "O Salutaris," and the "Birth of the Opal," by Reed, will be sung by the Treble Clef Club. Some of the orchestral numbers are novelties, as far as Los Angeles is concerned.

...Miss Jessie Goodwin announces a ballad recital to be given by her pupils at the Ebell Club House, on Figueroa street, tomorrow evening.

HOSE, HOSE, HOSE.

Endless variety. Lowest prices. Guaranteed. Harnham & Dietz, No. 311 South Spring.

WATCHES cleaned, $1; mainsprings, 25c; crystals, 10c. Fuller, 239 North Spring street.

[AT THE COURTHOUSE.]

A PARTNERSHIP TANGLE.

Fraud Alleged in Big Arizona Mining Transaction.

Rosenstein Says Schwertner Broke Faith and Left Him in the Cold.

...Fritz Rosenstein says his partner, Josef Schwertner, played him false in a big mining deal some time ago, and now he has taken his troubles into the courts, praying for a disentanglement of financial intricacies and for a dissolution of partnership.

...Their intimate business relations began in February, 1899. They were both in Wilcox, Ariz., at the time, when they entered into an agreement to procure mines and mining properties, by bonding and otherwise, for the purpose of selling the same on commission. They were to operate in the Dos Cabezas mining district of Arizona, which is largely situated in Cochise county. Schwertner's part of the deal was to stay in the Territory and get control of the mines, while Rosenstein was to proceed to Los Angeles and San Francisco, and find purchasers for them. Each was to stand his own operating expenses, whereas the profits were to be shared equally.

...Schwertner rustled around and secured the "Carmen," the "Ivanhoe Springs" and other mining properties in Cochise county, and in the meantime Rosenstein had interested one P. B. McCabe, a man named Gollier, and one Col. Mead, capitalists, to purchase the same.

...Accordingly, McCabe was induced to bond from one Emmersley, who owned them, the mines, "Carmen" and Ivanhoe Springs," for $30,000, and in connection with the transaction Schwertner was to be paid a large sum of money as commission, which Rosenstein now alleges was to have been partnership assets.

...Everybody was delighted that negotiations were running so smoothly, and, although the middle men had spent a lot of time and money to make things go, they were in immediate prospect of large returns. But at this point, Rosenstein alleges, his partner broke faith with all parties to the transaction, and there was trouble to pay. Schwertner did so, Rosenstein avers, for the purpose of personal profit and to defraud his partner out of his share of the commissions.

...What Schwertner did after the alleged broken faith, says Rosenstein's complaint, was to join with one E. R. Monk, jump the Emmersley claims and file on them as the "Dewey" and the "Success." Then he is said to have found one J. S. Shirley, who, with others, formed a syndicate known as the Cabezas Consolidated Mines Company, to purchase the property of Schwertner and Monks.

...But, in running over the title, the company found McCabe's interest in the mines to be paramount, and they succeeded in getting him to turn in his interest for $10,000 and 500 shares of the capital stock of the company with a par value of $10 per share. And to quiet Schwertner's demands for commissions and remunerations, Rosenstein says, the company gave him 1250 shares of stock, worth $3250.

...This stock, avers Rosenstein, is really partnership property, and he wants his share of it. But investigation showed him that Schwertner had had the stock issued to him in his own name, and when called upon for a division, he is alleged to have refused to comply. And, moreover, Rosenstein says, Schwertner is irresponsible and may at any time so dispose of the stock in controversy as to make it impossible for Rosenstein to receive his portion.

...Therfore, Rosenstein has brought suit against Schwertner and the Dos Cabezas Consolidated Mines Company, asking for an injunction and a receiver to protect the stock and for a dissolution of partnership with a final settling of accounts. The case is now on trial in Judge York's department of the Superior Court. The defense denies the partnership.

BAD SMOKE STACK.

LODGING-HOUSE DAMAGED.

...The Los Angeles Gas and Electric Manufacturing Company was made defendant in a $1500 damage suit yesterday, begun by Jennie Jones and Edith M. Baxter, proprietresses of the lodging-house at No. 144 South Main street.

...Abutting the lodging-house in the rear and facing Los Angeles street, the defendant company conducts a foundry and machine shop. In the small court between the two buildings has been erected a large smokestack for the discharge of smoke, soot and ashes from the company's furnaces and forges. This stack stands about twenty feet high above its roof, and the top of it is on a level with two large porches on the second and third floors of the lodging-house.

...The manufacturing company uses crude petroleum as fuel, which causes the smoke and soot emitted from the smokestack to be of a greasy and sticky consistency. This stuff, it is alleged, pours into the lodging-house and permeates the every chink and crannny to the befoulment of the furniture, carpets and bedding of every room in the house. Forty-five furnished rooms are thus alleged to have been injured, the equipment of which is said to be worth $1500.

...Since the smoke has thus begun to pour in, it is averred that many roomers have moved away to plaintiffs' damage in $250, whereas the extra work and vain endeavor to keep things clean are scheduled as worth $250 more. Judgment, however, is asked only in the sum of $1500 damages.

CAN'T PULL CORKS.

DEAD NAG—PERSONAL HURTS.

...Dr. A. W. Ellington, the druggist, whose place of business is at the corner of Fourth and Spring streets, was before Judge Smith in Department Six of the Superior Court yesterday pursuing the Los Angeles and Pasadena Electric Railway Company for damages in the sum of $5000.

...Personal injuries and a dead riding nag were occasioned by an accident that occurred on his way to Pasadena to attend the Tournament of Roses on New Year's day. He was riding along Pasadena avenue beside a carriage full of friends, when suddenly the street near Avenue Twenty-nine became congested with numerous vehicles and the situation was rendered dangerous by the approach of an electric car running, it is alleged, at a rate of about thirty miles an hour. Fearing that his animal would become unmanageable if he continued to ride where he was between the double tracks, Dr. Ellington reined up to cross the track, when the car was distant about one hundred and fifty yards, but for some reason the horse had turned over a new leaf and balked for the first time since he owned him, right in the middle of the track. Frantic kicks in the ribs and energetic urging by the rider were of no avail.

...The car crashed into them. The horse was killed and the riding doctor was knocked insensible. He flew into the air and was struck by one side of the car, smashing to fragments one of the large panes of glass in the front end.

...His principal injuries were a badly sprained left arm and a lacerated face and chin, with a multitude of other damages carelessly scattered over his person and feelings, and particularly in his back. He was in bed for almost three weeks and had two doctors and a massage artist to attend him. He fears his left arm will never regain its old strength and agility; it is still stiff and will not fully rotate at the elbow joint.

..."My business makes it necessary for me to pull corks out of bottles," said the doctor yesterday, testifying, "but since the accident I can't do that anymore." And he seemed to take the situation sadly to heart, whereas the spectators enjoyed a snicker.

...Dr. Ellington is sure the accident could have been avoided had the motorman exercised due care and stopped his car when he saw the balky horse. By reason of all he suffered the plaintiff asks for a judgment for $5000 and costs of suit, alleging that his medical attendance cost him $150, and that his deceased nag was worth $150. On the witness stand, however, he admitted that he once sold the animal for $35 and bought it back for $40.

VOID DEED.

SUIT TO SET IT ASIDE.

...Matt A. Morrill, as administrator of the estate of S. McKinlay, deceased, has begun suit in the Superior Court of this county against Elisabeth McKinlay to set aside a deed to certain valuable property in this county, on the ground that the instrument is fraudulent and void as against the creditors of the estate.

...McKinlay died in October, 1898, leaving behind him an indebtedness to J. P. Morrill in the sum of $5747.79. This claim was duly presented to the administrator of deceased's estate and allowed by the Judge of the Probate Court, but when it came to making payment it was found that there were no assets in the hands of the administrator to pay either the Morrill debt or the expenses of administration.

...The allegation is now made, however, that up to the time of his death McKinlay owned forty acres of land in this county estimated to be worth at least $20,000, but that for the sake of hindering and defrauding his creditors, especially Morrill, he deeded this property to his wife in March, 1897, having given his note to Morrill in 1896. This instrument it is now sought to set aside.

COMPTON'S LATEST.

NEW MOVE FOR A NEW TRIAL.

...The courtroom in Judge Shaw's department of the Superior Court was filled yesterday with spectators who had gathered to see the sentencing of Charles Compton, recently convicted on his fourth trial of the crime of forgery.

...But the court was disappointed, for the final disposition of the matter was continued until this morning, at which time a motion for a new trial, based on a dozen technical grounds, will be argued. In support of this motion, Compton's attorneys read an affidavit made by the defendant himself, wherein it was affirmed that a fatal error in the trial committed in impaneling the jury. The jurors were selected from three panels, each drawn in a separate department of the Superior Court. Compton now claims that all the names from which he was to obtain a jury should have been shaken up in one box before the exercise of a single peremptory challenge, whereas, as a matter of fact, the court required him first to exhaust the names in the box belonging to Department Two and then to proceed to draw from a box brought in from another department.

...The point thus raised will test the validity of shifting the panels from one department to another after trials have begun, and the attorneys for the defense have great faith in the position they have taken. They believe that they are accordingly entitled to a new trial, and will cite Supreme Court authorities to sustain their contention.

Curtis Found Guilty.

...Andrew Curtis of Downey was found guilty of misdemeanor in Justice James's court late yesterday afternoon and sentence will be pronounced today. He was a stockholder in the Arroyo Ditch Water Company of Downey and the evidence showed that he had lost his stock because of delinquency in assessments. He used water from the ditch of the company without permission and was prosecuted for it, such use being made a misdemeanor by the law. The case was tried before a jury.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

...TO RECOVER PREMISES. The Garnsey Investment Company is suing N. C. Den for the recovery of the premises at No. 2216 South Main street, and for $180 alleged to be due for rent past due.

...DR. GOING TRIAL. The trial of Dr. Going, on a charge of grand larceny, was very dull yesterday. The prosecuting witness, W. H. H. Young, was on the stand most of the day.

...ERNEST TOO BAD. Notwithstanding the pleas of Mrs. Leonhardt in behalf of her young son, Ernest, charged with burglary, Judge Smith sent the youth to the Whittier Reform School yesterday to remain during minority. Young Leonhardt is hardly a dozen years old, but he is too bad to be out of custody, and too tender in years for the penitentiary. His mother was very eager that he be given another chance to reform, urging that he had just become old enough to earn a little to aid her in the support of a family of six, but investigation showed that Ernest had been in trouble so many times before that it would not be worth while to try him again, and on so serious a charge as burglary he ought to be punished. The boy was not affected in the least by the judgment of the court.

...DIMOND DISCHARGED. C. J. Dimond, a young musician, charged with passing a fictitious check for $5, was discharged by Judge Smith yesterday on motion of the District Attorney. The evidence against Dimond was deemed insufficient to convict.

...MEXICAN'S GOOD LUCK. Aciano Rojas, charged with rape, whose jury recently disagreed as between a finding of simple or criminal assault, was discharged by Judge Smith yesterday. Rojas had been accused of very indecent liberties with an insane woman named Anna Cook. The court was of the opinion that an incompetent person could not testify as against the defendant, and on his suggestion the prosecution of Rojas was dismissed.

...CONDEMNATION SUIT. The Southern Pacific Railroad Company has begun a condemnation suit against Ruth Barber and eleven other defendants to obtain a right of way over property near Chatsworth Park, as a part of the company's prospective road from Ventura, via Hueneme Plains and the San Fernando Valley, to this city.

...JUDGMENT AGAINST EX-SHERIFF. Judge Shaw yesterday gave judgment against ex-Sheriff John Burr for $1000 in favor of Gavin Witherspoon, who held an assigned claim from George W. Laing. Laing at one time conducted a general merchandise business in San Gabriel Cañon, and it was alleged that his stock was badly damaged while under an attachment served by the Sheriff. Witherspoon is also given judgment against the bondsmen on the undertaking for $800.

...INSANE MEXICAN. Francisco Arbello was adjudged insane by Judge Shaw yesterday and ordered committed to the asylum, on recommendation of Dr. Walter Lindley and Dr. E. C. Buell. Arbello imagined that 500 Mexicans were lying in wait for his life, day and night, outside his room.

...INCORPORATION. The Congress Oil and Pipe Line Company incorporated yesterday with a capital stock of $500,000, divided into $1 shares, of which amount $70 has been subscribed. Los Angeles will be the company's principal place of business. The directors are Telfair Creighton, A. W. Fisher, D. M. McDonald, G. S. Marygold, Eugene Berger, John McConnachie and George D. Pessell, all of Los Angeles.

[POLICE COURT.]

LULL IN FOOTPAD INDUSTRY.

Watson and Jilson Arraigned for Robbery.

More Trouble for Ellis Cohn—Saloonman Sentenced—Mexican Held.

...Walter Watson and Charles Jilson were arraigned before Justice Morgan yesterday on the charge of having held up and robbed Patrolman A. R. Copeland on the night of May 31. Luther G. Brown, Esq., appeared as counsel for the defendants and agreed with Deputy District Attorney Chambers to have the preliminary examination set for June 25. Bail was fixed at $2000 in each case. Jilson will endeavor to give bond for that amount, but Watson will remain in jail in consequence of refusal of bail on the murder charge now pending against him.

...Since the arrest of Watson, Jilson and Murray not a single hold-up has been reported. This tends to confirm the police in the belief that they have the right men, but vigilance for further hold-ups has not been relaxed, as the officers fear a demonstration on the part of accomplices or friends of the imprisoned men, in order to make it appear that the authors of the recent hold-ups are still at large.

...Official opinion has all along inclined to the theory that an organized gang of hoodlums, embracing perhaps half a dozen members, has perpetrated most of the hold-up outrages. The police are confident that Watson, Jilson, Murray and Dixon are the principal members of this gang, and that their conviction on one or several charges will put a stop to the hold-up business for some time to come.

...John Kernell and William O'Brien, whose trial is set for next Monday in Superior Court, on the charge of being the men who held up and robbed Rev. Peter Grant in the early part of March, have not been identified as members of the Watson-Jilson gang, although the work they are charged with is similar to that laid at the door of Watson et al. The men who robbed Rev. Mr. Grant are believed to be the same who shot Judge H. C. Gooding a few minutes afterward. But there is a strong impression in police circles that Judge Gooding, Hildner, W. J. Breckenridge and A. R. Copeland were all shot by the same set of footpads—the Watson-Jilson combination. If this surmise is correct then Kernell and O'Brien cannot be very guilty. Their accusation of the crime is principally due to their identification by Rev. Peter Grant as the man who held him up. There is sufficient resemblance between O'Brien and Watson and between Kernell and Jilson, in complexion, color of hair, size, build, etc., to make it possible for Rev. Mr. Grant to have been mistaken in his identification of O'Brien and Kernell as his deputies. Both of them claim to be able to prove alibis, and the subsequent identification of Watson and Jilson as the perpetrators of crimes of the same nature will doubtless be a strong factor in their defense. O'Brien and Kernell are both out of jail on bail. Joe Manning and Charley Bernard, whose saloon license has just been revoked, being their bondsmen.

...Upon the whole the footpad situation is more encouraging at present than it has been for some weeks, as the police are confident they have the most dangerous of the highwaymen where they can do no more mischief.

DEPUTY POUNDKEEPER'S WOES.

SCHNEIDER TRIED FOR BATTERY.

...Deputy Poundkeeper Henry Schneider was tried for battery in Justice Austin's court yesterday. The charge was preferred by a French citizen who was pasturing three cows in the river bed. Schneider attempted to impound the animals and had a set-to with the owner. The wife and little son of the Frenchman joined in the melee and between them Schneider was pretty roughly handled. He managed to get in a few pretty good licks himself, however, but was unable to make a prisoner of the Frenchman, whom he tried to place under arrest.

...Schneider considered himself the aggrieved party and took steps to have the Frenchman arrested for resisting an officer, but the Frenchman beat him to the justice shop and swore out a warrant for the arrest of Schneider on the charge of battery. The trial resulted in his acquittal, although some evidence was given for the prosecution that placed the deputy poundkeeper in a bad light. Several witnesses testified that he tried to extort $3 from the Frenchman, and finally compromised for 50 cents. Schneider admitted that the Frenchman's wife had given him $3, but declared that he had immediately returned it to her husband.

...Deputy District Attorney Chambers refused to issue a complaint against the Frenchman for resisting an officer.

TWICE IN ONE DAY.

MORE TROUBLE FOR ELLIS COHN.

...Although Ellis Cohn made a pretense of having quit the lottery-ticket business, after his recent convictions and mulcting to the tune of $1000, he is in a fair way of having two more fined to pay for dealing in the seductive billets.

...Mr. Cohn is not at all pleased with the tricks the deputy constables are playing him, and hours after Cohn's arrest was effected on Tuesday evening on the charge of selling lottery tickets to Deputy Constable De Toro, his clerk, John Collins, was caught in the same sort of a trap by Deputy Constable Mugnemi.

...Collins, it is alleged, sold a dozen lottery tickets to John Webster, a lottery ticket peddler. Mugnemi and Deputy Sheriff Smith are said to have witnessed the transaction, and Mugnemi then took the tickets from Webster and placed Collins under arrest. Cohn had to put up $50 cash bail for his clerk. Their cases have been continued by Justice Morgan till June 15 for pleading.

THUMPED THE WRONG MAN.

ORTIZ'S VICARIOUS PUNISHMENT

...Jesus Ortis was complainant in the Police Court yesterday against four of his compatriots—Jesus Moreno, Pedro Domingues, James Watson and Salvador Velande—for disturbing the peace. Ortis carried one arm in a sling and was otherwise disfigured in a manner that indicated very plainly that his peace had been very seriously disturbed. His tale of woe was to the effect that he was conversing with a friend named Romero, at the corner of New High and Marchessault streets, Tuesday night, when the four defendants came along and accosted Romero, who had previously had trouble with some of the party. Romero took to his heels and escaped, and the gang then fell upon Ortiz, knocked him down and kicked him in the ribs, all without provocation whatever, except that he was a friend of Romero. He believed he would have been killed had not a citizen come along and compelled them to desist.

...A policeman arrived after the fight was over and arrested Moreno and Domingues. A deputy constable afterward rounded up Watson and Velande.

...When arraigned in the Police Court Watson promptly pleaded guilty and was fined $5, which he paid. The rest of the defendants pleaded not guilty and set up the defense that Ortis attacked them with stones, but this was disproved. Justice Morgan found the three prisoners guilty as charged and fined them $10 each, with the usual alternative. Moreno paid his fine. Domingues and Velande went to jail.

NEIGHBORLY AMENITIES.

VONDER KUHLEN MAKES A KICK.

...Mrs. E. M. Scott and C. Vonder Kuhlen, occupying adjoining premises on San Pedro street, have had a falling out and each is now seeking redress in court. Vonder Kuhlen was first to reach the temple of justice with his plaint, which was to the effect that his neighbor, Mrs. Scott, maliciously cut down a choice vine growing on his own premises. Upon this representation a warrant for the arrest of Mrs. Scott for malicious mischief was issued. After being fetched into court the old lady recalled by swearing out a warrant for the arrest of Vonder Kuhlen on the charge of disturbing the peace. It appears that Vonder Kuhlen used some very emphatic language when his vine was cut. Mrs. Scott alleges that she merely lopped off those portions of the vine that hung over the fence and encumbered her premises. Both cases were set for trial on June 26, at which time Justice Morgan will endeavor to judge which of the neighbors is entitled to redress.

POLICE COURT NOTES.

SALOON MAN'S SENTENCE.

...John Bowman, the saloon man who was found guilty of violating the Sunday-closing ordinance by a jury in Justice Austin's court Tuesday, was given a sentence of $100 or 100 days yesterday. His attorney gave notice of appeal.

...Ben Heaton, the young man who discharged a shotgun while tussling with his mother in order to compel her to give him money to continue a spree, was merely arraigned as a plain drunk, before Justice Morgan yesterday. He pleaded guilty and was released on payment of a fine of $2.

...Gilbert Ware, colored, pleaded guilty to the charge of drunkenness, but asked for a floating sentence, so he could go home to take care of his sick child. He was accommodated with a ten-day floater.

...William London, Frank Harrison and Ella White were fined $5 each for drunkenness. Tom Conlon's jag was assessed at $3, and that of José Montojo at $2.

...Frank Kingsley and John McGinnis were found guilty of vagrancy for sleeping in a vacant house. Sentence was postponed till today.

THE ART MEDALLIONS

...Furnished by The Times to its old and new subscribers are recognized in the artistic world as being the most superb and realistic reproductions in art photography. Call and see samples. The Times Office Subscription Department.

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and Substitutes are but Experiments, and endanger the health of Children—Experience against Experiment.

What is CASTORIA

Castoria is a substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Harmless and Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

SHAVING OUTFITS. Steinen-Kirchner Co. 120 North Main. 220 South Spring.

CUTLERS & GRINDERS

CONSUMPTION CURED by the WHITMAN METHOD.

Dr. Sanden's Electric Belt

30 DAYS' TRIAL.

TRADE MARK.

After 30 years of success in the treatment of disease by electricity I am pleased to be able to offer my famous Electric Belt on 30 days' trial to any one in any part of the world who is sincere and honest. All electrodes covered. No burning, no blistering. Improved Aug. 15 last. New and scientific appliances. Cures without using drugs, all

Never sold in drug stores. Beware of imitations.

WEAKNESSES OF MEN.

I will give $1000 for any Electric Belt superior to mine. With its new scientific suspensory attachment, a pleasant current passes through the weakened parts all night. It cures, while you sleep, such disorders as result from youthful errors or later excesses. 8000 CURES IN 1899. Used by women as well, for Rheumatism, Lame Back, Nervousness, etc. We are the oldest and largest makers of Electric appliances in the world.

CAUTION.—THE NEW AND IMPROVED DR. SANDEN ELECTRIC BELT CAN BE HAD ONLY AT MY OFFICES. THOSE SOLD BY OTHERS ARE OF OLD DATE, 20 YEARS AGO. Cure yourself and pay me afterward. My little book, a guide to men, sent free, sealed.

DR. A. T. SANDEN, 119 South Spring St., Los Angeles, Cal.

Office hours 9 to 5; Sundays 10 to 1.

WANTS TO BE A PART...

Inter Ocean Again Applies to an Illinois Court.

Does not Think the Reeves Post's Claims is in Good Faith.

[A. P. NIGHT REPORT.]

...SPRINGFIELD (Ill.) June 13.—The Inter Ocean asked leave to be made a party defendant in the proceedings in mandamus brought by the Reeves Post against the Associated Press. In its petition, the Inter Ocean claims to be a stockholder in the Associated Press, holding eight shares of the stock of the corporation. The petition states that when the new board of directors was elected, after the decision of this court giving the Inter Ocean the right to demand the news service of the Associated Press, Melville E. Stone, who had been manager of the corporation for many years, resigned and went to New York, where he organized another Associated Press, and immediately sent out letters to all members of the press in Illinois, advising them to withdraw and become members of the new organization, claiming that course was necessary in order to carry out the purpose of organization.

...The petition further states that it is the belief of the Inter Ocean that the agreement to withdraw was given, and that, when brought with the consent of the Associated Press in order to immediately notify all members that the court will grant an order and command the corporation to furnish the same to any paper that will pay the price fixed. The Inter Ocean says it does not believe that circulation procured to be bought in good faith, but is simply a part of a scheme on the part of the Reeves Post to withdraw and join the New York organization, thus disrupting the Associated Press.

...The New York Evening Journal today filed a petition for mandamus in the Supreme Court to compel the Associated Press to furnish its news service to them. The petition in the case was filed by the Democratic Post several days ago, but the Post writ was made returnable in five days.

BONES OF SOLDIER DEAD.

SKELETONS ARE TO BE FINALLY INTERRED SATURDAY.

[A. P. DAY REPORT.]

...NEW YORK, June 13.—The remains of Ship Martyr of the Monument Association of the United States have completed arrangements for removing their final resting place of the skeletons of 168 soldiers who died on prison ships. The skeletons are now at the navy yard in six boxes, and these will be removed Saturday to Fort Greene Park, where they will be placed by the side of those buried there twenty-one years ago. At that time the city turned out in force, and Gen. Horace Porter, Joseph Jenkins Mayo and buried in the same terrace, and the place marked with appropriate tablet.

...The Tuscarora Restaurant, N.G.S.N., a detachment of the marines and sailors from the navy yard and a detachment of the 13th U.S. Infantry from Governor's Island will act as the escort in the procession on Saturday. The escort will, the three batteries proceed to Plymouth Church, where Secretary of the Navy, on behalf of the Navy Department, will transfer the skeletons into the Navy Department. Addresses will be delivered in the church by Prof. Charles De Garmo, of the Department of Science and Art of Education, Cornell University. He will say many thoughts on the general principles underlying the course of study which will be of value to the board committee in its consideration.

...Dr. George P. James, a member of the committee, submitted for discussion twenty-five suggestions, which were reviewed, but not finally passed upon.

...That the city is behind in school accommodations, and school work is seriously impaired in many ways on that account, was the conclusion of everyone present. Along the line of improvement it was suggested that many additional elementary schools be added.

PUERTO CORTES TO AMALPA...

ASTOR SYNDICATE TO BUILD RAILWAY IN HONDURAS.

[A. P. DAY REPORT.]

...NEW YORK, June 13.—A special to the Times from New Orleans says: An Astor syndicate has secured from the Honduras government concessions to build an Interocean railway across the republic of Honduras from Puerto Cortes on the Atlantic to Amalpa on the Pacific. This is probably the latest railway deal ever projected in Central America. It means a line 200 miles long connecting ocean with ocean.

...The Honduras Legislature has just granted the demands of the New York capitalists, and President Sierra signed the papers in time for the American to catch the steamship Stillwell, which arrived here today. James Bleakman, the managing director, left New York three months ago to engineer the negotiations. And Col. Duncan E. Cooper of Nashville, was on the boat.

...The Astor syndicate is composed of New York capitalists. Among the backers are John Jacob Astor, Cleveland H. Dodge, Thomas Fortune Ryan, Miner C. Keith, Mr. Sprague, Mr. Valentine, Mr. Jennings, Col. Cooper and others. Mr. Bleekman is hurrying back to New York to shape the details of the organization.

...Work will begin on the Interocean line at once, and by the terms of the concession it must be completed in four years. By the grant the Honduras syndicate can issue and float bonds to the amount of $30,000 in gold to every mile of road.

...With New Orleans for the point of shipping the scheme is for the Illinois Central to drain the great Mississippi Valley for the Central American trade, in conjunction with the United Fruit Company. It is said that Minor C. Keith, a leading spirit in the fruit trust, will be general manager of the Honduras Interocean Railroad.

COURSE OF STUDY.

SOME POINTS BROUGHT OUT AT COMMITTEE MEETING.

...Not from any lack of interest being owing to the small attendance, little was accomplished by the Course of Study Committee at its meeting last evening. Several letters were read from teachers and others offering suggestions whereby the condition in the various grades in the public schools could be made more effective in the advancement of scholars. Among the number was a communication from Prof. Charles De Garmo, of the Department of Science and Art of Education, Cornell University. He gave many thoughts on the general principles underlying the course of study which will be of value to the board committee in its consideration.

...Dr. George P. James, a member of the committee, submitted for discussion twenty-five suggestions, which were reviewed, but not finally passed upon.

...That the city is behind in school accommodations, and school work is seriously impaired in many ways on that account, was the conclusion of everyone present. Along the line of improvement it was suggested that many additional elementary schools be added.

WANTS TO BE A PARTY.

Inter Ocean Again Applies to an Illinois Court.

Does not Think the Denver Post's Mandamus is in Good Faith.

[A. P. NIGHT REPORT.]

SPRINGFIELD (Ill.) June 13.—In the Supreme Court today, the Chicago Inter Ocean asked leave to be made a party defendant in the proceedings in mandamus brought by the Denver Post against the Associated Press. In its petition, the Inter Ocean claims to be a stockholder in the Associated Press, holding eight shares of the stock of the corporation. The petition states that when the new board of directors was elected, after the decision of this court giving the Inter Ocean the right to demand the news service of the Associated Press, Melville E. Stone, who had been manager of that corporation for many years, resigned and went to New York, where he organized another Associated Press and immediately sent out letters to all members of the press in Illinois, advising them to withdraw and become members of the new organization, claiming that course was necessary in order to carry out the purpose of organization.

The petition further states that it is the belief of the Inter Ocean management that this mandamus proceeding was brought with the consent of the Associated Press in order to immediately notify all members that the court will grant an order and compel the corporation to furnish the service to any paper that will pay the rate fixed. The Inter Ocean says it does not believe the mandamus proceeding is brought in good faith, but is simply a part of a scheme to get members to withdraw and join the New York organization, thus disrupting the Illinois concern.

The New York Evening Journal today filed a petition for mandamus in the Supreme Court to compel the Associated Press to furnish it to news service to them. The petition is the same ab the one filed by the Denver Post, several days ago. The Post writ was made returnable in five days.

BONES OF SOLDIER DEAD.

SKELETONS ARE TO BE FINALLY INTERRED SATURDAY.

[A. P. DAY REPORT.]

NEW YORK, June 13.—The prison ship Martyr of the Monument Association of the United States has completed arrangements for removing to their final resting place of the skeletons of 240 soldiers who died on the ship. The skeletons are now at the navy yard in six boxes, and these will be removed Saturday to Fort Green Park, where they will be placed by the side of those buried the twenty-second years ago. At that time the city of Brooklyn had bodies removed from the Jenkins farm and buried in the second terrace, and the place marked with an appropriate tablet.

The Thirteenth Regiment, N.G.N.Y., a detachment of the marines and sailors from the navy yard and a detail of 100 men from Fort Hamilton will take part in the ceremonies on Saturday. The escort with the three hearses will proceed to Plymouth Church, where the Secretary of the Navy, on behalf of the Navy Department will transfer the skeletons from the Navy Department to the society. An oration will be delivered by Gen. Stewart L. Woodford, and a religious services will be conducted by Rev. Dr. Newell Dwight Hillis, Maj.-Gen. John Brooks with his staff will be present.

PUERTO CORTES TO AMALPA.

ASTOR SYNDICATE TO BUILD A RAILWAY IN HONDURAS.

[A. P. DAY REPORT.]

NEW YORK, June 13.—A special to the Times from New Orleans says the Astor syndicate has secured from the Honduras government concessions for building an isthmian railway across the republic of Honduras from Puerto Cortes on the Atlantic to Amalpa on the Pacific. This is probably the largest railway deal ever projected in Central America. It means a line 200 miles long connecting ocean with ocean.

The Honduras Legislature has just granted the demands of the New York capitalists, and President Sierra signed the papers in time for the Americans to catch the steamship Gilfillan, which arrived here today. James E. Bloeckman, the managing director, who left New York three months ago to engineer the negotiations, and Col. Duncan E. Cooper of Nashville, were on the boat.

The Astor syndicate is composed of New York capitalists. Among the backers are John Jacob Astor, Senator Chauncey M. Depew, Thomas Scott, Minor C. Keith, Mr. Sprague, Mr. Valentine, Mr. Jennings, Col. Cooper and others. Mr. Bloeckman is hurrying to New York to shape the details of the organization.

Work will begin on the interoceanic line at once, and by the terms of the concession it must be completed in four years. By the grant the Honduras syndicate can issue and float bonds to the amount of $30,000 in gold to every mile of road.

With New Orleans for the point of shipping the scheme is for the Illinois Central to drain the great Mississippi Valley for the Central American trade in conjunction with the United Fruit Company. It is said that Minor C. Keith, a leading spirit in the fruit trust, will be general manager of the Honduras Interoceanic Railroad.

COURSE OF STUDY.

SOME POINTS BROUGHT OUT AT COMMITTEE MEETING.

Not from any lack of interest, but owing to the small attendance, little was accomplished by the Course of Study Committee at its meeting last evening. Several letters were read from teachers and others offering suggestions whereby the condition in the various grades in the public schools could be made more effective in the advancement of education. Among the number was a communication from Prof. Charles De Garmo, of the Department of Science and Art of Education, Cornell University. He gave many thoughts on the general principles underlying the course of study, which will be of value to the local committee in its consideration.

Dr. George F. James, a member of the committee, submitted for discussion twenty-five suggestions, which were reviewed, but not finally passed upon.

That the city is behind in school accommodations, and school work is seriously impaired in many ways on that account, was the opinion of every one present. Along the line of improvement it was suggested that many additional elementary schools be added to the system, and that the High School system should be revolutionized. The High School should be relieved by a new one, building for the commercial high school, and a manual training school should be established, to bring more boys to a secondary education.

Another objection to the present system was found in the sudden change from the one-teacher plan of the elementary schools to the numerous teachers of the High School. R. M. F. Varied expressed himself strongly on this point, stating that in his opinion department teaching should be gradually introduced into the seventh and eighth grades, to remedy this evil, and to provide pupils with a kind of instruction more suitable to their age.

There were many other points brought out, and they will be taken up for discussion at the next meeting of the committee, when it is hoped all the members will be present.

Catarrh! Asthma!

can be permanently cured by the constant use of

DUFFY'S PURE MALT WHISKEY

as directed.

Dallas, Texas, February 2nd, 1900.
DUFFY MALT WHISKEY CO., Rochester, N. Y.
Gentlemen—I have used some four or five bottles of your Malt Whiskey, and find that it has benefited my catarrh more than anything else I have tried. Send me a case of say three dozen bottles of Malt and the Formula.
Yours respectfully, T. J. MAGUIRE.

Spring Valley, McFarland Co., Kan., Jan 16.
DUFFY MALT WHISKEY CO.
Dear Sirs—I read your Annual and I am using your Malt Whiskey for catarrh and asthma, and it helps me. Respectfully yours,
J. C. MARSH.

Give most many parts the genuine. Druggists usually sell it. If your does not, a bottle will be sent you, prepaid, for $1.00; six for $5.00. Write for interesting book.
DUFFY MALT WHISKEY CO., ROCHESTER, N. Y.

THIS IS OF IMPORTANCE TO YOU. STUDY THE DIAGRAM.

There is a method of preventing certain forms of disease; there is a method of curing certain forms of disease.

Chronic ailments, incurable diseases, such as Consumption, or Bright's Disease, are frequently the direct cause of Heart Disease. This is due to the fact that the proper food cannot be assimilated, and the blood, which should supply the nerves of the heart as well as other organs, is impoverished.

The following symptoms are a warning that your digestion is failing to feed upon your blood: Shortness of breath after eating (Fig. 1); Rushing of food upon stomach (Fig. 2); Sinking sensations (Fig. 3); Sinking sensations (Fig. 4); coldness of extremities (Fig. 5); Cough symptoms are nothing of catarrh (Fig. 6); Nervousness (Fig. 7); Sleeplessness (Fig. 8); Dizziness (Fig. 9); Headache (Fig. 10); Fainting spells (Fig. 11); Poor circulation (Fig. 12); Poor appetite (Fig. 13); Constipation (Fig. 14); Kidney complaints (Fig. 15); Rheumatism (Fig. 16); Pimples (Fig. 17); Sallow complexion (Fig. 18); Cold hands and feet (Fig. 19); Nervous prostration (Fig. 20); Dizziness (Fig. 21); Backache (Fig. 22); Pain in the side (Fig. 23); Pain in the chest (Fig. 24); Pain in the limbs (Fig. 25); Pain in the joints (Fig. 26); Pain in the back (Fig. 27); Pain in the head (Fig. 28); Pain in the eyes (Fig. 29); Pain in the ears (Fig. 30); Pain in the nose (Fig. 31); Pain in the mouth (Fig. 32); Pain in the throat (Fig. 33); Pain in the chest (Fig. 34); Pain in the abdomen (Fig. 35); Pain in the pelvis (Fig. 36); Pain in the legs (Fig. 37); Pain in the feet (Fig. 38); Pain in the toes (Fig. 39); Pain in the fingers (Fig. 40); Pain in the thumb (Fig. 41); Pain in the wrist (Fig. 42); Pain in the elbow (Fig. 43); Pain in the shoulder (Fig. 44); Pain in the neck (Fig. 45); Pain in the head (Fig. 46); Pain in the face (Fig. 47); Pain in the eyes (Fig. 48); Pain in the ears (Fig. 49); Pain in the nose (Fig. 50); Pain in the mouth (Fig. 51); Pain in the throat (Fig. 52); Pain in the chest (Fig. 53); Pain in the abdomen (Fig. 54); Pain in the pelvis (Fig. 55); Pain in the legs (Fig. 56); Pain in the feet (Fig. 57); Pain in the toes (Fig. 58); Pain in the fingers (Fig. 59); Pain in the thumb (Fig. 60); Pain in the wrist (Fig. 61); Pain in the elbow (Fig. 62); Pain in the shoulder (Fig. 63); Pain in the neck (Fig. 64); Pain in the head (Fig. 65); Pain in the face (Fig. 66); Pain in the eyes (Fig. 67); Pain in the ears (Fig. 68); Pain in the nose (Fig. 69); Pain in the mouth (Fig. 70); Pain in the throat (Fig. 71); Pain in the chest (Fig. 72); Pain in the abdomen (Fig. 73); Pain in the pelvis (Fig. 74); Pain in the legs (Fig. 75); Pain in the feet (Fig. 76); Pain in the toes (Fig. 77); Pain in the fingers (Fig. 78); Pain in the thumb (Fig. 79); Pain in the wrist (Fig. 80); Pain in the elbow (Fig. 81); Pain in the shoulder (Fig. 82); Pain in the neck (Fig. 83); Pain in the head (Fig. 84); Pain in the face (Fig. 85); Pain in the eyes (Fig. 86); Pain in the ears (Fig. 87); Pain in the nose (Fig. 88); Pain in the mouth (Fig. 89); Pain in the throat (Fig. 90); Pain in the chest (Fig. 91); Pain in the abdomen (Fig. 92); Pain in the pelvis (Fig. 93); Pain in the legs (Fig. 94); Pain in the feet (Fig. 95); Pain in the toes (Fig. 96); Pain in the fingers (Fig. 97); Pain in the thumb (Fig. 98); Pain in the wrist (Fig. 99); Pain in the elbow (Fig. 100).

If you notice any of the above symptoms by all means take MUDYAN. MUDYAN has been the means of relieving from the most dreadful forms of suffering in a few days. MUDYAN cures are permanent and lasting.

MUDYAN is for sale by druggists—50 cents a package, or five packages for $2.00. If your druggist does not keep MUDYAN send direct to the MUDYAN REMEDY CO., Arch and Market streets, San Francisco, Cal.

Doctors | of the Mudyan Remedy Co. may be consulted by letter or in person. Write your symptoms.

Send for circulars and testimonials of the GREAT MUDYAN, Free.

BUSY BICYCLE THIEF CAUGHT.

TWELVE STOLEN WHEELS RECOVERED BY OFFICERS.

Detective Hawley, assisted by Arthur N. Davis, adjuster for the California Bicycle Protective Association, made the largest round-up of stolen wheels yesterday so far recorded. Twelve bicycles, all stolen within the last six weeks, were recovered, and the thief was arrested and locked up in the City Jail. At first he denied his guilt, but when confronted with the evidence worked up against him, he confessed.

Lloyd McKenzie is the name of the young fellow who has been worrying the bicycle detectives. He is 17 years old, and lives on West Washington street, near the end of the car line, with his parents, who are respectable people. They were greatly shocked yesterday when they learned of their son's misdeeds.

Young McKenzie disposed of nearly all of the stolen wheels to F. F. Frazier, a bicycle dealer at No. 1215 West Washington street. While in the sweatbox at the detectives' headquarters he exonerated Frazier from any suspicion of crookedness in connection with the bicycles by the statement that he had allayed the dealer's suspicions with a plausible story before offering any of the wheels for sale. He told Frazier, he said, that he had made arrangements with a certain party to dispose of a number of second-hand bicycles at a very low figure, on which he was to receive commissions.

When first arrested, young McKenzie claimed that he had come by the wheels honestly. He said that he purchased two of them from W. W. Watts, a dealer on East Fifth street, and exhibited two alleged bills of sale. He was invited to confront Watts, and agreed to do so, but before reaching the place he weakened and admitted that he wrote the contents of the papers himself.

FUGITIVE FACES HIS ACCUSERS.

INDIANAPOLIS (Ind.,) June 13.—John E. Sullivan, formerly clerk of Marion county, who fled in 1893 under charge of embezzling about $30,000 of public money, returned to Indianapolis this afternoon. He come from Greencastle, Ind. He says that after eleven years of wandering, he wants to face his accusers. When Sullivan left here he went direct to Canada, where he remained several years.

BYNUM GETS A PLACE.

WASHINGTON, June 13.—The President has appointed ex-Representative W. D. Bynum of Indiana a member of the commission to codify the criminal laws of the United States, vice D. B. [illegible]

How Many Are We?

In the City of Los Angeles; in the County; in the Seven Southern California Counties; the State of California, and the United States?

The Times Inaugurates a Guessing Contest.

Everybody invited. No restrictions on account of age or sex. Make as many guesses as you please every day.

..... THE PRIZES .....

1. For the closest guess as to the number of people in the City of Los Angeles as shown by official figures of the present census, The Times will give the Chickering Piano described below, valued at $600.
2. For the closest guess as to the number of people in the United States, (the new island possessions excluded) The Times will give the Eastman Kodak and outfit as described below, valued at $45.00.
3. For the closest guess as to the number of people in the County, The Times will give Gent's or Lady's Columbia Chainless Wheel valued at $75.00.
4. For the closest guess as to the number of people in the seven Southern California counties, The Times will give diamond ring as described below, valued at $75.00.
5. For the closest guess as to the number of people in the state, The Times will give tuition at Los Angeles Military Academy as described below, valued at $100.00.

Read Carefully the Information for Guessers.

CENSUS 1890

United States	62,622,250
City of Los Angeles	50,395
County of Los Angeles	101,454
7 Southern California Counties	201,382
State of California	1,208,130

Guesses will be numbered and filed as soon as received. If two or more persons make the same guess, the prize will be awarded to the person who made his or her guess first as shown by the number. Guesses will be received up to date on which the official announcement of the city census is made.

Chickering Cabinet Grand Upright Piano, Cash Value $600.00 . . . .

The particular piano chosen was a Cabinet Grand Upright. The great players pronounce this the finest of the Chickering Pianos for home use. The "Southern California Music Co." kindly consented to allow the winner a choice of wood.

IN ORDER to have the benefit of the largest stock of pianos in the State, and to be sure of getting the best, "The Times" decided to procure this premium at the SOUTHERN CALIFORNIA MUSIC CO. Besides, the management desired a Chickering, and the manufacturers of this piano sell only through the SOUTHERN CALIFORNIA MUSIC CO. in this locality. The Chickering Piano needs no comment. It is recognized, both in the United States and abroad as the most developed and highest product of piano making. The lover of music finds in its tone a delicacy and subtleness that is found in no other make.

Eastman Cartridge Kodak.

For film and plates. Rectangular pictures 7x5 inches. Capacity 12 exposures without reloading. Size of kodak, 3¼x8½x10½. Weight 4 lbs. 4 oz. Length of focus of lens 8½ inches. Also one fine Eastman tripod, one transparent film cartridge, 12 exposures, glass plate adapter with ground glass, one double glass plate-holder.

S. G. Marshutz, 245 S. Spring St., Wholesale and Retail Photo Supplies.

COLUMBIA CHAINLESS—VALUE $75.00.

Whenever we begin to discuss the good points of the 1900 Columbia, bevel gear, chainless, time appears to be no object. Every conceivable form of test, track records and road records, the ease of caring for it, in fact, the Columbia Chainless Bicycle satisfies riders who want the best.

A fine assortment of wheels to select from. Columbia Chainless, Columbia Chain, Hartford Chain, Storner Chain, and Pennant's Chain.

HAUPT, SVADE & CO., SUNDRIES, ENAMELING AND REPAIRING A SPECIALTY.
604 SOUTH BROADWAY, LOS ANGELES, CAL.

J. G. DONAVAN & CO.
245 S. Spring Street.

A perfect first quality diamond mounted in a fine Tiffany setting, valued at $75.00, and guaranteed by J. G. Donavan & Company to be absolutely perfect in every respect. This ring was selected from the fine stock of J. G. Donavan & Company, which in itself, is a sufficient guarantee of its being the very best, as no other house in the city enjoys a better reputation among diamond-buyers than that of this company. The ring may be seen at their establishment, No. 245 S. Spring street.

The Los Angeles Military Academy

Begins its seventh year, Sept. 25th, and offers the following courses:

LOWER SCHOOL.

In—English, French, German, Spanish, Latin, Arithmetic, Elementary Geometry, Geography, Penmanship, Sloyd and Drawing, Typewriting, Music.

UPPER SCHOOL.

The Classical Course, The Scientific Course, The English Course, The Business Course—preparatory to College or University.

The Academy has a most healthful location, a large campus, excellent laboratories and library, and gives its students both military and athletic training.

Visitors take Westlake (First street) Traction cars.

SANFORD A. HOOPER, Head Master. EDWARD L. HARDY, Associate.

NOTE—A free scholarship in any of the above outlined courses for the school year 1900-1901 will be open to the winner, or to a student named by the winner.

(Before guessing read instructions.) **Guessing Coupon** (Guess on one or all.)

Carefully fill out the coupons, and mail them to The Times' Prize Department.

1. *The population of Los Angeles is* .....
2. *The population of the United States* (New island possessions not to be included.) *is* .....
3. *The population of the County is* .....
4. *The population of the seven Southern California Counties is* .....
5. *The population of the State of California is* .....

Name ..... *Address* .....

Write your name and address plainly.

OLD CROWNS

As the Gold Cap excludes all vacuum of decay to prevent the most permanently of all operations upon the teeth and the most satisfactory one when properly done, it can only be done by a skilled operator. Where the nerve is exposed, as in such cases, the pulp must be removed, and the tooth filled before the Gold Cap is adjusted. It will be readily seen that when done by inexperienced hands, or for that matter, by those who do not have the necessary appliances and materials, that more harm than good will result. Don't allow the threatening of losing your teeth to frighten you. We make this work our specialty, and guarantee that present satisfaction in every case, as our SCHIFFMAN is an expert of twenty-five years' experience.

If it will interest you I state that I have had several teeth filled by Dr. Schiffman, and that he filled and extracted the nerve and filled the root of one of my teeth and put on a porcelain crown which cannot be distinguished from a natural tooth, all of which was done without pain.

JUDSON R. DUNN,
Of Davis & Rush, Attorneys, 3 Rooms Block.

The method of extracting teeth used by Dr. Schiffman is absolutely painless.
CHARLES T. HEALEY,
Baker Block, Los Angeles.

I have had porcelain crown, gold and some filling done, and find the two teeth and roots extracted by Dr. Schiffman, and take great pleasure in recommending his method to anyone wishing dental work done without pain.
MRS. C. T. W. SCHMANN,
Mother of Palmer Schmann, carrier at Austin and Wadsworth.

I can recommend Dr. Schiffman and his method for painless dentistry. I am very much pleased with the manner in which my work was done. JOHN R. GOSS,
County Tax Collector.

OUR PRICES FOR CASH.

Extracting teeth..... 50c
Extracting with our local guarantee..... $1.00
Gas or Vitalized Air if desired..... $1.00
Cleaning Teeth..... 50c and $1.00
Cleaning Teeth (scientific)..... $1.00 and $2.00

KNIGHTS OF THE FORCEPS.

Class of Eleven Graduated From Dental College.

Last Commencement Exercises—The Session and Banquet.

The first graduation exercises of the College of Dentistry, University of Southern California, took place yesterday afternoon in Blanchard's Hall on South Broadway. A class of eleven young men received the degrees and diplomas that permit them hereafter to be known with the appellation of "Doctor," and to allay the pains caused by unnecessary molars, and in other ways help suffering humanity in connection with the teeth that are so necessary for mastication and speech. Even when the blacksmith, barber or schoolmaster was the dentist of the country village, have long since passed away. The mechanical operations of dentistry is no longer the province of the dentists. The new methods of dental surgery have studied for three years, and they are more than the processes of filling and filling teeth. The Dental College is run completely with the latest system of medicine, and all students graduated therefrom are supposed to take work in the latter profession a wide field.

Therefore, after so much hard work, Professor's commencement was somewhat a holiday for the newly-fledged graduates. Showers of flowers were showered on the front of the stage, and were plentifully dispensed by all to the graduating class upon the stage arranged in the auditorium and green; the underwood decked; and altogether it was a joyous occasion.

THE CELEBRANTS.

The exercises at Blanchard's Hall began at 2 o'clock in the afternoon. The stage was decorated with palms and potted plants. The floral gifts were placed in front of the platform. Rev. George P. Eckard, president of the University Board of Trustees, acted as presiding officer. The invocation was delivered by Dr. George Cochran, dean of the College of Liberal Arts.

Besides the members of the class, and the dignitaries above-named, the following members of the Dental College faculty had seats on the platform: Dr. Edgar Palmer, dean; Dr. Francis M. Parker, secretary; Dr. Claire W. Murphy, Dr. Bernet Allin, Dr. Henry G. Brainerd, dean of the College of Medicine; Dr. Henry S. Orme, Dr. Lewis R. Funk, and Dr. W. C. Smith.

FACULTY ADDRESS.

After the invocation and music by the orchestra, Prof. Francis M. Parker, secretary of the College of Dentistry, delivered the address to the class on behalf of the faculty. He said in part:

It gives me much pleasure to welcome this large audience to the first commencement of the College of Dentistry. So it is known that the department does not confine himself to any one line of education. He studies all branches of his head and hand are required to perform the arduous duties which he has to do.

Dentistry in its first epoch of its history was a part of general surgery and medicine. It remained for American genius to give the real impetus to our profession. About 1840 great interest was manifested in our special branch of surgery. In the last sixty years dentistry has made greater progress than medicine or general surgery. This history and glorious achievements of the College of Dentistry of the University of Southern California, was established. It has been prosperous and our future prospects are bright. Well may this beautiful city be proud of an institution such as ours.

Graduates of the class of 1900, the world is open; the world is wide; and the good name and fame of the American dentist has gone everywhere. Go forth with honorable ambition. Be true to them. Always strive to get to the highest.

ADDRESS FOR THE CLASS.

On behalf of the graduating class, Prof. Henry G. Brainerd, the first dean of the Dental College and present dean of the College of Medicine, made an address. He spoke of the foundation of the institution, its trials, and achievements. He said further:

A dentist should have a thorough training in medicine, as well as in dental technique. I hope that the preparation for dentistry will be made as rigorous as that demanded for those entering other special lines of practice.

He told Dr. Horace Wells discovered a gas that would produce anaesthesia. It was soon came into general use. In 1846 a young dentist brought forward ether as an anaesthetic. The medical profession and the whole world owe a deep debt of gratitude to the American dentist.

"The truly progressive professional man must always study. You should, in the practice of your profession, study the most modern methods and endeavor to avoid giving needless pain. Do not allow sentimentality to lead you into doing improper work. In conclusion I commend to you that you will leave an unsullied name to posterity, that your life will have been a success."

DEGREES AND DIPLOMAS.

The degrees and diplomas were bestowed by Dean Edgar Palmer. In conferring the honors he said: "Dentistry is a branch of the broad profession of medicine. In accordance with your agreement upon entering this college, you must promise upon your honor as a man to abstain from doing those things that are by common usage held to be unprofessional."

The parchment certificates were bound with ribbons of the class colors, garnet and green. Applause greeted each of the graduates as he was declared a "D.D.S."

The members of the class are as follows: Harry C. Gleason, president; James P. Metzger, secretary; Cuthbert D. V. Rayward, historian; Edwin C. Leach, W. Lehmann Lowder, W. B. P. Shelton, Dirk D. Reed, Richard A. Schumacher, Joseph R. Shield and Homer A. Crumbaker, all of Los Angeles, and J. P. Galloway of Santa Ana.

ANNUAL BANQUET.

TOASTS AND STORIES.

With feasting and merriment the Dental College graduates and members of the faculty spent the hours last evening from 9 o'clock till midnight at the Hotel Van Nuys, Broadway. An elaborate menu was served, plates being laid for thirty.

After the tempting viands had been disposed of, speechmaking was declared in order. The first toast was to "The President of the United States." All arose standing, rose and drank to the health of McKinley.

Dr. Bernet Allin made the toast to "The Dean of the Dental College," speaking of the earnest and valuable work done by Dr. Edgar Palmer since he had assumed the leadership of the college. Dr. Claire W. Murphy toasted the "Class of 1900." Dr. W. Lehman Lowder made the response on behalf of himself and his associates in the graduating class.

"The Medical End of the Faculty" was the subject proposed by Dr. W. C. Smith, and responded to by Dr. George L. Cole. Dr. C. D. V. Rayford, the historian of the graduating class, gave several interesting anecdotes and laughable happenings that had occurred during the new dentists' days in college.

Dr. Francis M. Parker, in toasting the "Lady Members of the Profession," said: "Eve was the 'mother of dentistry.' She performed the first dental operation by assisting the infant Cain in cutting his teeth." Dr. M. Evangeline Jordan responded to the toast.

The man who has lost a leg on the field of battle may find a fairly serviceable substitute in a crutch or a wooden leg, but the man whose lungs have been invaded by the deadly germs of consumption must act promptly or give up all hope.

There is no substitute for a destroyed lung, and there is no hope for lungs that are crippled, save in Dr. Pierce's Golden Medical Discovery. Although sweet to the taste it contains no syrups or sugars, which so often disagree with the dyspeptic stomach. It contains no alcohol to inebriate or create morbid craving for stimulants. It is the only known medicine that, acting through the blood, will build new and healthy lung tissues. It builds up the lungs because it builds up the whole body. It endows a man with the appetite of a football player. It puts

strength and muscle into the stomach and intestines, and causes the digestive juices to flow freely. It fills the blood with the elements that build up every organ and tissue of the body. It turns diseased lung tissue into healthy tissue by aiding nature in her own process of tearing down and rebuilding. It cures 98 per cent. of cases, even after they have reached the last stages, when "consumption" has progressed so far that the patient is thin as a shadow, weak, coughs almost incessantly, raises large quantities of purulent matter, and has frequent hemorrhages. It cures bronchial, throat and lung troubles, however obstinate and long-standing, that are not beyond the reach of medicine. It cures weak lungs, bleeding from lungs and lingering coughs. It prevents consumption by curing the weakness that leads up to it. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Below is one of the thousands who have testified to these facts.

Abram Fryer, Esq., of Scottsdale, Greene Co., Pa., writes: "My wife had a severe attack of pleurisy and lung trouble; the doctors gave her up to die. She commenced taking Dr. Pierce's Golden Medical Discovery, and by the time she had taken four bottles she was cured, and it was the case of a large amount being sold here. I like the 'Discovery' because it is the best medicine in the world for lung trouble, and I wish it now using the 'Favorite Prescription' for 'turn of life.'"

Feel cranky? Case of constipation. A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and cure a mild cathartic.

TO THE SHAREHOLDERS

OF THE

BIG PANOCHE AND OLD GLORY OIL COMPANIES.

From information received within the past twenty-four hours I am confident that a small clique of people are conspiring together for the purpose of damaging the interests of the Big Panoche and Old Glory Companies.

I am informed that the prime mover in the conspiracy is a party with whom Mr. C. C. Hamilton, treasurer of the companies, had some personal business, and not on account of any transaction with any other Company for which himself individually, consequently, the management is in the slightest degree responsible for the present discovery. This party has, I understand, tried very hard to make shareholders dissatisfied with their investment, and has gone so far as to publish a paper calling for sale.

I beg to caution all shareholders against being influenced by any individual or group of individuals who is trying to vest their personal interests as a minor of a character to put backbone to tear down the interests of scores of investors.

I have been long enough in oil to occupy my time without entering into explanations, but I shall be glad to tell "names and tales" both, to anyone interested enough to ask for them.

Every effort is being made to push the work of the companies for the interests of the shareholders, and I feel confident that in a few days the value of every dollar's shareholder will be more than satisfied with his or her investment.

S. FRANK HASKO,
President Big Panoche Oil Company.

MILES WILL CASE DECIDED.

ELDER BROTHER SECURES THE BULK OF THE BIG ESTATE.

[A. P. DAY REPORT.]

KANSAS CITY, June 13.—A Star special from Falls City, Neb., says that Judge Thompson today announced his decision in the Miles will case in favor of Joseph H. Miles, the elder brother and defendant in the suit. By this decision Joseph H. Miles is confirmed in the possession of the bulk of his father's estate of $3,000,000 and his younger brother, Samuel, receives only the $50,000 granted him under the original will.

Stephen D. Miles was a pioneer government mail contractor, and when he died in 1897, he practically cut off the son Samuel. Samuel Miles brought suit to have the will set aside, asserting that his father had written a second will in St. Louis in 1890. The second will, however, was never produced.

A special to the Chicago Record from South Bend, Ind., says while boating on the river Tuesday night Fred Sinders and Mary Claire were drowned through their boat capsizing.

Those Five Cent Wash Goods

Formerly sold at 10c, 12½c, 15c and 20c, now uniformly priced 5c. The sacrifice includes fine Lawns, Organdies, Lappet Mulls, Corded Lawns, Satin Striped Organdies, in white and tinted grounds.

We started Monday with 200 pieces---not one yard worth less than 10c, much of it worth 20c. How many pieces have we now? Don't know. Haven't had time to think of measuring. There's been a whirl of buying---pieces melting away forty and fifty yards at a time. Do you realize the immense purchasing power of some small change?

The Charles Victor Hall Oil Properties.

The Fullerton Consolidated Oil Company,
The Southern Consolidated Oil Company,
The Arroyo Grande Oil Company,
The Northern Consolidated Oil Company,
The Northern Consolidated Oil Co. No. 2.

Announcement

Owing to the extraordinary demand for the stock of the Northern Consolidated Oil Co. the shares have all been sold. Another company has been added to the group, called

The Northern Consolidated Oil Company, No. 2

Organized upon the same plan as the first, with like capitalization, and the stock is offered at the same price of

10 Cents Per Share

Northern Consolidated No. 2 has a large production already secured which it is thought will pay a dividend of 2½ per cent upon the price asked. It also has a very large amount of rich oil territory for future development, and is in every respect equal in dividend paying qualities as the first.

Orders for stock of Northern Consolidated No. 2 can now be sent in and money returned within thirty days after issue, as has been done in all the other companies. Address

Charles V. Hall,
248 Wilcox Block.
Telephone James 2071. Los Angeles, Cal.

Copper Bullion Mining Company

Will advance the price of their stock on June 19 to 25 cents per share.

We advise you to buy now.
Buy before the advance.
We offer you a safe investment—a chance to quadruple your money.
Besides the dividends that are sure to come to those who are fortunate enough to own

COPPER BULLION STOCK.

..COPPER IS KING..

THE METAL THAT IS SUPREME.

Mind you, an investment in this will work while you sleep and when you are resting.

The manager, Mr. P. H. Clark, who has just returned to the mines, writes: The situation in the last thirty days has greatly improved. The feeling in Copper Mines in that district by recent purchasers of prospects by a rich syndicate, and the great developments just made by the several adjacent mines, and especially the Copper Belle is creating great excitement. The new ore bodies that are opening up in the Copper Bullion will send the stock to par if not take it out of the market entirely.

Bear in mind $1.00 non-assessable shares for 50 cents until Tuesday, June 19th. Come in and see. The new samples of ore will surprise you.

EZRA T. STIMSON, President. L. W. BLINN, Vice-President.
WARREN GILLELEN, Treasurer. P. H. CLARK, Secy. & Mngr.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES.
Los Angeles, June 13, 1900.

[The following quotations on coins of citrus fruits in the local countries have been wired yesterday to the Times, and issues it is impossible for them to be published elsewhere early in our own journal. When no publication they are simply plucked from this paper.]

ORANGES IN THE EAST YESTERDAY

BOSTON MARKET IMPROVED.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON (Mass.,) June 13.—[Exclusive Dispatch.] There were seven cars of California oranges sold at auction today. The market showed a slight improvement. The stock was in better condition. There are about twenty cars on the track here unsold. Choice navels, regulars, $.70; fancy sweets, regulars, 2.75; choice sweets, regulars, 2.50; fancy conditions, regulars, 2.45; choice, 2.35; fancy St. Michaels, regulars, $.15; small, 2.00; fancy blonds, 2.00; choice blonds, 1.65; halves, 75c.

Citrus-fruit Shipments.

There were shipped east from Southern California on Tuesday forty-three carloads of oranges and fifteen of lemons, making a total of all citrus fruit for the season of 15,215 carloads.

FINANCIAL.

PARIS THE CENTER. The great fair in progress at Paris draws multitudes there from all parts of the world, and these visitors are drawing large sums of money from home to meet their wants. This makes Paris just now very much a financial center. It is noted that nearly all the gold leaving New York is for that point.

COMMERCIAL.

THE SUGAR SITUATION. The American Banker says this of the new sugar combines:

"The American Sugar Refining Company, which appears to have put the price of sugar down to a point from which little if any profit could be expected for the purpose of destroying competition, has changed its purpose, and prices have been restored to a profitable basis. In fact the company could afford to draw on its surplus funds to maintain its position. Coinciding with this is the announcement of the consolidation of several refineries which have been carrying on an independent business, so that the sugar business is now in control of three large independent corporations. All indications are that it is stated that hereafter the policy of these concerns will be to operate for small profits and dividends of 5, 6 and 6 per cent. instead of 12, which provokes new competition."

That policy would mean a pretty steady market on this staple for some time to come.

PRICES ON IRON. There has been some downward tendency on iron and all its more important products. There is more or less apprehension of more of this to follow. Some experts do not share this apprehension.

HOW WE GROW. A recent issue of the Manufacturers' Record contains a summary relative to the industrial development of the United States, which shows that while in 1880 the United States mined of bituminous coal 41,000,000 tons, last year it mined 196,000,000 tons. In 1870 the production of pig iron was less than 3,000,000 tons; last year it was nearly 14,000,000 tons. In 1880 the United States had less than 11,000,000 cotton spindles; now there are over 19,000,000 spindles. The railroad mileage of 1880 was 92,147; at present we have over 190,000 miles of railroads. The production of cotton advanced from 5,700,000 bales in 1880 to 11,000,000 bales in 1899-1900. In 1880 the total amount of capital invested in manufactures in the United States was 2,790,000,000; in 1890 it was 9,500,000,000, and in 1900 the census will probably show a total of at least 10,000,000,000, with an increase in wages paid to factory hands from $947,000,000 in 1880 to probably over $3,500,000,000 in 1900.

Rogers, Brown & Co., in their weekly iron-trade letter, say that there is an unmistakable improvement in the demand for pig iron both east and west. So far as can be judged, this is merely due to the fact that the hand-to-mouth policy of buying which has prevailed for the past six months has stripped consumers of yards here, and purchases must be made to fill them. Every dollar taken off the present price of pig iron will cut down production 5 to 10 per cent. Stopping of furnaces does not work quickly, but it works sure. A further drop of say $5 per ton would probably reduce 2,000,000 tons of the current rate of production. That would bring the output down to 13,000,000 or 12,000,000 tons, which is at least 2,000,000 under the current rate of consumption. Each unit of decline will operate strongly in increasing our export trade, not so much in raw materials as in finished products.

GENERAL BUSINESS TOPICS.

THE DUTY ON TEA. In calling attention to the imports of tea by the United States the Washington correspondent of the Journal of Commerce, New York, remarks that the volume of entries of tea for consumption during the last two quarters indicates that the duty of 10 cents per pound has not apparently had a serious effect in restricting consumption, and that it has yielded a considerable amount of revenue to the treasury. These figures, with the duties carried out at 10 cents per pound, show imports as follows:

IMPORTS OF TEA FOR CONSUMPTION.

Quarter ending	Pounds.	Value.	Duties.
1899—			
September 30	5,721,561	$1,320,402	$ 572,156
December 31	6,665,624	1,710,240	666,562
1900—			
March 31	15,668,167	3,122,221	1,566,617
June 30	14,702,627	2,908,781	1,470,262
September 30	12,643,917	2,497,284	1,264,392
December 31	13,420,465	2,627,529	1,342,046
1901—			
March 31	15,668,922	2,939,672	1,566,892

LOCAL PRODUCE MARKETS.

Provisions are unchanged.
Hides are dull and weak.
Wool is dull. Prices are more nominal than actual on direct fruits, of which there are light stocks, with little business doing. No new crop offering here yet.
Eggs are steadier at 15 cents for ranch and 15½ for eastern.
Butter is steady at the advance, yet merchants who handle outside brands are slow to follow the local upward movement.
Beans are very quiet, but sales when made are at outside prices.
Money comes in very slowly. Good to choice would bring 7 to 7½ cents.
Poultry is dull and prices weak.
Fish is fairly plentiful again.
There is little new in the hay situation, the market being quiet.
The movement in lemons increases, that of oranges decreases. Prices are firm.
Berries are pretty plentiful, except raspberries, which are rather scarce. Few peaches or Clyman plums are coming this week. They sell at about 75 cents for twenty-pound boxes. Apricots are only moderately plentiful. Prices are maintained. Cherries did a little better yesterday, selling at 60 to 75 cents. Currants were easier at 50 to 75 cents.
Potatoes are not very firm, none bringing over $1 per cental. Onions are lower.
There are not many changes in the vegetable truck. The market is well supplied and the tone rather easy.

Provisions.

BACON—Per lb., Rex breakfast, 12; Rex, wrapped, 12; plain wrapped, 12½; mild cured, 11; Sugar Cure, 10½; Gilbert bacon, 10½; 10½; 10½; 10½; Orange Blossom, 12½.
HAMS—Per lb., Rex brand, 12½; Gilbert hams, 12; picnic, 9½@10; Winchester, 10½@10½; 10½; short clears, 9½@9½; clear backs, 9½@10.
DRIED BEEF—Per lb., insides, 15½@16½.
PICKLED BEEF—Per bbl., Sugarbrand, $4.50.
LARD—Per lb., in tierces, Rex, pure leaf, 6½; Every compound, 7½; Sunbeam, 7½; special bottle-rendered leaf lard, 8½; Silver Leaf, 9½; White Label, 9½; Orange Blossom, 9½.

Hides, Wool and Tallow.

HIDES—Dry hairs, 11 per lb.; kip, 10; calf, 9; bulls, 7; murrain, 5½.
WOOL—Spring, 10@12.
TALLOW—Per lb., No. 1, 3½@4; No. 2, 3@3½.

Dried Fruits, Nuts, Raisins.

RAISINS—Fancy Clusters, per box, 1.25; London Layers, per box, 1.10; loose, 6 per lb.; dessert loose, 5½.
DRIED FRUITS—Apples, evaporated, choice to fancy, 7½@10; apricots, 12@15; peaches, fancy, 6½@8; choice, 6@6½; pears, fancy evaporated, 12@13; plums, pitted choice, 10@12; prunes, choice, 5; fancy, 6½; extra, 8@9; figs, California white, per lb., 3@5; California, black, per lb., 4; California, fancy layers, per lb., 20@25; imported Smyrna, 20@25.
NUTS—Walnuts, paper-shells, 9½; fancy soft-shells, 10; hardshells, 7½; almonds, softshells, 10½@11; paper-shells, 12@13½; hardshells, 10@11; pecans, 10@12; filberts, 12@15; Brazils, 12@14; peanuts, 3@5; peanuts, eastern, raw, 6@6½; roasted, 7@7½; California, 5.

Live Stock.

HOGS—Per cwt., 5.00@5.25.
CATTLE—Per cwt., 3.75@4.00 for prime steers; 3.00@3.50 for cows and heifers; calves, 4.25@5.00; oxen, 3.00@3.50; stags, 2.50@3.00.

Butter, Eggs and Cheese.

EGGS—Per doz., fresh ranch, 15; eastern, 13½.
BUTTER—Fancy brand of Trade creamery, per square, 25; southern creamery, 17½@18; other creamery, 17½@18.
CHEESE—Per lb., eastern, full cream, 10@10½; Coast, full cream, 11@11½; Anchor, 10½; Young America, 11½; 3-lb. full cream, 12½; 3-lb. Young America, 13½; 3-lb. Anchor, 12½; Edam, fancy, per doz., 1.00@1.25.

Beans.

BEANS—Per 100 lbs., small white, 2.70@3.00; Lady Washington, 2.60@2.75; pinks, 2.30@2.40; Limas, 3.75@4.00.

Flour and Feedstuffs.

FLOUR—Per bbl., local extra roller process, 4.00; northern, 3.90@4.00; eastern, Pillsbury's 6.25; other brands, 3.60@4.20; Oregon, 3.25@3.60; graham flour, 3.15 per cwt.
FEED STUFFS—Bran, per ton, 19.00; rolled barley, 19.00; cracked corn, 1.30 per cwt.

Fresh Meats.

BEEF—Per lb., 6½@8½.
VEAL—Per lb., 7@8.
MUTTON—Per lb., 7; lamb, 8½.
PORK—Per lb., 8½.

Honey and Beeswax.

HONEY—Per lb., in comb, frames, 14@16; strained, 7@8.
BEESWAX—Per lb., 25@28.

Poultry.

POULTRY—Dealers pay five weights for stock in good condition; 10@12 per lb. for poultry; ducks, 9@11; for turkeys, 12@14; geese, 8@10.

Hay and Grain.

BARLEY—Mill price, 1.60.
OATS—Jobbing price, 1.85@1.90.
CORN—1.60.
HAY—New barley, 12.00@14.00; alfalfa, 12.00@13.00; timothy, 15.00.
WHEAT—Mill price, per cental, 1.35.

Fresh Fruits and Berries.

LEMONS—Per box, choice to fancy, 1.00@1.25; green, 1.50@1.75.
ORANGES—Per box, Valencias, 1.25@3.00; navels, 1.00@1.50.
LIMES—Per 100, 1.00.
COCOANUTS—Per doz., 40@1.25.
PINEAPPLES—Per doz., 4.00@4.50.
STRAWBERRIES—Fancy, 75c; common, 50c.
BANANAS—Per bunch, 1.75@2.00.
GRAPE FRUIT—Per box, 3.00@3.25.
BLACKBERRIES—Per lb., 10c.
CHERRIES—Per 10-lb. box, 60@75.
CURRANTS—Per 10-lb. box, 60@75.
RASPBERRIES—Per box, small, 10@15; large, 15@20.
APRICOTS—Per box, 75.
LOGAN BERRIES—40.
PEACHES—Per box, 75.
PLUMS—Clyman, 75.

Potatoes, Onions, Vegetables.

NEW YORK MARKETS.

SHARES AND MONEY.

[A. P. NIGHT REPORT.]

NEW YORK, June 13.—Prices advanced early in the week under the twofold influence of a better tone on foreign stock markets and some relief by rain for the drought-stricken districts of the Northwest. The smallness of the demand from the short interest was a commentary on the listlessness of the recent bear speculation, notwithstanding the highly-alarmist reports which have circulated regarding conditions in the spring wheat belt. The movement in the wheat markets indicated that the fate of the spring wheat crop is by no means yet decided. The northwestern grain-carrying roads, in fact, failed to share in the strength of the day's market and the grangers as a group, came lately into movement. Baltimore and Ohio radiated a strengthening influence throughout on the ex-dividend operations, and in Mr. Fowler's statement of earnings and the favorable predictions made by President Cowen of the results to be expected from the heavy coal traffic. Northern and Western was helped by the same cause. New York Central, as a trunk line, showed sympathy. London was buyer here on the extent of 40,000 twenty thousand shares and established the high range of prices. After the arbitrary brokers had ceased to operate, the market became exceedingly narrow and lifeless with little of note doing. The strength of Americans in London was attributed to the raise in the Northwest. The report of $1,500,000 gold, a figure in excess of the estimates, had no effect whatever on the stock market. A feature of the day was the rally in steel stocks, due to reports of prospects of an ongoing export demand for iron. The market closed firm, and with gains well maintained. The strength in foreign stock markets was attributed to the easier money conditions in London and to the expectation that the Bank of England would reduce its official discount rate tomorrow. The local money market shows a slightly firmer undertone, but no quotable changes as a result of the gold exports. Sugar and the New York City stocks, sharing in the strength of the day's market. The bond market was dull and irregular; total sales, par value, $1,180,000. United States 4s advanced ¼ and the new 4s ¼ in the bid price.

New York Money.

NEW YORK, June 13.—Close: Money on call easy at 1½@2 per cent; last loan, 1½. Prime mercantile paper, 3½@4½; sterling exchange steady, with actual business in bankers' bills at 4.87¼@4.87½ for demand and at 4.84½@4.85 for sixty days; posted rates, 4.86@4.88½, and 4.89½; commercial bills, 4.84½. Silver certificates, 69@69½; bar silver, 69½; Mexican dollars, 47½. State bonds, firm; government bonds, stronger; railroad bonds, irregular.

London Financial Market.

NEW YORK, June 13.—The Commercial Advertiser's London financial cablegram says: "The markets here were quiet and irregular today. Investment securities being depressed by fears of dearer money and the issue by the London County Council of a five-million 3-per-cent. loan at 97½. This is the first time a fixed price has been adopted. Previously tenders have been asked. The favorable war news failed to affect general sentiment. American were more favored. London, however, awaiting the Northern Pacific dividend as a clew to the spring wheat condition. London is inclined to put its faith on the southwestern crops. If the spring crop fails, it thinks the bears are closing their contracts in New York. Baltimore and Ohio was strong in its monthly statement."

Available cash balances	$140,488,289
Gold	91,183,419

London Silver.

LONDON, June 13.—Consols, 101 7-16; silver, 27 13-16.

GENERAL EASTERN MARKETS

GRAIN AND PRODUCE.

[A. P. NIGHT REPORT.]

CHICAGO, June 13.—Wheat was irregular, but firm following a weak opening. Good rains in Minnesota and the Dakotas and Minnesota and that was sufficient for a drop in prices. July opening 69½ under yesterday at 72¾@73; July, Northwest was a factor, but after selling however North Dakota and Manitoba were still in need of moisture, and sent in a flood of unfavorable reports. Many of the counties where rain had fallen, only half a crop was claimed. The steady Northwest buying looked as if the rain was coming almost too late. The situation in Europe was also of some help to the recovery. July rallied during the forenoon to 73. Later on profit-taking set in, and July broke to 72½@73, and then was firm. July closed a shade up at 73¼@73½. Corn was firm and fairly active. July sold at a shade under yesterday. Oats were quiet, but firm. July closed unchanged. Provisions were weak. Hog receipts were large and the selling pressure was on from the start. July pork declined 30c from yesterday; July lard 12½c down, and ribs 12½c decreased.
The leading futures closed as follows:

Wheat, No. 2—	Closing.
June	73¼
July	73¼@73½
August	71½
Corn, No. 2—	
June	33½
July	33½
August	34¼@33½
Oats, No. 2—	
June	21
July	21
August	21

Cash quotations were as follows: Flour was firm; No. 2 spring wheat, 72@73½; No. 3 spring, 71@73; No. 3 corn, 34@35½; No. 2 yellow, 35½; No. 2 oats, 22; No. 2 white, 24; No. 3 white, 23½@24½; No. 2 rye, 57½@57½; fair to choice feeding barley, 37@37½; fair to choice malting, 39@43½; No. 1 flax seed, 1.30; No. 1 northwestern, 1.30; prime timothy seed, 3.25; mess pork, per bbl., 15.25@15.30; lard, per 100 lbs., 7.45@7.50; short ribs, sides (loose), 6.40@6.50; dry salted shoulders (boxed), 6½@6¾; short clear sides (boxed), 7.10@7.20; whisky, basis of high wines, 1.23; sugars, unchanged; clover, contract grade, 7.75@8.00.

Grain Movements.

Articles—	Receipts.	Shipments.
Flour, barrels	17,000	13,000
Wheat, bushels	12,000	34,000
Corn, "	451,000	212,000
Oats, "	324,000	222,000

Corn—Steady; No. 2 mixed, 36c. Oats—No. 2, 23½c; No. 2 mixed, 23½c. Rye, 52½c. Barley, 37@41c. Timothy, 1.25. Flax, 1.30.

Boston Wool Market.

BOSTON, June 13.—The American Wool and Cotton Reporter will say tomorrow: "As the time for the opening of the light-weight season draws nearer, consumers of wool are naturally more inclined to look over the market, and quite a number of them have been in during the past week, testing prices for such wools as they would likely to want. As a result, there has been more activity, the sales of the week aggregating slightly over two million pounds. Although it is thought that this is a forerunner for larger transactions in wool, it is believed that consumers will purchase very cautiously until more definite knowledge is at hand as to how the light-weight season is open. The demand has shown more preference for medium and low wools, fine wools being dragging. Prices are practically unchanged. In the Territories, the situation has been subject to very little change, the few cases of an inclination to weaken has been noticeable among the growers.

Fruit at New York.

NEW YORK, June 13.—Porter Brothers Company's sales of California fruit: Plums—Open averaged, 2.12½ single crate; Red June, 1.52@1.60; Clyman, 1.70@1.80; St. Catherine, 80; Cherry, 80. Prunes—Tragedy, 1.40@2.37 single crate. Cherries—Royal Anne, 2.00@1.35; Tartarian, 2.00@80; other varieties, 1.50@60. Cherries arrived in poor condition. Apricots—Royals, 50@60 single crate; Montgamets, 75; Moorparks, 1.00@1.10. Apricots overripe. Peaches—Alexander, 60@80; Briggs' May, 60@ 65. Earl Fruit Company's sales: Prunes—Tragedy, 1.10@2.10 single crate. Plums—Red June, 1.2@1.75. Clyman, 90@1.55. Apricots—Royal, 80@1.25 single crates. Cherries—Royal Anne, 80@1.65; Black Tartarians, 80@1.25; Bigarreau, 80@1.25; Black Oregons, 80@90; Spanish, average, 25. Twelve cars of fruit sold today.

Fruit at Chicago.

CHICAGO, June 13.—Earl Fruit Company's sales of California fruit: Apricots—Royals, 80@1.10 single crates. Plums—Clymans, 1.20@ 1.35. Prunes—Tragedy, 1.40@2.35. Cherries—Royal Anne, 60@1.80; Tartarians, 80@1.30. Porter Brother's Company's sales: Prunes—Tragedy, 1.50@2.35 single crate. Plums—Burbanks, 1.50@2.80 single crates; Red June, 1.60@1.80; Climans, 1.60; Yosaks, 1.10@1.60. Clymans, 1.65@1.85; Royal Hative, 1.60@1.75. Cherries—Royal Anne, 80@1.35; Tartarians, 80@1.50. Peaches—Hale's early, 1.15 a box; Alexanders, 90@1.30. Cherries—Royal Anne, 80@1.30; Bigarreau, 80@1.40; Centennial, 80@90; Tartarians, 35@1.00. Apricots—Montgamet, 1.30@1.35 single crates; Royal, 85@1.10. Pears—Col. Wilder, 40 cents half boxes.

California Dried Fruits.

NEW YORK, June 13.—The demand for evaporated apples was very slack, and sellers appeared to have full control of the market. Owing to the light receipts, however, prices remain at the old basis, with the tendency to go lower. California dried fruits ruled dull and nominal. State evaporated apples, common, 4@; prime, 5½@6; choice, 6½@7; fancy, 7½@8. California dried prunes, 3½@5. Apricots, Royals, 12½@13; Moorparks, 14@18. Peaches, pealed, 18@20; unpeeled, 6@8.

New York Metal Market.

NEW YORK, June 13.—The demand for tin in the local market for metals was moderate, prompted by better cables from London and the slight falling-off in the receipts. The close, however, was no better. Spelter ruled weak on unfavorable reports from abroad and closed weak at 4.80@4.85. Lake copper was dull at 16.25. Pig-iron warrants unsettled at 15. The brokers' price for lead was 4.60 and for copper 16.25.

New York Cotton Market.

NEW YORK, June 13.—While steady in tone, the first sales showed the cotton market not to be unchanged on most options. Predictions for a high Liverpool market tomorrow caused a firm market later, and the close was steady at a net advance of 5@10 points.

Liverpool Grain.

LIVERPOOL, June 13.—Wheat, spot, dull; No. 1 northern spring, 6s; No. 1 California, 6s 1d@6s 2d; futures easy; July is 10½d; September, is 10½d. Corn, spot, steady; American mixed, new, 3s 10½d. Futures quiet, July, is 10½d; September, is 10½d.

New York Dairy Market.

NEW YORK, June 13.—Butter—Receipts, 11,-547 packages; steady; factory, 14@19c. Eggs—Receipts, 11,58 packages; steady; western, loss off, 13½@14c.

St. Louis Wool Market.

ST. LOUIS, June 13.—Wool tending lower; western and territorial mediums, 17@19½; fine, 14@17; coarse, 12@15.

Copper and Lead.

NEW YORK, June 13.—Copper, dull and unchanged. Lead weak; brokers', 4.60; exchange, 4.70.

Tacoma Wheat Market.

TACOMA, June 13.—Wheat, steady and unchanged; blue stem, 69; club, 67.

Portland Wheat Market.

PORTLAND, June 13.—Wheat steady; Walla Walla, 64@65; Valley, 64.

Oil Transactions.

OIL CITY, June 13.—Credit balances, 1.25; certificates, no bid.

Hops and Hides.

NEW YORK, June 13.—Hops, quiet. Hides, steady.

Cotton Uplands.

LIVERPOOL, June 13.—Cotton, uplands, 4 15-32.

Hogs—Receipts, 800; market weak and lower; light, 4.90@5.00; mixed, 4.87½@4.92½; heavy, 4.85@4.75. Sheep—Receipts, none.

Chicago Live-stock Market.

CHICAGO, June 13.—Cattle—Receipts, 12,500; opened steady to stronger; closed lower; good to prime steers, 5.15@5.60; poor to medium, 3.75@5.10; selected feeders, 4.10@4.90; mixed stockers, 3.00@4.00; selected stockers, 4.00@4.60; cows, 2.00@4.25; heifers, 2.25@4.75; canners, 1.40@2.60; bulls, 2.25@4.10; calves, 3.50@7.50; Texas-fed steers, 4.00@4.75; Texas bulls, 3.00@3.90. Hogs—Receipts today, 34,000; tomorrow, 30,000; estimated, left over, 800; market, 5@10 cents lower, closing weak; mixed and butchers', 4.90@5.12½; good to choice heavy, 5.10@5.15; rough heavy, 4.95@5.05; light, 4.95@5.17½; bulk of sales, 5.07½@5.12½. Sheep—Receipts, 18,000; sheep and lambs, good to choice, firm; others slow; good to choice wethers, 4.75@5.25; fair to choice mixed, 4.10@4.75; western sheep, 4.90@5.20; yearlings, 5.15@5.60; native lambs, 5.50@6.75; western lambs, 6.00@6.80; spring lambs, 6.00@7.00.

SAN FRANCISCO MARKETS.

GRAIN AND PRODUCE.

[A. P. DAY REPORT.]

SAN FRANCISCO, June 13.—Wheat, quiet both on and off call. Barley market dull. Oats quiet. Old hay slightly firmer. No improvement in new hay. Trading in beans is rather quiet. Berries are steady. Apples, pears, plums and peaches in baskets were weak. Box lots sold at about the previous prices. Old potatoes dull and weaker. New potatoes and onions easy. Egg plant higher. Cucumbers and summer squash had a sharp decline. Green peppers were steady. Asparagus was a shade firmer. String beans weaker. Fancy butter firm. Cheese fairly firm. Egg market firm. Poultry fairly steady.

CLOSING QUOTATIONS.

[A. P. DAY REPORT.]

SAN FRANCISCO, June 13.—Flour—Net cash prices for family extras, 2.60@2.75 per bbl.; bakers' extras, 2.45@2.55; Oregon and Washington, 2.50@2.60 per bbl.
Wheat—Shipping wheat is quotable at 70½@71½; milling, 71½@1.02½.
Barley—Feed is quotable at 65¼@68¾ per ctl.; brewing, 77½@80 per ctl.; Chevalier, nominal.
Oats—Red, 1.60@1.70 for feed; white, 1.67½@1.75 for poor to fair; 1.75@1.82½ for good to choice; 1.87½ for fancy; black, 1.62½@1.67½; Oregon gray, 1.67½@1.75 for feed and 1.80@1.87½ for milling.
Middlings—Quotable at 17.00@20.00.
Mixed feed—15.00@16.00.
Rolled barley—Quotable at 15.00@16.00 per ton.
Oatmeal—1.60@1.80 per 100 lbs.
Oat groats—4.00 per 100 lbs.
Rolled oats—4.00@7.25 per bbl. for wood and 5.75@7.00 for packs.
Hay—

The first apricots of the season were cut today at the packing-house of the Sierra Deciduous Fruit Association on Craig avenue.

Mrs. L. I. Cowgill of San Francisco and Mrs. George Mack of Garden City, Kan., are guests of B. F. Ball and family.

Mrs. Thomas C. Hoag, accompanied by Mrs. Isaac Bailey, left yesterday for Chicago.

Miss Alice Coleman returned this morning from Boston.

Dr. Alfred C. Croftan has returned from the East.

Fourth successful year, Columbia chainless. Herrick sells them.

For perfect fitting white kid gloves call at Bon Accord.

For best catering go to McCament's.

POMONA.

INTEREST IN FORESTRY.

POMONA, June 13.—[Regular Correspondence.] At the monthly meeting of the Board of Trade the Committee on Membership reported the names of thirty new members, which brings the total up to 180. A paper prepared by T. P. Lukens of Pasadena, relating to reforesting denuded mountains and hills was read by S. Jess.

Several matters pertaining to the improvement of Pomona were discussed informally.

POMONA BREVITIES.

The Pomona Farmers' Club has decided not to hold any more sessions until the second Monday in September, when a joint meeting will be held with the Claremont Horticultural Club at the Pomona Experiment Station.

A son has been born to the wife of A. F. Bennett.

A farewell reception was tendered Rev. H. H. Rice, who has resigned as pastor of the Presbyterian Church here, in the auditorium of the Methodist Church last evening. Mr. Rice will leave soon to conduct a party to the Paris Exposition.

Lee Pitzer returned today from the vicinity of Fresno, where he has been buying deciduous fruit for the Pomona cannery. He reported an excellent apricot crop.

The Pomona College Glee Club will give its last concert for the season at the Methodist Church here on Friday evening.

SAN BERNARDINO COUNTY.

DRAMA OF A DIVORCE SUIT.

SAN BERNARDINO, June 13.—[Regular Correspondence.] The Thompson divorce case, which was decided yesterday in Judge Campbell's court in favor of the defendant, E. E. Thompson, who was given the custody of the eleven-year-old daughter, Ella, had a dramatic ending. Mrs. Sippy of Los Angeles, sister of the plaintiff, had hysterics, and Mrs. Thompson declared in dramatic style that Ella should never go to her father, except over her (Mrs. Thompson's) dead body. However, she cooled down after a while, and the evening found Mrs. Thompson and daughter domiciled at the Stewart Hotel, of which Mr. Thompson is the lessee, while the rest of the relatives put up at a rival hostelry.

The testimony introduced had to do solely with domestic trivialities, and the following extract from Judge Campbell's opinion touches a popular chord:

"There seems to be in this case, however, a puzzling factor; why matters should exist as they do in this family, is beyond my comprehension, and something, of course, with which I have nothing to do. All I can do is to say whether or not under the laws of the State of California, and the testimony as presented here, I would be justified in granting a decree of divorce in this case, and I must say that it is clearly demonstrated to my mind that I would not. The testimony has extended over a period covering a great many years; it has disclosed the family relations of these parties, which in most particulars I would say have been better than the majority of families; there have been some things, of course, that have been unpleasant; there have been some ruffles in it; but if I could grant a decree of divorce based upon such matters as I have heard here, I do not think there would be any use for a defense to be made to any divorce suit in the State of California."

Baptismal services were held last evening at the dam on Waterman avenue, five persons being baptised by Rev. W. J. Speer of the Bethel Church.

ORANGE COUNTY.

Enough Rain to Do Crops Considerable Good.

Increase in Number of School Children. Brevities.

SANTA ANA, June 13.—[Regular Correspondence.] Rain fell last night and during the early hours of the morning, which, although not really enough to qualify it as a rainstorm, nevertheless did a considerable amount of good. Throughout the extensive acreage on the San Joaquin ranch, that is sown to wheat, the rain of May 16 assured a fair crop where there would have been none at all, and the light shower last night will still further benefit that section. One report states that the wheat crop will probably average as good as half an ordinary crop. As to barley, the bulk of which was sown on the level low lands, the growth is short and light, but there is a fair proportion of the late-sown that will harvest a crop. It is still cloudy and threatening here and may possibly rain more tonight. The best farms in the Alamitos district can stand all the rain that is likely to come and nothing in other sections can be materially injured, unless it be small cuttings of alfalfa hay here and there.

SCHOOL INCREASE.

A statement has been given out today, purporting to have emanated from a member of the Board of Education, which shows the great increase in the number of school children and the actual necessity for more room in the school buildings. He states that when the new high school building is completed, which will be in time for the opening of the fall term, the room available in all buildings for school purposes will be filled to its utmost capacity. The new building will vacate a number of rooms hitherto used in the Central school for the high school, but grammar grades are so congested that the overflow will pack the rooms in the Central. It is more than likely that new school buildings will be advocated for other parts of the city in the near future. There will be thirty-eight teachers employed in the public schools here when the fall term opens. The contractors have agreed to have the high school building completed and ready for occupancy within 100 days from the date it was commenced, or by September 1. The foundations are all in place and the superstructure will commence this week. There is a large force of men at work on it, and it will be completed within the time named, barring accidents.

SANTA ANA BREVITIES.

The Board of Education met last evening, and elected the following-named teachers in the Santa Ana public schools for the ensuing year: Central Grammar, Lizzie Morrison, Ella Morrison, Ida Jones, Alice Dickey, Elsie Stewart; Central Primary, Mary Hamaker, Blanche Collings, Etta V. Neivie, Eda Schlisher, Miss Boland, Miss Mawley; First-street Grammar, J. B. Nicholls, Anna L. Martin, Winifred S. Bangs, Pearl E. Grimes, Nanine Patton; First-street Primary, Mrs. M. L. Galloway, Francis Hell, Mary Hall, Orabel Chilton; East End Primary, Clara Smith, Bertha Baker; West End Primary, Elizabeth Vincent, Miss Keller; kindergarten, Mabel Martin; High School, C. E. Taylor, J. P. Nourse, Minnie E. Moore, Sedalia Templeton. Messrs. Norrish, McKenney and Sheldon and Miss Lewis have resigned. Prof. Templeton has been retained as superintendent.

The bazaar and musicale given last evening at the residence of Mr. and Mrs. J. S. Rice in Tustin was the church society event of the season here. The Ladies' Guild of the Episcopal Church had charge of the affair. There was a choice musical programme, and fancy work was auctioned off. Miss Modjeska, who was present, offered some articles of embroidery, which brought high prices.

The ceremony of laying the cornerstone for the new Courthouse will be a feature of Santa Ana's Fourth of July celebration. The block of granite which is to be shaped into the stone, arrived from the Temecula quarries a day or two ago, and is now being dressed. The superstructure of the new building is well under way.

E. R. Curtis, who is well known in business circles here, and who has been dangerously ill of typhoid fever for more than two months, will be removed to Newport Beach this afternoon, in the hope that a change of air may stimulate him.

The City Trustees have at last granted the request of the cannery people for better fire protection at their big establishment. A larger water main will be put in on First street from Garfield street, and additional hydrants provided.

The Executive Committee of the High School Alumni Association has decided to hold its annual reunion and banquet on the evening of July 2.

W.R.C. will give an ice-cream social in G.A.R. Hall, Thursday evening. No admission charge

LONG BEACH.

"DRY" ORDINANCE ADOPTED.

LONG BEACH, June 13.—[Regular Correspondence.] The prohibition ordinance was adopted by the City Trustees Monday evening, to take effect July 11. It was passed by the votes of Trustees Stephens, Ravenscroft and Walker, the new members of the board. Trustees Hart and Sanford, the holdovers, did not vote.

The first section proceeds at length to make it a misdemeanor to sell, furnish, distribute, divide or give away any spiritous, vinous, malt or mixed liquors or intoxicating drinks, except for the purposes in the ordinance specified. It is also provided that "every person who by himself, or by association with others, establishes or keeps a place" where such liquors are "sold, divided, furnished, delivered, distributed or given away to members of such association or to others, shall be deemed guilty of a misdemeanor."

Continuing, the ordinance says: "The prohibitions of this ordinance shall not apply to the sale of liquors for bona fide medicinal purposes by a regularly licensed druggist upon the written prescription of a physician entitled to practice medicine under the laws of the State of California; provided, however, that said prescription shall be written, signed and dated by the physician within twenty-four hours of the date of sale; that the name of the person applying personally for the prescription, and the name of the person for whose personal use the prescription is made, shall be inserted therein by the physician issuing the same at the time the prescription is made or given; that the prescription shall be presented to and filed by the druggist before any sale or furnishing is made thereon; that all prescriptions shall be numbered and kept in regular succession by the druggist filing the same, on a separate file, convenient for and open and subject during all business hours to the inspection of the City Marshal and his deputies and of any person who may from time to time be designated by the Board of Trustees of said city; that only one sale shall be made on one prescription; that the prescription shall be given only when in the opinion of the physician such liquor is necessary as a medicine for the person named thereon; and any physician who gives a prescription to any well person to enable him to procure any such liquor or intoxicating drink to be used as a beverage, or who violates or assists in violating or evading any of the terms of this ordinance, shall be deemed guilty of a misdemeanor."

Every person is prohibited from having in his possession any intoxicating drinks "or vessels, decanters or other articles" with intent to use them in violation of the ordinance. Every person is prohibited from purchasing receiving or obtaining any alcoholic liquor except as provided in the ordinance.

Section 5 makes it a misdemeanor to visit or to be present at any place the keeping of which is in violation of the ordinance, and provides that "every person, firm or corporation who transports within the city of Long Beach, spirituous or vinous or malt or other mixed liquors or intoxicating drinks or vessels for containing the same, to any place the establishing or keeping of which is prohibited by this ordinance," shall be guilty of a misdemeanor. It is also prohibited to take orders for delivery of liquor in Long Beach in violation of the ordinance. Under certain conditions it is made the duty of the City Marshal to seize and destroy liquors kept in violation of the ordinance. It is made the duty of the city's peace officers "to use all legal means in detecting and convicting persons violating this ordinance, including the exercise of the right of search given by the State law." One of the concluding sections provides that if any person conducting a billiard hall or cigar or tobacco store shall be found guilty of keeping liquor in violation of the ordinance, his billiard hall or tobacco store license shall be forfeited for a period of one year.

OTHER BUSINESS.

The Bouton Water Company was granted an extension of ninety days on its contract for water service. A. J. Parker was appointed janitor of the pavilion at a compensation of $15 per month, he to have a hoptshack stand privilege. An order was issued requiring the city wharfinger to collect 2 cents each for passengers departing from the pleasure pier by boats. That was the price charged by the city last summer.

LONG BEACH BREVITIES.

An orchestra of eight pieces will play at the Pavilion daily, beginning Friday. The music will commence at 2:30 p. m. daily and also at 8 p. m. on week days. Dancing is to be permitted on Tuesday, Thursday and Saturday evenings.

The Long Beach Athletic Association at its semi-annual election Tuesday chose the following-named officers: President, A. E. Goodhue; vice-president, G. E. Miller; secretary, E. T. Blount; treasurer, T. A. Stephens; park manager, O. W. Lock.

TERMINAL ISLAND.

TRICKY WORK OF S. P.

TERMINAL Island, June 13.—[Regular Correspondence.] The Southern Pacific made another move Tuesday night which was apparently in line with a purpose to force its ferry connections on Terminal Island. The company, after having bought the clubhouse property by a tricky scheme last year, proceeded to drive piles for a ferry landing on the inner harbor side. The matter was taken into court and the company was restrained from completing the landing. The work was far enough advanced so that passengers could disembark from a ferryboat on a moored barge, but they could not walk on to the land.

Tuesday evening a gang of fifteen men appeared on the scene and commenced work on the completion of the landing. Two lighters, one of them bearing a piledriver and the other carrying piles and other material were moved to the place by the Wilmington Transportation Company's tug Falcon. The workmen began to drive a line of piles just west of those which were driven about a year ago. A man, who is understood to have been a representative of the Terminal Railway Company, visited the place and asked the foreman if he did not know there was an injunction in effect restraining the Southern Pacific from doing further work on the landing. The foreman's reply was that he was not touching the piling that had been driven as a part of the approach. The work was kept up all night. New lines of piling paralleling the old line were driven and flooring and rafting were built over them. Near the line of high tide the flooring was extended in a zig-zag direction to connect with the flooring built a year ago on piling over the water of the bay. The shore end of the landing is in a mudhole, but passengers may now walk dry shod between that end and the ferryboat.

A representative of the Terminal Railway Company said today that the location of the new piling is not on a public street. What technical point the Southern Pacific Company hopes to gain by building the landing in the new location remains to be seen.

TERMINAL BREVITIES.

There will be a formal opening and dance at the Gordon Arms on the evening of the 23d inst.

Mr. and Mrs. T. B. Armstead of Memphis, Tenn., entertained W. J. Fulmer and T. L. Woolwine of Los Angeles at luncheon at the Gordon Arms Sunday.

Col. P. T. Swaine, U.S.A., and wife, Mrs. L. H. Root of Pasadena, Mr. and Mrs. C. A. Hubert and son of Los Angeles, Mrs. Jane E. Spangler and son of Cedar Rapids, Iowa, Miss Emma Pattee and Miss Ida E. Merkley of Pasadena are staying at the Gordon Arms.

C. A. Sumner entertained Sunday in a fishing excursion which, in point of results, was a record-breaker. Mr. Sumner's guests were Col. T. F. Carvell of Los Angeles and C. S. Walton. They went out to sea in the launch Hornet, which is the flagship of the Terminal Boat Club. The trip was extended nearly to Redondo, and over one hundred fish were taken with rod and reel. A remarkable feature was the number of kinds of fish. There were yellowtail, bonita, barracuda, rock bass and mackerel.

ELSINORE.

ONLY ONE GRADUATE.

ELSINORE, June 13.—[Regular Correspondence.] The graduating exercises of the Elsinore Union High School were held Monday evening at the Bank Hall, and were largely attended. Miss Lura Peck was the only graduate. The subject of her oration was "John Quincy Adams." Miss Elsie Arden of San Diego sang, and Edward Hyatt, County Superintendent of Schools, delivered an address. Mr. Hyatt pointed out to all students the folly of hard study and insufficient exercise and irregular and insufficient food.

RIVERSIDE COUNTY.

TRAIN STRIKES A MEXICAN.

RIVERSIDE, June 13.—[Regular Correspondence.] What will probably prove a fatal accident occurred this morning shortly after 10 o'clock, on the Riverside branch of the Southern Pacific railroad. The locomotive on the motor train, due here at 10:35, struck a section hand—a young Mexican named Rodrigues—who attempted to cross the track immediately in front of the fast-moving train. The accident occurred between Colton and Highgrove. The unfortunate man was thrown a considerable distance and was picked up unconscious. His left leg was broken below the knee, his head badly cut, and he sustained numerous severe cuts and bruises about the body. He was placed in the baggage compartment of the car, and soon after his arrival here was removed to the County Hospital, where his injuries were attended to by Dr. Baird. At noon he had not recovered consciousness, and it is feared he will not recover. The locomotive was in charge of Engineer Hart, an old and trusted employé of the road. Members of the section gang who witnessed the accident, are at a loss to explain what induced Rodriques to attempt to cross the track.

RIVERSIDE BREVITIES.

Si Wright, chief of the Riverside Fire Department, last evening entertained the members of the companies of the department, several of the city trustees and a few other guests at the hall of Company No. 1. After refreshments had been served, toasts were responded to by Mayor Morse, Trustees Brown and Peters, ex-Chiefs George F. Ward and J. N. Keith, City Clerk Stibbens, J. E. Shields, S. Sanker, Archie Sharp, J. Schneider, Ed Reid, Messrs. Barrett, Cromer and others.

Riverside Temple No. 12, Rathbone Sisters, elected the following officers last evening: M. E. C., Mrs. Nettie Waite; E. S., Mrs. Frances Ward; E. J., Mrs. Myrtles Hopkins; Manager, Mrs. Minnie Wilbur; M. of R. and C., Mrs. Ida Russell; M. of F., Miss M. Estella Stewart; Protector, Mrs. Kate Stewart; O. G., Mrs. Adelaide Baird; P. C., Mrs. Etta Cundiff.

SAN DIEGO COUNTY.

DRILLING FOR OIL BEGUN.

SAN DIEGO, June 13.—[Regular Correspondence.] The Monarch Oil Company began drilling Tuesday afternoon at Morena. A crowd watched the beginning of operations, the successful outcome of which would mean much to San Diego and vicinity.

OLDEST MISSION INDIAN DEAD.

Mrs. Gardindo, the oldest of the Mission Indians of this county, died last night at the County Hospital, at the advanced aged of 110 years. She was among the early converts to the Catholic faith by the mission fathers, and has throughout her long term of years been a constant member of the Catholic Church. Her age is verified by the church record.

TIDE-LAND CLAIMS.

The question of the legality of oil-claim locations on tide lands, many of which have been made on the shores of the ocean and bay, is attracting attention. There is a vast difference of opinion on the subject, and in case of successful oil development there would be a big grist for the courts to grind.

WILL REBUILD.

Col. S. H. Lucas and Mr. Phillips, who owned the National City Reduction Works, entirely destroyed by fire last Sunday, have decided to rebuild the establishment immediately.

CORONADO BEACH.

NOTES AND PERSONALS.

HOTEL DEL CORONADO, June 13.—[Regular Correspondence.] The steamer Santa Rosa, which arrived from the south last evening, brought a number of passengers who expect to spend the summer at the hotel, as in seasons past. Among them were the following named from San Francisco: Mrs. C. F. Mullens, Miss Maud Mullens, Mrs. Charles Moses, Miss Ellen O'Connor, Miss Tiny O'Connor, Mr. and Mrs. H. H. Sherwood, the Misses Sherwood and Warren Sherwood.

Miss M. W. Parsons and Miss J. S. Young of New York, who have been in California for two years past, dividing the time between Los Angeles, Pasadena nd Coronado, left here today for their eastern home.

Lee Chamberlin of the California Implement Company of Los Angeles is paying a visit to San Diego and Coronado, a guest at this hotel while on his southern trip.

H. A. Hunsacker of San Antonio, Tex., in California for the summer, accompanied by his wife, is a late Coronado arrival.

Miss M. E. Sawyer, W. L. Sawyer of New York City, Mrs. C. H. Holmes and Miss Poore of Kellogg, Cal., have taken apartments at this hotel for an indefinite sojourn.

SANTA CATALINA ISLAND.

BREAKING THE TUNA RECORD.

AVALON (Santa Catalina Island), June 13.—[Regular Correspondence.] Monday was another record day for tuna catches. The total number caught was twenty-one. Mr. Griswald of New York, who had already made himself famous as a fisherman, reached the top notch by placing five tuna to his personal credit in six hours' fishing. Mr. Griswald caught thirteen tuna with an aggregate weight of 1411 pounds during his ten days' fishing here. He is a member of the Union Club of New York.

Mrs. Gardner was the third lady to land a tuna this season. Her fish weighed 136 pounds. Mr. and Mrs. Connor, who were successful in landing tuna, felt so elated that they gave a banquet in honor of the Tuna Club last evening. The members present were William B. Burnham, F. V. Rider, Col. Eddy, C. A. Williams, Chaplain Wallace, T. S. Manning, M. J. Connell and J. C. Connor.

The Pomona College is represented by fifty uniformed boys who went into camp here yesterday for a short outing.

An Excellent Combination

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the company printed on the front of every package.

St. Louis	94	66	80	Kansas City	92	68	80
Los Angeles	66	57	62	Jacksonville	94	74	84

["Max. minimum" is for yesterday; the maximum for day before yesterday. The mean is the average temperature for the two days.]

PARAGRAPHETTES.

His Mission.

E. E. Crandall of this city started east last evening, according to the Record, to elect Bryan.

New Medicos.

The fifteenth annual graduating exercises of the College of Medicine of the University of Southern California will be held this evening in the Los Angeles Theater. A class of sixteen embryo doctors is ready to receive their long-worked-for rewards.

Would Pick Fruit.

A thief made an attempt to break into the fruit store of Hoffman & Julian, on First street near Broadway Tuesday night. He was frightened away before he had an opportunity to pick any of the fruit. A similar attempted burglary is reported by another fruit dealer.

Who Owns the Tools?

Henry Jenkins, who was caught in the act of trying to sell a lot of tools, consisting of carpenters, screwdrivers, forceps, etc., at cut-rate prices, is in jail on suspicion of petty larceny. The police are waiting for the owner of the tools to show up before filing a complaint against the suspect.

The Times Telephones.

The new numbers of The Times' telephones are as follows: Business office, Press 1, changed from Main 39; News Room, Press 2, changed from Main 674; Editorial Room, Press 3, changed from Main 37; Times-Mirror Printing and Binding House, Press 4, changed from Main 462.

A Good Samaritan Dance.

An entertainment, consisting of music and dancing, will be given this evening at the residence of Mr. and Mrs. O. P. Posey, in Chester Place, for the benefit of a free bed in the hospital of the Good Samaritan. All the invited guests are specially asked to be present, or, if unable, they may send their subscriptions direct to the hospital.

Reception to Teachers.

The last meeting of the season of the Chestnut Street Mothers' Club this afternoon, will be made the occasion of a reception to the teachers of the Chestnut-street school and to the members of that club. The reception has been arranged by Misses Parcell and Stanton of the kindergarten department of that school. It will be held from 3 p.m. to 4 p.m.

Fire from Crossed Wires.

Fire broke out at 1 p.m., yesterday in the basement of the Newell & Gamble building, No. 121 South Broadway, which was occupied by the Smith Premier Typewriter company. The flames originated from crossed electric wires, and were quickly extinguished by the chemical apparatus of engine company No. 1. The only damage done was the destruction of an electric motor.

Foresters' Anniversary.

The twenty-sixth anniversary of the Independent Order of Foresters will be celebrated next Sunday evening at Simpson Auditorium on South Hope street. G. A. McIntrush, High Chief Ranger of California, will preside. The programme will include a speech on the principles of the order by William M. Perry and a talk on its teachings by William E. Reavis. Rev. J. S. Thompson, M.A., will deliver the oration.

Athletic Club Election.

John E. Brink was yesterday re-elected president of the Los Angeles Athletic Club, and Thomas Darmody received the largest number of votes for vice-president.

Pursuant to section 23 of the bylaws the annual election of officers and directors for the ensuing year was held between the hours of 1 and 9 p.m. Between the hours named there were 197 ballots cast, resulting in the selection of the following named as directors: John E. Brink, Thomas Darmody, F. M. Mortman, Robert T. Brain, Ford Smith, Thomas H. Fox and Robert Rowan. Robert C. Lennie was elected captain of the club.

Board of Education.

The Board of Education held a special meeting at the rooms in the Laughlin building yesterday afternoon. The president and secretary were empowered to execute the contract and bond for the construction of a High School annex when the documents have been properly signed by the contractors. It is understood that W. H. Perry and Louis Roeder will go on the bond for Murphy & McClennan. It was first voted to constitute Frank Hudson, city superintendent of buildings, inspector of the work, but on matters consideration the board decided to give the work to Bradbeer & Lissner, whose bid was $200. Margaret E. Glick and Bertha Sagborn were elected substitute teachers.

Buggy Wrecked.

A buggy belonging to M. S. Starry, of No. 2307 Wilshire Boulevard, was demolished about 4 o'clock yesterday afternoon on South Broadway. The vehicle, which was drawn by a handsome black mare, had been left standing in front of the Broadway Department Store. When the driver unhitched, and before he was able to get in and secure the lines, the animal became frightened and started at mad pace down Broadway. Officer Wilson succeeded in stopping the runaway at Sixth street, but not before the vehicle was wrecked. It had collided with a large delivery wagon on the way, but the latter was not damaged. No one was injured. The black mare was slightly hurt.

Up in Smoke.

By order of the government, a lot of contraband opium—fully 300 pounds—went up in smoke yesterday morning. The opium had been collected in the office of the Deputy Internal Revenue Collector from seizures made in Chinatown during the last four years. It was of the mixed variety, the drug being adulterated with gum and molasses to make it suitable for smoking. The law requires that a government employé shall witness the destruction of the goods, and so Deputy John C. Wray and Collector William Waters bundled the stuff into an express wagon yesterday and took it to the river bed, where they had their bonfire. The money value of the opium was considerable, as it brings from $9 to $12 per pound, according to quality.

NEWS AND BUSINESS.

Remember the needy. Save your cast-off clothing, beds, bedding or stoves for poor families of the city. A request is also made for shoes and clothing for poor children. There are many poor families in need of wholesome food, and potatoes, beans, groceries, or canned fruit will be most thankfully received. Drop a card to Fred Wright, at the "Good Samaritan" (formerly Capt. Fraser's place,) No. 125 East Seventh street, and anything you have to donate will be called for.

Closing out sale of $15.75 for Thursday, Friday and Saturday only. Suits of fine materials, silk-lined throughout, made to order, for $27.50; regular price $35. Do not miss this opportunity. Fit and finish guaranteed. English Ladies' Tailor, No. 324 South Broadway, opposite Coulter's.

The Times is printed exclusively with News ink manufactured by the Los Angeles Printing Ink Co., 110 North Broadway. Best newspaper ink made. A trial order solicited. A specialty made of fine black and colored inks. Prices quoted on application.

Learn all about Southern California, its climate, soil, people, productions, commerce, progress and general business conditions, by sending 10 cents for a copy of the mammoth Midwinter Edition of the Los Angeles Times.

Today Miss A. Clarke will sell $10 and $13 hats for $5, including many lovely summer effects. Maison Nouvelle, No. 222 West Third street.

For time of arrival and departure of Santa Fé trains, see "Time Card" in today's Times.

The Times Job Office is equipped to do machine composition, 11 ems, at short notice.

Forty finest stamp photos only 25 cents. "Sunbeam," 236 South Main st.

Furs remodeled, D. Bonoff, 347 S. B'way

Whitney's trunk factory, 433, S. Spr'g.

W. M. McCullen sustained a painful cut on his left hand yesterday while working with a saw. After treatment at the Receiving Hospital he went to his home at Hollywood.

Police Surgeon Hagan treated H. D. Watts, of No. 923 West Sixth street, yesterday forenoon. While firing a boiler in the oil district Watts was badly burned on the right forearm and hand.

There are undelivered telegrams at the office of the Western Union Telegraph Company for Mrs. Van Vrendenburgh, Miss Helen A. Sanborn, James Keenan, Marie Wilber, George W. Silver, Union Supply Company, California Feed and Fuel Company.

Franz Herbig, who formerly lived in Cordelia, later in Sacramento, and who is reported to be somewhere in the neighborhood of Los Angeles, is wanted at the office of M. Esterneux, the German Vice-Consul, in the Henne Block, to receive important documents.

HAVANA POST'S SENSATION.

HOSPITAL NURSE TELLS OF THE SIGNING OF DOCUMENTS.

[A. P. DAY REPORT.]

HAVANA, June 13.—[By West Indian Cable.] The Post this morning publishes a sensational story in connection with the postal frauds. It says it has an attested communication from Fred Spencer, a hospital nurse, who attended Inspector Maynard during his last illness, alleging that the patient was called upon by two postal officials, who persuaded him when he was in a semi-conscious state to sign important documents. The next day the patient died.

Spencer expressed the belief that the securing of the signature must have been a very important matter, as the two men, holding positions such as those held by the callers, would not have risked contracting yellow fever for any light reasons. Spencer, the paper announces, gives the names of the men in question, but the Post does not publish them, simply saying that both are prominently connected with the postal frauds.

AT NEW YORK HOTELS.

NEW YORK, June 13.—[Exclusive Dispatch.] T. J. Wilson is at the Murray Hill; T. Ballington, at the Albert; H. D. Moores and wife, at the St. Cloud.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday from the office of the County Clerk:

Alexander C. Rosenthal, aged 29, a native of Missouri and a resident of St. Louis, Mo., and Genevieve Boyle, aged 22, a native of California and a resident of Los Angeles.

Milton E. Eng, aged 24, a native of Illinois and a resident of Lordsburg, and Gertrude F. Matney, aged 18, a native of Kansas and a resident of Irwindale.

William G. Hall, aged 30, a native of Missouri, and May C. Bradley, aged 21, a native of Illinois; both residents of Glendora.

DEATH RECORD.

THE LADY UNDERTAKER.

Mrs. Connell, with Orr & Hines, No. 657 South Broadway, has charge of all ladies and children intrusted to their care.

Bothered With Flies?

Probably. This is the time when they're thick. Screens can't keep 'em out. Fly paper catches some of them—we sell it. The best thing ever discovered to get rid of flies and other winged insects is

Pure Dalmation Insect Powder.

No doubt you have tried it. Perhaps you were not satisfied with the results. The fault was with the quality of the insect powder. The insect can't get away from the pure article. Sprinkle a little of it in a room where the flies are and they are go-ers. A peculiar thing about the pure article is that it is not poisonous to human beings, but if a fly gets anywhere near it, it stupefies and then kills. We'd like you to try some of the insect powder we have. We know it's pure. You'd be pleased with the results.

We sell it at 25 cents a pound.

FOULARD SILKS

The brightest and best assortment in all California buyers have been extravagantly lavish in their yet not too much so to please our customers. For ance of this week there will be a profuse display of silks. The prices quoted here are much less than stores are charging for the same qualities. They are the direct of the Hamburger method of buying. There is but one link between maker and consumer, and that link is the Hamburger Store.

At $1.25 We are in receipt of some very pretty new designs in satin finished foulard silks. These are Cheney Bros'. goods and are very superior in every respect. You can choose from large, medium and small patterns. Every new and popular shade is shown. This is the same quality of silk sold in patterns for $20.00. Here you can buy any quantity you wish at $1.25 a yard.

At $1.50 The very finest offoulard silks had. Made by Bros'. andusually sold in lengths for $25.00. The includes the newest pastel and an assortment of and dainty colorings. or prettier silks can be one price. Selling at yard.

At 69c A thousand yards of genuine Lyon's printed foulards in some of the season's most choice patterns. This fabric is all pure silk and will be found durable in wear. It comes in blue, gray, green black and tan grounds. Is 27 inches wide and is printed in a variety of large and small figures and stripes. You have seen this quality in other stores at 85c. Our price is 69c a yard.

At 85c About 25 pieces of Cheney Bros'. twilled foulards in new blues, tans reds, etc in large and small figures and all sizes of polka dots. This is the standard $1.00 quality, but by our method of buying, we can sell it at 85c a yard.

At $1.00 A most comprehensive multi-colored foulards. printed on a twilled cloth silk. All the new pastel shades, including old rose, blue, steel gray, castory dahlia, heliotrope, etc. Printed in a scroll effects, in large and small designs. stripes. There is also a line of plain colors grounds of the printed ones. A larger showing yard than all other stores in Los Angeles

No Hats So Dainty as These

A sale of nobby Walking Hats, Ladysmith Hats and Sailors.

At this season of the year almost every millinery reduces its prices—more or less.

The average woman thinks of something else besides price—there's style and quality to be counted as well.

And this big sale will draw a throng for two great reasons—our reductions are the greatest in the city—our styles are the kind that everyone is anxious to buy.
